David Hirschel,William O. Wakefield,Scott Sasse,2008 A detailed comparison between the English and U S criminal justice systems **English Prisons** Allan Brodie,Jane Croom,James O Davies,2014-06-15 For most of us the prison is an unfamiliar institution and life inside is beyond our experience However more than 60 000 people now live in our gaols some serving their sentences in buildings with Victorian or more ancient origins others in prisons dating from the last twenty years English Prisons An Architectural History is the result of the first systematic written and photographic survey of prisons since the early 20th century It traces the history of the purpose built prison and its development over the past 200 years Over 130 establishments that make up the current prison estate and over 100 former sites that have surviving buildings or extensive documentation have been investigated institutions ranging from medieval castles and military camps to country houses that have been taken over and adapted for penal use The Prison Service granted the project team unprecedented access to all its establishments allowing the compilation of an archive of more than 5 000 images ad 250 research files The team was allowed to go anywhere to photograph almost anything except where this could compromise security and to speak to any inmate A selection of the images from the archive illustrates this book **The Use of Imprisonment** Seán McConville,2023-10-25 In the previous few years English penal policy had undergone considerable change Originally published in 1975 the contributors to The Use of Imprisonment focus on the use of imprisonment in such a time of transition and examine various aspects of penal policy administrative organizational staffing legal philosophical The volume provides a valuable introduction to penal policy and administration and to some of the central issues in the penological debate at the time Influenced mainly by events in the United States interest had been growing in England in prisoners legal rights and in the laws affecting imprisonment This complemented an increasing mood of scepticism among many psychologists sociologists and other social scientists in relation to the aims and methods of reformatory imprisonment Such thinking although still largely divergent and amorphous had gone far towards undermining

the penological axioms and aspirations of the last few generations The precise direction of new policy was still unclear but the essays in this book make various informed suggestions as to the future and also provide an examination of the present state of several key areas They emphasise the failure of the treatment model of imprisonment while at the same time recognising the need to be cautious about breaking down the prison walls and bringing treatment into the community

The Rise and Fall of the Rehabilitative Ideal, 1895-1970 Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history

Imprisonment in England and Wales Christopher Harding, Bill Hines, Richard Ireland, Philip Rawlings, 2023-10-25 Originally published in 1985 Imprisonment in England and Wales is an account of the changing functions and conditions of imprisonment in England and Wales from the Medieval period to the present day It is designed both as a text for students and teachers of history law and social science and as an introduction to the subject for more general readers and is one of the few attempts to provide an overall view of the institution of imprisonment in this country over a period of several centuries The authors have made use of original sources and other research to provide an accessible account of the subject combining essential factual detail with an analysis of the use of imprisonment It is therefore particularly of interest to those approaching the subject for the first time and is also intended to provide guidance for further research into particular areas of the subject The authors draw upon their respective knowledge of four main periods to show how imprisonment has performed a number of different functions the punishment and reform of convicted offenders the coercion of debtors the custody of persons awaiting trial and more generally the containment of society's undesirables At the same time the institution of imprisonment is put into the context of wider social political and economic forces and related to the development of an increasingly centralised and incursive system of criminal law as well as to the use and disuse of other forms of punishment and legal control This discussion is supported by an account of the characteristics of prisons the

problems of administration and the implementation of penal and reformatory policy *Inside Justice* Bayard Marin,1983

Comparisons of prison in the United States and Great Britain are used to formulate central issues that relate to the adjudication of offenses committed within prisons and the imposition of punishments for them **Money and the Governance of Punishment** Patricia Faraldo Cabana,2017-06-26 Money is the most frequently means used in the legal system to punish and regulate Monetary penalties outnumber all other sanctions delivered by criminal justice in many jurisdictions imprisonment included More people pay fines than go to prison and in some jurisdictions many of those in prison are there because of failure to pay their fines Therefore it is surprising how little has been written in the Anglophone academic world about the nature of money sanctions and their specific characteristics as legal sanctions In many ways legal innovations related to money sanctions have been poorly understood This book argues that they are a direct consequence of the changing meaning of money Considering the meaninglessness of modern money the book aims to examine the history of changing conceptions in how fines have been conceived and used Using a set of interpretative techniques sensitive to how money and freedom are perceived the genealogy of the penal fine is presented as a story of constant reformulation in response to shifting political pressures and changes in intellectual developments that influenced ideological commitments of legislators and practitioners This book is multi disciplinary and will appeal to those engaged with criminology sociology and philosophy of punishment socio legal studies and criminal law **Crime and Penal Policy** Barbara Wootton,2022-08-01

First published in 1978 *Crime and Penal Policy* is primarily addressed to non professional people interested in criminal law and the penal system such as magistrates prison visitors and anyone accused or convicted of criminal offences At the same time many of the topics discussed will be of central interest to practising professionals and academic specialists in law criminology and penal policy Barbara Wootton was appointed to the Bench before she was old enough to vote and served for forty four years as a Justice of the Peace in London including many years as a chairman in the Metropolitan Juvenile Courts and Deputy Chairman of the South Westminster Bench In this book she has brought together personal reflections on her exceptionally wide experience and on her contacts with the development of penal policy as a member of the House of Lords the Government Advisory Council on the Penal System and many other official Committees
