The Guiana Maroons A Historical And Bibliographical Introduction:

The Guiana Maroons Richard Price,1976 *The Guiana Maroons* Richard X. Price, **The Guiana Maroons ("Bush Negroes")** Richard Price,1972 *The Boni Maroon Wars in Suriname* Wim Hoogbergen,2023-08-14 This a fascinating account of the history of the Boni Maroons Aluku Maroons of Surinam and French Guiana from about 1730 until 1860 Based on archival data oral history and the literature the author paints an overall picture of this interesting Maroon history of guerilla warfare slave resistance and rebellion General History of the Carribean UNESCO Vol.3 NA NA,2019-06-12 Volume 3 looks at various aspects of slave societies in the region from the seventeenth to the nineteenth centuries Throughout the tortuous history of the Caribbean nothing exceeded in fundamental importance the twin experiences of slavery and the plantation system the defining episodes of Caribbean social reality Topics addressed include European settler colonies the sugar revolutions forms of resistance the influence of creolization and religious beliefs and the place of the Maroon communities Knight also examines the internal and external forces that led to the eventual collapse of the Caribbean slave system General History of the Caribbean UNESCO Volume 6 NA NA,2019-06-12 Volume6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings The authors examine how the lingual diversity of the region has affected the historian s ability to coalesce an historical account The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure This volume concludes with a detailed bibliography that is comprehensive of the entire series *Africa and the African Diaspora* E. Kofi Agorsah and G. Tucker Childs,2005-12-29 *Africa and the African Diaspora* is the outcome of a symposium held atPortland State University in Portland Oregon February 2002 entitled Symposium on Freedom in Black History designed to celebrate Black History Month The major themes of the conference were how Africans both at home on the continent and dispersed abroad often by forces beyond their control reacted to oppression and subjugation in seeking freedom from slavery colonialism and discrimination The volume documents the many forms that oppression has taken the many forms that resistance has taken and the cultural developments that have allowed Africans to adapt to the new and changing economic social and environmental conditions to win back their freedom Oppressive strategies as divide and rule could be based on any one of a number of features such as skin color place of origin culture or social or economic status People drawn into the vortex of the Atlantic trade and funneled into the sugar fields the swampy rice lands or the cotton coffee or tobacco plantations of the new world and elsewhere had no alternative but to risk their lives for freedom The plantation provided the context for the dehumanization of disadvantaged groups subjected to exhausting work frequent punishment and personal injustice of every kind This book demonstrates that the history and interpretation of these struggles of the oppressed peoples to free themselves have not received proportionate attention and analysis as have other aspects of that history *The Imbalance of Power* Marc Brightman,2016-12-01

Amerindian societies have an iconic status in classical political thought. For Montaigne, Hobbes, Locke, Hume, and Rousseau, the native American state of nature operates as a foil for the European polity. Challenging this tradition, *The Imbalance of Power* demonstrates ethnographically that the Carib-speaking indigenous societies of the Guiana region of Amazonia do not fit conventional characterizations of simple political units with egalitarian political ideologies and harmonious relationships with nature. Marc Brightman builds a persuasive and original theory of Amerindian politics far from balanced and egalitarian. Carib societies are rife with tension and difference, but this imbalance conditions social dynamism and a distinctive mode of cohesion. *The Imbalance of Power* is based on the author's fieldwork in partnership with Vanessa Grotti, who is working on a companion volume entitled *Living with the Enemy: First Contacts and the Making of Christian Bodies in Amazonia*.

Africa in America Michael Mullin, 1992 In an attempt to lay bare the historical and cultural roots of modern African American societies in the South and the British West Indies, Michael Mullin gives a vivid depiction of slave family life, economic strategies, and religion, and their relationship to patterns of resistance and acculturation in two major plantation regions: the Caribbean and the American South. Generalized observations of plantation slavery usually assumed to be the whole of Africans' experience fail to provide definitive answers about how they met and often overcame the challenges and deprivations of their new lives. Mullin discusses three phases of slave resistance and religion in Anglo America, both on and off plantations. During the first or African phase, from the 1730s to the 1760s, slave resistance was generally sudden, violently destructive, and charged with African ritual. The second phase, from the late 1760s to the early 1800s, involved plantation slaves who were more conservative and wary. The third phase, from the late 1760s to the second quarter of the nineteenth century, was led by assimilated blacks, artisans, and drivers who, having developed skills both on and off the plantation, led the large preemancipation rebellions. Mullin's case studies of slaveowners and plantation overseers draw on personal diaries and other documents to reveal memorable men whose approaches to their jobs varied widely and were as much affected by interactions with slaves as by personal background, the location of the plantation, and the economic climate of the times. Extensive archival and anecdotal sources inform this pioneering study of slavery as it was practiced in Tidewater Virginia, on the rice coast of the Carolinas, and in Jamaica and Barbados. Bringing his training in anthropology to bear on sources from Great Britain, the Caribbean, and the United States, Mullin offers new and definitive information.

Jews in Another Environment Robert Cohen, 2023-11-27 The most important Jewish center in the western hemisphere during the eighteenth century was the great colony Surinam. There, Jews formed perhaps the most privileged Jewish community in the world. They were often plantation and slave owners, as well as a sizeable proportion of the white population. They had their own village with extensive autonomous rights. This book is a study of the impact of environment on Jewish life in a colonial society. It analyzes the impact of environment upon migratory patterns, health, and mortality, economic structures, intellectual life, and communal dynamics. Following the methods of social history, this book uses an interdisciplinary approach to examine the

impact of environment upon the modification of traditional values and modes of behavior This is the first full length monograph on Surinamese Jewry to appear in two hundred years The first one the Historical Essay of David Nassy treated Jewish history as part of the colonial experience This book treats the colonial experience as part of Jewish history
