## **The Enjoyment Of Leadership:**

The Joy of Leadership Tal Ben-Shahar, Angus Ridgway, 2017-07-14 Think of the last time you were at your best and working in the zone Now compare that to all the time you've spent just going through the motions How would you quantify the difference between the two in terms of how you felt and what you produced Would you rate it as a 5% difference a 50% difference Most people would describe the gulf between those two states of being as vast as deep and wide as the Grand Canyon For quality of experience engagement productivity and just the sheer joy of living the majority of people asked to rate the difference between flourishing and floundering found it to be around a factor of 10 In their work with managers and executives at leading companies around the world authors Tal Ben Shahar and Angus Ridgway have identified a select group of individuals who consistently perform at their peak and who make work seem effortless and working with them feel easy The name they've given to those lucky few is 10X Leaders You know who they are They're the team leaders who bring out the best in everyone They're the senior managers who drive growth and innovation They're the dream bosses dream partners and dream colleagues There's a good chance you've encountered at least one 10X leader in your career you're probably thinking of one right now And you wondered how they did it Dr Ben Shahar and Mr Ridgway believe they know the answer They have identified the core characteristics behaviors and cognitive styles that all 10X leaders share Even better they've developed a way for virtually anyone to cultivate those traits and ways of thinking in themselves to become happier more effective and more successful In this powerful new book they describe their revolutionary SHARP Strength Health Absorption Relationships and Purpose program for becoming a 10X leader They tell you the true stories of people at organizations around the globe who've become more effective by learning to use these performance multipliers And they offer proven strategies for mastering those characteristics and habits for lasting change the kind of change that can bring you greater fulfillment and success not just at work but in every area of your life **Enjoying What We Don't Have** Todd

McGowan, 2020-03-01 Although there have been many attempts to apply the ideas of psychoanalysis to political thought this book is the first to identify the political project inherent in the fundamental tenets of psychoanalysis And this political project Todd McGowan contends provides an avenue for emancipatory politics after the failure of Marxism in the twentieth century Where others seeking the political import of psychoanalysis have looked to Freud's early work on sexuality McGowan focuses on Freud's discovery of the death drive and Jacques Lacan's elaboration of this concept He argues that the self destruction occurring as a result of the death drive is the foundational act of emancipation around which we should construct our political philosophy Psychoanalysis offers the possibility for thinking about emancipation not as an act of overcoming loss but as the embrace of loss It is only through the embrace of loss McGowan suggests that we find the path to enjoyment and enjoyment is the determinative factor in all political struggles and only in a political project that embraces the centrality of loss will we find a viable alternative to global capitalism **The Student Leadership Challenge** James M.
