The Act of Interpretation Walter Albert Davis, 1978 **The Act of Interpretation** Walter A. Davis, *The Act of Interpretation* Anwar Ahmad Khan, 1978 **Intention Interpretation** Gary Iseminger, 2010-08-12 an excellent and comprehensive discussion of a debate that was initiated in this century in William Wimsatt's and Monroe C Beardsley's influential article *The Intentional Fallacy* this is a splendidly conceived and very useful collection of essays Readers will want to take issue with the arguments of individual authors but this is to be expected in a volume at the cutting edge of a fertile philosophical controversy David Novitz *The Philosophical Quarterly* What is the connection if any between the author's intentions in while writing a work of literature and the truth acceptability validity of interpretive statements about it With this question Gary Iseminger introduces a literary debate that has been waged for the past four decades and is addressed by philosophers and literary theorists in *Intention and Interpretation* Thirteen essays discuss the role of appeals to the author's intention in interpreting works of literature A well known argument by E D Hirsch serves as the basic text in which he defends the appeal to the author's intention against Wimsatt and Beardsley's claim that such an appeal involved the intentional fallacy The essays mostly commissioned by the editor explore the presuppositions and consequences of arguing for the importance of the author's intentions in the way Hirsch does Connections emerge between this issue and many fundamental issues in metaphysics and the philosophy of mind as well as in aesthetics The old New Criticism and current Post Structuralism tend to agree in disenfranchising the author and many people now are disinclined even to consider the alternative Hirsch demurs and arguments like his deserve the careful attention both from critics and sympathizers that they receive here Literary scholars and philosophers who are sympathetic to Continental as well as to Anglo American styles of philosophy are among the contributors This is a timely book appearing as it does when postmodernist views of the death of the author are disappearing quickly from the scene As a collection it exemplifies the best work that is being done on this problem at the moment and it will no doubt inspire further debate *The Journal of Aesthetics and Art Criticism* This volume contains important articles illuminating the central debate over the role and relevance of authorial intentions in literary interoperation *British Journal of Aesthetics* **The Reader in the Text** Susan Rubin Suleiman, Inge Crosman, 2014-07-14 A reader may be in a text as a character is in a novel but also as one is in a train of thought both possessing and being possessed by it This paradox suggests the ambiguities inherent in the concept of audience In these original essays a group of international scholars raises fundamental questions about the status be it rhetorical semiotic and structuralist phenomenological subjective and psychoanalytic sociological and historical or hermeneutic of the audience in relation to a literary or artistic text Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover

editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *American Literary Criticism Since the 1930s* Vincent B. Leitch, 2009-09-10 *American Literary Criticism Since the 1930s* fully updates Vincent B Leitch's classic book *American Literary Criticism* from the 30s to the 80s following the development of the American academy right up to the present day Updated throughout and with a brand new chapter this second edition provides a critical history of American literary theory and practice discussing the impact of major schools and movements examines the social and cultural background to literary research considering the role of key theories and practices provides profiles of major figures and influential texts outlining the connections among theorists presents a new chapter on developments since the 1980s including discussions of feminist queer postcolonial and ethnic criticism Comprehensive and engaging this book offers a crucial overview of the development of literary studies in American universities and a springboard to further research for all those interested in the development and study of Literature T.S. Eliot Materialized: Literal Meaning and Embodied Truth G. Atkins, 2012-10-30 By reading T S Eliot literally and laterally and attending to his intra textuality G Douglas Atkins challenges the familiar notion of Eliot as bent on escaping this world for the spiritual This study culminates in the necessary but seemingly impossible union of reading and writing literature and commentary *Swift's Satires on Modernism: Battlegrounds of Reading and Writing* G. Atkins, 2012-12-17 More than three centuries later Jonathan Swift's writing remains striking and relevant In this engaging study Atkins brings forty plus years of critical experience to bear on some of the greatest satires ever written revealing new contexts for understanding post Reformation reading practices and the development of the modern personal essay *What Happens in Literature* Edward W. Rosenheim, 1961 How can we become good readers In this classic handbook Edward W Rosenheim lays out the basics that can help us all become sharper more proficient readers Looking at specific poems novels and plays this excellent critical guide raises questions and offers suggestions designed to make us think more and enjoy more fully what we are reading Designed for students of literature as well as those who simply like to read *What Happens in Literature* helps readers appreciate literary works as unique creations born in a particular time and place but powerful enough to speak across centuries Theory and Tradition in Eighteenth-century Studies Richard B. Schwartz, 1990 This is a collection of nine essays by senior scholars Donald Greene Morris R Brownell Richard B Schwartz Howard D Weinbrot Maximillian Novak J Paul Hunter John H Middendorf Shirley Strum Kenny and Gwin J Kolb They draw from their own experiences as students and scholars to assess the past and present position of theory in eighteenth century studies and to discuss the important areas of scholarship that remain relatively unexplored often proposing specific projects Some essays are controversial all are lively and personal The essays evolved from a 1987 conference held at Georgetown University the first such conference to examine the state of eighteenth century literary studies in fifteen years
