The Eventful 20th Century Modern Times 1970 99:

Modern Times, 1970-99, 2000 Modern times describes the final three decades of the 20th century from 1970 the year after the first Moon landing to the beginning of a new millennium **The 20th Eventful Century Modern Times 1970-99** Noble,1999 *American Book Publishing Record*, 2000 **Forthcoming Books** Rose Arny,2000 Children's Books in Print, 1993 **Top Incomes in France in the Twentieth Century** Thomas Piketty,2018-05-07 This pioneering work by Thomas Piketty explains the facts and dynamics of income inequality in France in the twentieth century On its publication in French in 2001 it helped launch the international program led by Piketty and others to explore the grand patterns and causes of global inequality research that has since transformed public debate Modern Times 1970-99 Antony Mason,Helen Douglas-Cooper,2000 **Between Homeland and Motherland** Alvin B. Tillery, Jr.,2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe s back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America s black elite and Tillery s analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book shows how black leaders continuously balanced national transnational and community impulses whether distancing themselves from Marcus Garvey s back to Africa movement supporting the anticolonialism movements of the 1950s or opposing South African apartheid in the 1980s Inventing Australia Richard White,2020-07-28 White sets himself a most ambitious task and he goes remarkably far to achieving his goals Very few books tell so much about Australia with elegance and concision as does his Professor Michael Roe Stimulating and informative an antidote to the cultural cringe Canberra Times To be Australian what can that mean *Inventing Australia* sets out to find the answers by tracing the images we have used to describe our land and our people the convict hell the workingman s paradise the Bush legend the typical Australian from the shearer to the Bondi lifesaver the land of opportunity the small rich industrial country the multicultural society The book argues that these images rather than describing an especially Australian reality grow out of assumptions about nature race class democracy sex and empire and are invented to serve the interests of particular groups There have been many books about Australia s national identity this is the first to place the discussion within an historical context to

explain how Australians views of themselves change and why these views change in the way they do Generations in Twentieth-Century Europe Stephen Lovell, 2007-09-26 The concept of generation is ubiquitous in common parlance and public discourse it is used to explain family relationships consumer preferences political change and much else besides But how can generation be used by historians Do generations really exist or are they constructed and manipulated by social and cultural elites In pursuit of answers to these questions this book ranges from World War I to the baby boomers and from Spain to the Soviet Union
