The Evil American Empire:

The Evil American Empire William D. Hindie, 1997 *Manifest Manhood and the Antebellum American Empire* Amy S. Greenberg, 2005-06-06 This book documents the potency of Manifest destiny in the antebellum era **American Empire** A. G. Hopkins, 2019-08-27 Compelling provocative and learned This book is a stunning and sophisticated reevaluation of the American empire Hopkins tells an old story in a truly new way American history will never be the same again Jeremi Suri author of *The Impossible Presidency* *The Rise and Fall of America's Highest Office* **The Rise and Fall of the American Empire** Rocky M. Mirza, 2007 Dr Mirza's unorthodox but refreshing look at the history of the US and its failure to plant true democracy at home or abroad goes a long way towards explaining its failed invasion of Iraq *A Black Theology of the American Empire* Karl W. Lampley, 2024-12-16 This book understands interprets and critiques the theology of the American Empire that undergirds and bolsters US foreign policy and global engagement in the contemporary world order It is particularly in conversation with African American experience American presidential history black religious and political thought as well as black theological perspectives The book makes a constructive theological statement and declaration on the American Empire in opposition and resistance to racism and white supremacy in US origins and historical development Finally it proposes a way forward for twenty first century black theology in response to the foundational theology of James Cone This publication is important not only for scholars interested in black religious thought but also those seeking critical reflection on the omnipresence of racial inequality and social injustice in the American Empire **The Decline and Fall of the American Empire** Anthony V. Bouza, 2013-11-11 No segment of American society is spared from Bouza's critical gaze in exposing the systemic excesses that are poisoning the heart of our nation He spotlights the white collar criminals who quietly take pennies from each of us to create their own pots of gold He unmasks the politicians on both ends of the political spectrum whose arrogance and hypocrisy speak volumes He demonstrates how organized crime while catering to our sinful illicit cravings affects our daily lives from buying a fish dinner to building a house He uncloaks the televangelists and other fraudulent religious leaders who have transformed the ministry from a shepherd's leading the flock into a huckster's fleecing the gullible Moreover he reveals the abuses that have permeated the medical and other helping professions **American Invasions** Rocky M Mirza Ph D, 2010-08 *American Invasions* Canada to Afghanistan 1775 to 2010 is a thought provoking analysis of the reasons for American invasions and warmongering over the last two centuries Contrary to the views expressed by the Western media and Western historians the American Empire is not a force for the promotion of free thinking and democracy but instead a force for imperial conquests and imposed dictatorships through the use of a military industrial complex fed by the American Empire outspending the rest of the world combined on weapons of mass destruction The American Empire has used and will continue to use the most sophisticated weapons from nuclear bombs to bunker busting bombs to land mines to chemical and biological weapons on defenseless men women and children to feed its insatiable

appetite for warmongering and imperial expansion It combines military bases around the world with military prisons used for torture and extraction of information Its navy patrols every corner of the globe and its planes can rain down bombs from the heavens on every civilian on the planet **Empire's Law** Amy Bartholomew,2006-03-20 Can democracy and human rights really be imposed by fire and sword This is a collection of essays debating empire and international law concerning the relationship between American imperialism the abuse of humanitarian intervention and its legal implications Covering everything from the role of Europe and the UN to people s tribunals to broader accounts of the contradictions of war and human rights the contributors offer new and innovative ways of examining the problems that we face Contributors include Leo Panitch Sam Gindin Jurgen Habermas Ulrich Preuss Andrew Arato Samir Amin Reg Whitaker Denis Halliday and Hans von Sponeck **Sociopathic Society** Charles Derber,2015-11-17 Charles Derber introduces and vividly explains the idea of a sociopathic society and why the idea has become necessary to understand today s world Sociopathic society is rooted in governments and economies not psychiatry The book offers a new sociology of societies organized around antisocial values which ultimately lead to societal and planetary self destruction Most of the sociopathic behaviors are perfectly legal and are perpetrated by governments financial institutions and corporate capitalism Focusing on the United States Derber connects the dots of Wall Street meltdown guns and murder uninhibited greed the 1% and the 99% a new crisis of unemployable surplus people Hurricane Sandy and global warming cheating scandals and more including the war on democracy itself Although the book brings together a breathtaking set of stories of a system run wild it also offers hope showing pathways for confronting and avoiding the many ways a society can commit sociocide **FEATURES OF THE BOOK** Chomsky's Challenge to American Power Anthony F. Greco,2014-01-15 Noam Chomsky is a pioneering scholar in the field of linguistics but he is better known as a public intellectual an iconoclastic radical critic of US politics and foreign policy Chomsky s Challenge examines most of the major subjects Chomsky has dealt with in his nearly half century of intellectual activism the Vietnam War America s broader international role especially its interventions in the Third World the structure of power in American politics the role of the media and of intellectuals in forming public opinion and American foreign policy in the post Cold War world Chomsky is as controversial as he is influential Admirers see him as a courageous teller of unpleasant truths about political power and those who wield it in the United States Critics view him as a propagandist and ideologue who sees only black and white where there are multiple shades of gray While Chomsky s fans tend to view him uncritically his critics often don t take him seriously Unlike any previous work this book takes Chomsky seriously while treating him critically The author gives Chomsky credit for valuable contributions to our understanding of the contemporary political world but spares no criticism of the serious deficiencies he sees in Chomsky s political analyses
