Arthur Gill

The Academic Community An Essay On Organization:

The Academic Community John David Millett, 1962 For universities the traditional model of governance has been one defined by a consensus oriented decision making process wherein the academic community is self organizing which does not require an external hierarchical authority With the expansion of enrollment the enlargement of activities undertaken and continual financial difficulties many in higher education have embraced the idea that improved organization is a way of addressing these problems This volume examines the question of organization within an academic community *The Academic Community* Arthur Gill, 1962 **Academic Leadership and Governance of Higher Education** James T. Harris, Jason E. Lane, Jeffrey C. Sun, Gail F. Baker, 2023-07-03 Winner of the 2012 ASHE CAHEP Barbara Townsend Lecture Award To prosper and thrive in an increasingly unpredictable national and global environment U S higher education will need to adapt innovate and evolve once again as it has during every major societal change over the past four centuries The purpose of this new edition published a turbulent decade after the first is to provide institutional leaders from department chairs to trustees with a broad understanding of the academic enterprise strategic guidance and key principles to assist them in navigating the future and drive the success of their institutions as they confront the unimagined Recognizing that the hallmark of higher education in the U S is the diversity of institution types each of which is affected differently by external and internal influences the authors provide examples and ideas drawn from the spectrum of colleges and universities in the not for profit sector This book covers the major functions and constituent departments and units within institutions the stakeholders from students and faculty through the echelons of administration the external environment of elected officials foundations philanthropists and the new changing media and innovations in teaching technology data analytics legal frameworks as well as economic demographic and political pressures The book is informed by the proposition that adhering to four principles which the authors identify as having enabled institutions of higher education to successfully navigate ever changing and volatile pasts will enable them to flourish in the coming decades The four principles are 1 Be mission centric by making all key decisions based on a core mission and set of values 2 Be able to adapt to environmental change in alignment with the mission and core values 3 Be committed to democratic ideals by seeking to promote them and modeling democratic practices on and off campus 4 Be models for inclusion equity and positive social change **An Essay on Organization** John D. Millett, 1962 DHEW Publication No. (OE), 1974 **Order and Freedom on the Campus** Western Interstate Commission for Higher Education, 1965 **The Library in the Organizational and Administrative Structure of the Canadian University** Virginia Elizabeth Murray, 1966 The Power of Collegiality Nadja Bieletzki, 2017-12-16 Nadja Bieletzki explores how university presidents lead universities She provides insights into the upper echelons of higher education management and focuses especially on university presidents in Germany Special attention is given to the career background of university presidents and the way they conduct reform projects Based on the results from semi structured

expert interviews and their qualitative analysis the author shows that university presidents do not use all their formal power although their position has been strengthened by law This can be explained by the collegial characteristics of universities which drive and restrict presidential actions Nadja Bieletzki was awarded the Ulrich Teichler Prize for Excellent Dissertations 2016 **University Authority and the Student** C. Michael Otten, 1970 An analysis of the crisis of legitimacy on American campuses in terms of the inherent dilemmas of organizational control The author traces the origins of traditional student government and administrative paternalism He shows that despite the willingness of most students in former years to be co opted into a more or less unified system of control activist students never regarded the structure as legitimate The author contends that the crisis of university authority is just one manifestation of a deeper rebellion against the dominant organizational trend in modern society a trend toward greater administrative centralization based upon planning and rational coordination The Library in the Administrative and Organizational Structure of the American Public Community College Everett LeRoy Moore, 1973
