Puig, Michael Conforti, 1989 **The American Craftsman**, 1964 **Portraits of the American Craftsman** Tadd Myers, 2013-11-12 Stunning Parade Magazine A rare pictorial journey across America Bookpage Portraits of the American Craftsman is a collection of portraits of the people and products made in small workshops all over the country with lyrical descriptions of what they make who they are and the tradition embedded in their trade This book is a celebration of the handmade at a time when it s being embraced by a new generation of DIY and local focused consumers who are averse to the mass produced Award winning photographer Tadd Myers is four years into a cross country journey to capture images of the American craftsman engaged in his work At a time when the public is growing disenchanted by the disposable items that litter the American landscape the workers in Tadd s portraits are still using human eyes to guide human hands the objects they make carry the souls of their makers His beautifully rendered photographs and profiles celebrate the thriving American culture of true craftsmanship which is alive and well in all parts of the country from the Steinway factory in Queens NY to hatmakers in Tennessee from a carousel works shop in Ohio to guitar makers in Texas from hatmakers in Chicago to boatbuilders in Vermont In the connected realm of photo rich social media platforms such as Pinterest and Etsy and in reaction to the mammoth corporations that create and sell us our wares we re seeing a boom of Americans of all ages re evaluating the values that actually inspire them Away from these conglomerates the American craftsman keeps a different more personal kind of work alive work that is uniquely inspirational and genuine **The American Craftsman** Nathanael E. Mucha, 2012 Beginning with the Arts and Crafts period in the 1800s craft has established itself as a vital cultural and socio economic force in Western society As the original movement cooled at the beginning of the 20th century it evolved under the pressures generated by World War I and II taking on different forms as it influenced various art movements Originally a reaction to industrialization shifts in culture due to technological innovation and redistribution in the labor force throughout the 20th century reignited the craft flame for the everyday American in the form of the post war Do It Yourself DIY spirit In the late 20th and early 21st centuries there has been a resurgence of craft as

a means of personal fulfillment ownership over environment and as a response to commercialization and standardization This fueled and propagated by the Internet forms the ideological basis for a vast diverse and scattered community of craftsmen Through interviews questionnaires case studies and extensive secondary research on the topic of craftsmanship both historical and current the idea of unifying this group of modern craftsmen and projecting their thoughts for mainstream consideration will be investigated Many individuals craft for various reasons but there are threads that run deep through craft that link the contemporary American craftsman to the thinker maker described by John Ruskin in the 19th century It is this set of commonalities and departures that will be explored and brought to the public s attention through this study
