The Epochal Body:

The Epochal Nature of Process in Whitehead's Metaphysics F. B. Wallack, 1980-06-30 While my book attempts to reflect the full range of scholarly debate I have also attempted to make it useful to anyone interested in Whitehead To this end I have introduced the Whiteheadian terms one by one explaining each in the light of my interpretation and I have used examples wherever possible I try to show that Whitehead intended his philosophy have a place in our lives by reshaping our common conceptions and that he did not intend it to be relegated to purely abstract or esoteric application F Bradford Wallack The twentieth century has seen the greatest innovations in philosophical cosmology since Newton and Descartes and Alfred North Whitehead was the first and greatest of the philosophers to work out these innovations in systematic ways In a book that will be controversial in the philosophical community F Bradford Wallack argues that interpretations widely accepted by Whiteheadians need revaluation because these interpretations are based on materialist and substantialist assumptions that Whitehead sought to replace Specifically she proposes a thorough revision of accepted interpretations of Whitehead's concept of the actual entity Wallack then elucidates Whitehead's ideas in order of their increasing dependence upon other basic Whiteheadian terms to complete the study of Whiteheadian time and to clarify its purpose within the cosmology of Process and Reality Whitehead's philosophy then emerges as more intelligible and cohesive than is generally believed

The Epochal Body Andrew Mossin, 1999 Poetry THE EPOCHAL BODY is an epic of the body a journey that begins prior to the body's formation and that extends beyond its known life With its unique mixture of spiritual yearning passion intimacy and pain Andrew Mossin's THE EPOCHAL BODY counts as among the most beautifully exquisite books of our time Hank Lazer Fundamental relationships familial erotic selves and self are made sublime haunted and encoiled in the rich poetic textures of Mossin's work Here is a writer of absolute intensity a writer to reckon with Rachel Blau DuPlessis

What If There's Nothing Wrong? Alison J. Kay PhD, 2012-11-27 Have you been feeling like life has become less reliable and stable Are you looking for more hope health and calm in your life You're not alone There are external factors causing these feelings You will be completely unable to remain the same as this book weaves you through the world as we have known it into a world where anything is possible No stone is left unturned through this thoroughly researched exploration of mostly unexamined factors inherent to Western society that set us up to feel more uncomfortable at this time in the West particularly in the U S as we undergo a macroshift globally Written at the tail end of her ten years living and working in Asia to understand why it seems now that we were less equipped to create vibrantly healthy happy lives in the West Alison J Kay PhD documents an eye opening sometimes humorous sometimes raw contrast of modern globalized Western culture with Asian Feel the freedom as she gently guides you to more ease

Love and Other Technologies Dominic Pettman, 2006 Can love really be considered another form of technology Dominic Pettman says it can although not before carefully redefining technology as a cultural challenge to what we mean by the human in the information age Using the writings of such

important thinkers as Giorgio Agamben Jean Luc Nancy and Bernard Stiegler as a springboard Pettman explores the tectonic movements of contemporary culture specifically in relation to the language of eros Highly ritualized expressions of desire love in other words always reveal an era's attitude toward what it means to exist as a self among others For Pettman the articulation of love is a technique of belonging a way of responding to the basic plurality of everyone's identity a process that becomes increasingly complex as the forms of mediated communication from cell phone and text messaging to the mass media multiply and mesh together Wrestling the idea of love from the arthritic hands of Romanticism Pettman demonstrates the ways in which this dynamic assemblage the stirrings of the soul have always been a matter of tools devices prosthetics and media Love is after all something we make And love this book argues is not eternal but external **The Art of Dreams**

Barbara Hahn, Meike Werner, 2016-08-22 We all dream we all share these strange experiences that infuse our nights But we only know of those nightly adventures when we decide to represent them In the long history of coming to terms with dreams there seem to be two different ways of delineating our forays into the world of the unconscious One is the attempt of interpreting or unveiling the hidden meaning of dreams The other one is not so much concerned with the relation of dream and meaning of dream and reality it rather concentrates on trying to find means of representation for this extremely productive force that determines our sleep The essays collected in this book explore both attempts They follow debates in philosophy and psychoanalysis and they study literature theatre dance film and photography **The Face of Immortality**

Davide Stimilli, 2012-02-01 The literature on physiognomy the art of studying a person's outward appearance especially the face in order to determine character and intelligence has flourished in recent years in the wake of renewed scholarly interest in the history and politics of the body Virtually no attention however has been devoted to the vocabulary and rhetoric of physiognomy The Face of Immortality addresses this gap arguing that the trend in Western culture has been to obliterate the face which is manifested in criticism as a disregard for the letter Denouncing this trend Davide Stimilli draws on Hebrew Greek Latin Italian English and German sources in order to explore the terminology and historical development of physiognomy Stimilli takes physiognomy to be the resistance to such an obliteration of the face and argues that it offers a model for a theory of reading that does not discount the letter as inessential Elaborating on the work of Walter Benjamin he defines the task of physiognomical criticism as transliteration which preserves the letter rather than translation which obliterates it The Face of Immortality is meant to exemplify the method and test the reach of such a criticism which aims at mediating between philology and philosophy between literal and allegorical modes of interpretation **The Automobile**

, 1909 *Shakespeare's Ruins and Myth of Rome* Maria Del Sapio Garbero, 2021-12-30 Rome was tantamount to its ruins a dismembered body to the eyes of those Italians and foreigners who visited the city in the years prior to or encompassing the lengthy span of the Renaissance Drawing on the double movement of archaeological exploration and creative reconstruction entailed in the humanist endeavour to resurrect the past ruins are seen as taking precedence over myth in Shakespeare's

Rome They are assigned the role of a heuristic model and discovered in all their epistemic relevance in Shakespeare's dramatic vision of history and his negotiation of modernity This is the first book of its kind to address Shakespeare's relationship with Rome's authoritative myth archaeologically by taking as a point of departure a chronological reversal namely the vision of the eternal city as a ruinous scenario and hence the ways in which such a layered silent and aporetic scenario allows for an archaeological approach to Shakespeare's Roman works The Time of the Cannibals Elizabeth Anne Davis, 2024-11-05 In 2009 the body of a former president of the Republic of Cyprus Tassos Papadopoulos was stolen from his grave The Time of the Cannibals reconsiders this history and the public discourse on it to reconsider how we think about conspiracy theory and specifically what it means to understand conspiracy theories in context The months after Papadopoulos's body was stolen saw intense public speculation in Cyprus including widespread expressions of sacrilege along with many false accusations against Cypriots and foreigners positioned as his political antagonists Davis delves into the public discourse on conspiracy theory in Cyprus that flourished in the aftermath tracing theories about the grave robbery to theories about the division of Cyprus some thirty five years earlier and both to longer histories of imperial and colonial violence Along the way Davis explores cross contextual connections among Cyprus and other locales in the form of conspiracy theories as well as political theologies regarding the dead bodies of political leaders Through critical close readings of academic and journalistic approaches to conspiracy theory Davis shows that conspiracy theory as an analytic object fails to sustain comparative analysis and defies any general theory of conspiracy theory What these approaches accomplish instead she argues is the perpetuation of ethnocentrism in the guise of contextualization The Time of the Cannibals asks what better kind of contextualization this and any case call for and proposes the concept of conspiracy attunement a means of grasping the dialogic contexts in which conspiracy theories work recursively as matters of political and cultural significance in the long duration The Rending of Virginia Granville Davisson Hall, 1902
