Authors of Their Lives

David A. Gerber, 2008-07 2008 United States Postal System's Rita Lloyd Moroney Award In the era before airplanes and e-mail how did immigrants keep in touch with loved ones in their homelands as well as preserve links with pasts that were rooted in places from which they voluntarily left Regardless of literacy level they wrote letters explains David A Gerber in this path breaking study of British immigrants to the U S and Canada who wrote and received letters during the nineteenth century Scholars have long used immigrant letters as a lens to examine the experiences of immigrant groups and the communities they build in their new homelands Yet immigrants as individual letter writers have not received significant attention rather their letters are often used to add color to narratives informed by other types of sources Authors of Their Lives analyzes the cycle of correspondence between immigrants and their homelands paying particular attention to the role played by letters in reformulating relationships made vulnerable by separation Letters provided sources of continuity in lives disrupted by movement across vast spaces that disrupted personal identities which depend on continuity between past and present Gerber reveals how ordinary artisans farmers factory workers and housewives engaged in correspondence that lasted for years and addressed subjects of the most profound emotional and practical significance

How the Post Office Created America Winifred Gallagher, 2017-07-04 The history of its Post Office is nothing less than the story of America Ms Gallagher's opening sentence declares and in this lively book she makes the case well Wall Street Journal A masterful history of a long underappreciated institution How the Post Office Created America examines the surprising role of the postal service in our nation's political social economic and physical development The founders established the post office before they had even signed the Declaration of Independence and for a very long time it was the U S government's largest and most important endeavor indeed it was the government for most citizens This was no conventional mail network but the central nervous system of the new body politic designed to bind thirteen quarrelsome colonies into the United States by delivering news about public affairs to every citizen a radical idea that appalled Europe's great powers America's uniquely democratic post powerfully shaped its lively argumentative culture of uncensored ideas and opinions and made it the world's information and communications superpower with astonishing speed Winifred Gallagher presents the history of the post office as America's own story told from a fresh perspective over more than two centuries The mandate to deliver the mail then the media imposed the federal footprint on vast often contested parts of the continent and transformed a wilderness into a social landscape of post roads and villages centered on post offices The post was the catalyst of the nation's transportation grid from the stagecoach lines to the airlines and the lifeline of the great migration from the Atlantic to the Pacific It enabled America to shift from an agrarian to an industrial economy and to develop the publishing industry the consumer culture and the political party system Still one of the country's two major civilian employers the post was the first to hire women African

Americans and other minorities for positions in public life Starved by two world wars and the Great Depression confronted with the country's increasingly anti institutional mind set and struggling with its doubled mail volume the post stumbled badly in the turbulent 1960s Distracted by the ensuing modernization of its traditional services however it failed to transition from paper mail to email which prescient observers saw as its logical next step Now the post office is at a crossroads Before deciding its future Americans should understand what this grand yet overlooked institution has accomplished since 1775 and consider what it should and could contribute in the twenty first century Gallagher argues that now more than ever before the imperiled post office deserves this effort because just as the founders anticipated it created forward looking communication oriented idea driven America

Care-Centered Politics Robert Gottlieb, 2022-08-02 Why a care economy and care centered politics can influence and reorient such issues as health the environment climate race inequality gender and immigration This agenda setting book presents a framework for creating a more just and equitable care centered world Climate change pandemic events systemic racism and deep inequalities have all underscored the centrality of care in our lives Yet care work is for the most part undervalued and exploited In this book Robert Gottlieb examines how a care economy and care politics can influence and remake health climate and environmental policy as well as the institutions and practices of daily life He shows how through this care centered politics we can build an ethics of care and a society of cooperation sharing and solidarity Arguing that care is a form of labor Gottlieb expands the ways we think about home care child care elder care and other care relationships He links them to the Green New Deal Medicare for All immigration and the militarization of daily life He also provides perspective on the events of 2020 and 2021 including the COVID 19 pandemic climate change and movements calling attention to racism and inequality as they relate to a care politics Care says Gottlieb must be universal whether healthcare for all care for the earth care at work or care for the household shared equally by men and women Care centered politics is about strategic and structural reforms that imply radical and revolutionary change Gottlieb offers a practical mindful yet also utopian politics of daily life

Taking on the Trust: How Ida Tarbell Brought Down John D. Rockefeller and Standard Oil Steve Weinberg, 2009-08-10 This dual biography tells the story of how Ida Minerva Tarbell an ambitious reporter brought down John D Rockefeller the tycoon at the head of Standard Oil Adapted from back cover

Pillar to Post Samuel Willard Crompton, 2000-08-25 In short this was a paradise on Earth for women the epicure's Elysium and the very centre of freedom and hospitality But in the short space of three years it has become the theatre of War the Country of distraction and the seat of slavery confusion and lawless oppression May the Almighty of his infinite goodness and mercy reunite and reestablish them on their former happy and flourishing situation Nicholas Cresswell July 19 1777 This man Herd at 72 is strong and robust he has been in the postal riding service 46 years he pretends that he makes nothing by it and says he will give it up that at present he only rides for his health's sake which induces him to keep it It is well known that he had made an estate by his riding and it is said in the following way Hugh Finlay November 11 1773 Narrow escapes from

prison Adventures with Indian wives and wanderings through Moose country Postal riders sometimes negligent All of these and more surface in this delightful and sometimes astonishing combination of journals from the Revolutionary period With Hugh Finlay we walk from Quebec City to Charleston South Carolina In the company of Nicholas Cresswell we journey from Chesapeake Bay to Indian country in what is now Ohio and Kentucky These two British subjects don't approve of the American Revolutionaries not by a long shot Cresswell invents a code by which to describe the people he meets Sleds or Sleds spell them backwards to get the truth All together it's a riveting ride through the years 1773 to 1777
