The Aegina Treasure An Archaeological Mystery:

The Aegina Treasure Reynold Alleyne Higgins, 1979 *The Aegina Treasure* Nigel Meeks, Dyfri Williams, 2009 Since its arrival at the British Museum in 1891 the Aegina Treasure a group of Greek Bronze Age gold jewellery and other objects that is believed to come from the island of Aegina has been shrouded in mystery and speculation The many uncertainties about the Treasure include its place of origin whether all the objects are from the same findspot whether it should be considered as a homogenous group Through examination of stylistic elements and comparison with objects from other collections the contributors to this volume variously argue for the Treasures possible Minoan Mycenaean Near Eastern and Egyptian connections Major discoveries in the field have been made since Reynold Higgins 1979 publication on the Treasure including the excavation of a warrior shaft grave in Aegina in 1981 The essays are complemented by a complete catalogue of the Treasure which incorporates the results of an extensive technological examination and is accompanied by specially taken beautiful colour photographs The Art and Archaeology of the Aegean Bronze Age Jean-Claude Poursat, 2022-06-09 The Art and Archaeology of the Aegean Bronze Age offers a comprehensive chronological and geographical overview of one of the most important civilizations in human history Jean Claude Poursat s volume provides a clear path through the rich and varied art and archaeology of Aegean prehistory from the Neolithic period down to the end of the Bronze Age Charting the regional differences within the Aegean world his study covers the full range of material evidence including architecture pottery frescoes metalwork stone and ivory all lucidly arranged by chapter With nearly 300 illustrations this volume is one of the most lavishly illustrated treatments of the subject yet published Suggestions for further reading provide an up to date entry point to the full richness of the subject Originally published in French and translated by the author s collaborator Carl Knappett this edition makes Poursat s deep knowledge of the Aegean Bronze Age available to an English language audience for the first time An Archaeology of Ancestors Carla Maria Antonaccio, 1995 In this fresh consideration of the origins of the ancient Greeks ideas and practices concerning their own past Carla M Antonaccio demonstrates that hero cult and ancestor cult persisted throughout the Iron Age long before epic poetry s heroic narratives were widely disseminated Although it was not until the dissolution of Iron Age societies that epic poetry and organized hero cult developed to aid claims to legitimacy practices such as visiting tombs to make offerings were common and contradict the usual picture of Iron Age religious conservatism **Maritime Networks in the Mycenaean World** Thomas F. Tartaron, 2013-05-27 In this book Thomas F Tartaron presents a new and original reassessment of the maritime world of the Mycenaean Greeks of the Late Bronze Age By all accounts a seafaring people they enjoyed maritime connections with peoples as distant as Egypt and Sicily These long distance relations have been celebrated and much studied by contrast the vibrant worlds of local maritime interaction and exploitation of the sea have been virtually ignored Dr Tartaron argues that local maritime networks in the form of coastscapes and small worlds are far more representative of the true fabric of Mycenaean life He offers a complete

template of conceptual and methodological tools for recovering small worlds and the communities that inhabited them Combining archaeological geoarchaeological and anthropological approaches with ancient texts and network theory he demonstrates the application of this scheme in several case studies This book presents new perspectives and challenges for all archaeologists with interests in maritime connectivity
