Public Relations Ethics and Professionalism Johanna Fawkes,2014-08-01 Do professions really place duty to society above clients or their own interests If not how can they be trusted While some public relations PR scholars claim that PR serves society and enhances the democratic process others suggest that it is little more than propaganda serving the interests of global corporations This is not an argument about definitions but about ethics yet this topic is barely explored in texts and theories that seek to explain PR and its function in society This book places PR ethics in the wider context of professional ethics and the sociology of professions By bringing together literature from fields beyond public relations sociology professional and philosophical ethics and Jungian psychology it integrates a new body of ideas into the debate The unprecedented introduction of Jungian psychology to public relations scholarship shifts the debate beyond a traditional Western Good Bad ethical dichotomy towards a new holistic approach with dynamic implications for theory and practice This thought provoking book will be essential reading for students academics and professionals with an interest in public relations ethics and professionalism

Soul-Making Christina Becker,2025-06-17 The phrase soul making comes from the poet John Keats who struggled with the world s random and meaningless suffering and believed that tragedies were the crucible in which the soul is forged and refined In Soul Making A Journey of Resilience and Spiritual Rediscovery Christina Becker shares how her own tragedy from a series of events between 2009 2011 broke her leading to her dependency on alcohol It could have been seen as meaningless but was transformed into soul Part memoir and part self help book this is the deeply personal story of one woman s soul making journey framed around the ideas of Carl Gustav Jung and spiritual practices Readers are invited to think about their own lives in a new way to be curious about the deeper threads that run through their existence and to embark on their own soul making journey This Jungian Analyst demonstrates how redemption is found through self knowledge the expansion of consciousness and most importantly through the cultivation of the heart **Adulthood, Morality, and the Fully Human** John J. Shea,2018-05-07 In Adulthood Morality and the Fully Human John J Shea describes an adult moral and fully human self in terms of integrity and mutuality Those who are fully human are caring and just Violence is the absence of care and justice Peace the pinnacle of human development is their embodiment Integrity and

mutuality together beget care and justice and care and justice together beget peace Shea shows the practical importance of the fully human self for education psychotherapy and spirituality This book is especially recommended for scholars and those in helping professions The Ethical Imagination Sean Fitzpatrick,2019-07-12 What do we do with our fantasies Are there right and wrong ways to imagine feel think or desire Do we have our fantasies or do they have us In The Ethical Imagination Exploring Fantasy and Desire in Analytical Psychology Sean Fitzpatrick explores how our obligation to the Other extends to our most intimate spaces Informed by Jungian psychology and the philosophy of Emmanuel Levinas Fitzpatrick imagines an ethical approach that can negotiate the delicate and porous boundary between inner and outer personal and collective fantasy Combining both theory and practice the book examines theorists of the imagination such as Plato Coleridge Sartre and Richard Kearney explores stories from contemporary culture such as Jimmy Carter and New York s Cannibal Cop and includes encounters in the consulting room The Ethical Imagination explores how these questions have been asked in different ways across culture and history and Fitzpatrick examines the impact of our modern digital world on ethics and imagination In this original examination of the ethical status of our imagination this book illustrates how our greatest innovations works of art and acts of compassion emerge from the human imagination but so also do our horrific atrocities Fitzpatrick compellingly demonstrates that what and how we imagine matters Unique and innovative this book will be of immense interest to Jungian psychotherapists analytical psychologists and other mental health professionals interested in the ethics the imagination and clinical work with fantasy It will also be an important book for academics and students of Jungian and post Jungian studies philosophy religious studies and ethics **American Book Publishing Record** ,2004

Browning,Terry D. Cooper, *Religious Thought and the Modern Psychologies* has pioneered the broader and deeper critique of psychological theories and practice Informed by hermeneutical theory Browning s widely acclaimed work drew much needed attention to the ethical and metaphysical even religious assumptions that underlie present day psychology It has been deeply influential in many social sciences in addition to the fields of pastoral counseling and practical theology In this much needed second edition Browning and his new co author show how the field of social science has indeed grasped and appropriated the hermeneutical approach though with only slight appreciation of the religious dimensions of the social scientific endeavor Browning and Cooper provide a completely new first chapter newly situating the discussion and

update the core chapters of the book They also add two new chapters carrying the dialogue on with three new psychotherapeutic theorists then with new evangelical writers on the relation of theology and psychology This new edition like its predecessor will set the stage for the religion psychology dialogue for years to come
