TV in the USA Vincent LoBrutto, 2018-01-04 This three volume set is a valuable resource for researching the history of American television. An encyclopedic range of information documents how television forever changed the face of media and continues to be a powerful influence on society. What are the reasons behind enduring popularity of television genres such as police crime dramas, soap operas, sitcoms, and reality TV? What impact has television had on the culture and morality of American life? Does television largely emulate and reflect real life and society or vice versa? How does television's influence differ from that of other media such as newspapers and magazines, radio, movies, and the Internet? These are just a few of the questions explored in the three volume encyclopedia *TV in the USA: A History of Icons, Idols, and Ideas*. This expansive set covers television from 1950 to the present day, addressing shows of all genres, well known programs, and short lived series alike broadcast on the traditional and cable networks. All three volumes lead off with a keynote essay regarding the technical and historical features of the decade's covered. Each entry on a specific show investigates the narrative themes and history of the program, provides comprehensive information about when the show started and ended and why, and identifies the star players, directors, producers, and other key members of the crew of each television production. The set also features essays that explore how a particular program or type of show has influenced or reflected American society, and it includes numerous sidebars packed with interesting data, related information, and additional insights into the subject matter.

During the first half of the twentieth century, a group of collectors and creators dedicated themselves to documenting the history of African American life. At a time when dominant institutions cast doubt on the value or even the idea of Black history, these bibliophiles, scrapbookers, and librarians created an enduring set of African diasporic archives. In building these institutions and amassing abundant archival material, they also reshaped Black public culture, animating inquiry into the nature and meaning of Black history. *Scattered and Fugitive Things* tells the stories of these Black collectors traveling from the parlors of the urban north to HBCU reading rooms and branch libraries in the Jim Crow south. Laura E. Helton chronicles the work of six key figures: bibliophile Arturo Schomburg, scrapbook maker Alexander Gumby, librarians Virginia Lee and

Vivian Harsh curator Dorothy Porter and historian L D Reddick Drawing on overlooked sources such as book lists and card catalogs she reveals the risks collectors took to create Black archives This book also explores the social life of collecting highlighting the communities that used these collections from the South Side of Chicago to Roanoke Virginia In each case Helton argues archiving was alive in the present a site of intellectual experiment creative abundance and political possibility Offering new ways to understand Black intellectual and literary history Scattered and Fugitive Things reveals Black collecting as a radical critical tradition that reimagines past present and future
