**The Other Six Days** R. Paul Stevens, 2000-09-05 In this provocative book Stevens writes the clergy laity division has no basis in the New Testament and challenges all Christians to rediscover what it means to live daily as God's people Exploring the theological structural and cultural reasons for treating laypeople as the objects of ministry Stevens argues against the idea of clericalism and in favor of equipping people for ministry in their homes workplaces and neighborhoods *Dictionary of Twentieth-Century British Philosophers* Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture Twentieth Century Anglican Theologians Stephen Burns, Bryan Cones, James Tengatenga, 2020-12-21 A scholarly volume that reflects the rich diversity of Anglican theology With contributions from an international panel of writers Twentieth Century Anglican Theologians offers a wide ranging view that presents a survey of over twenty diverse Anglican thinkers The book explores well known figures including William Temple Austin Farrer Donald MacKinnon and John A T Robinson These theologians are set in a wider context alongside others from India China Australia Ghana and elsewhere Notably the subjects include a number of women from Evelyn Underhill the first woman to teach the clergy of the Church of England to Esther Mombo a major contemporary

**The Theological Imperative to Authenticity** Christy Capper, 2022-11-04 From a theological viewpoint this book explores the junction between the philosophical existential idea of the authentic self and its cultural appropriation The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action The author argues that this is not genuine authenticity Instead they consider that authenticity rests upon loyalty to something greater than oneself and for Christians this is the character of the God in whose image they are created and are being formed This book is illuminating reading for students and scholars of theological anthropology pastoral theology ethics and moral philosophy

*Lay Theology in the Reformation* Paul A. Russell, 2002-06-20 This book examines the coming of the Protestant Reformation from the viewpoint of eight common people who were sufficiently disturbed by the events of 1521 to write treatises letters dialogues and sermons which they published Their works are lively testimony to the interest of laypeople in the affairs of the church and their willingness to discuss often complex theological training These works are among the first documents of lay theology and piety but they are also propaganda disappointed with the Catholic clergy and with secular authorities the authors of these pamphlets were called to prophesy preach and convert their readers listeners lest Christ return soon to find his church unprepared They demanded a new apostolate for laypeople something the clergy had feared for centuries and something which civic authorities feared as a potential source of radical ideas
