The Hexamilion And The Fortress:

The Hexamilion and the Fortress Timothy E. Gregory, 1993 Publication of the largest single archaeological site in Greece the massive barrier wall built across the Isthmus of Corinth in the 5th century AD to hold back the northern barbarians A full architectural analysis including reconstructions is supplemented by chapters on the geographical location and the history up to 1821 *Isthmia: The hexamilion and the fortress*, 1971 **The Hexamilion and the Fortress** Timothy E. Gregory, 1993 Publication of the largest single archaeological site in Greece the massive barrier wall built across the Isthmus of Corinth in the 5th century AD to hold back the northern barbarians A full architectural analysis including reconstructions is supplemented by chapters on the geographical location and the history up to 1821 *Across the Corrupting Sea* Cavan Concanon, Lindsey A. Mazurek, 2016-03-17 Across the Corrupting Sea Post Braudelian Approaches to the Ancient Eastern Mediterranean reframes current discussions of the Mediterranean world by rereading the past with new methodological approaches The work asks readers to consider how future studies might write histories of the Mediterranean moving from the larger pan Mediterranean approaches of The Corrupting Sea towards locally oriented case studies Spanning from the Archaic period to the early Middle Ages contributors engage the pioneering studies of the Mediterranean by Fernand Braudel through the use of critical theory GIS network analysis and postcolonial cultural inquiries Scholars from several time periods and disciplines rethink the Mediterranean as a geographic and cultural space shaped by human connectivity and follow the flow of ideas ships trade goods and pilgrims along the roads and seascapes that connected the Mediterranean across time and space The volume thus interrogates key concepts like cabotage seascapes deep time social networks and connectivity in the light of contemporary archaeological and theoretical advances in order to create new ways of writing more diverse histories of the ancient world that bring together local contexts literary materials and archaeological analysis

The Roman and Byzantine Graves and Human Remains Joseph L. Rife, 2012-06-01 This study describes and interprets the graves and human remains of Roman and Byzantine date recovered by excavation between 1954 and 1976 in several locales around the Isthmian Sanctuary and the succeeding fortifications This material provides important evidence for both death and life in the Greek countryside during the Late Roman to Early Byzantine periods Examination of burial within the local settlement comparative study of mortuary behavior and analysis of skeletal morphology ancient demography oral health and paleopathology all contribute to a picture of the rural Corinthians over this transitional era as interactive resilient and modestly innovative Winner of the 2012 2013 CAMWS Outstanding Publication Award [Spolia in Fortifications and the Common Builder in Late Antiquity](#) Jon M. Frey, 2015-11-24 Through intensive surveys of three fortifications in late Roman Greece Frey reveals the untapped potential of spolia in demonstrating the critical role played by non elites in bringing about the architectural and social changes that mark the end of classical antiquity As his analysis demonstrates when studied less as displaced objects to be classified by type and more as evidence for the construction process itself spolia offer a unique

opportunity to examine the ways in which common builders met the challenge of using pre existing building materials to meet their contemporary architectural needs This bottom up approach offers an alternative to the traditional view that attributes change and innovation only to the genius of prominent individuals known to us in historical sources *Isthmia: The hexamilion and the fortress* Oscar Broneer,1971 **Bridge of the Untiring Sea** Elizabeth R. Gebhard,Timothy E. Gregory,2015-12-31 Pindar s metaphor of the Isthmus as a bridge spanning two seas encapsulates the essence of the place and gives a fitting title for this volume of 17 essays on the history and archaeology of the area The Isthmus best known for the panhellenic Sanctuary of Poseidon attracted travelers both before and after Pausanias s visit in the 2nd century A D but only toward the end of the 19th century were the ruins investigated and a half century later finally systematically excavated More recently archaeologists have surveyed the territory beyond the sanctuary compiling evidence for a varied picture of activity on the wider Isthmus and the eastern Corinthia The essays in this book celebrate 55 years of research on the Isthmus and provide a comprehensive overview of the state of our knowledge Topics include an Early Mycenaean habitation site at Kyras Vrysi the settlement at Kalamianos the Archaic Temple of Poseidon domestic architecture of the Rachi settlement dining vessels from the Sanctuary of Poseidon the Temple Deposit at Isthmia and the dating of Archaic and Early Classical Greek coins terracotta figurines from the Sanctuary of Poseidon the Chigi Painter arms from the age of Philip and Alexander at Broneer s West Foundation on the road to Corinth new sculptures from the Isthmian Palaimonion an inscribed herm from the Gymnasium Area of Corinth Roman baths at Isthmia and sanctuary baths in Greece Roman buildings east of the Temple of Poseidon patterns of settlement and land use on the Roman Isthmus epigraphy liturgy and Imperial policy on the Justinianic Isthmus and circular lamps in the Late Antique Peloponnese **Constantine XI Dragaš Palaeologus (1404-1453)** Marios Philippides,2018-09-03 Constantine XI s last moments in life as he stood before the walls of Constantinople in 1453 have bestowed a heroic status on him This book produces a more balanced portrait of an intriguing individual the last emperor of Constantinople To be sure the last of the Greek Caesars was a fascinating figure not so much because he was a great statesman as he was not and not because of his military prowess as he was neither a notable tactician nor a soldier of exceptional merit This monarch may have formulated grandiose plans but his hopes and ambitions were ultimately doomed because he failed to inspire his own subjects who did not rally to his cause Constantine lacked the skills to create restore or maintain harmony in his troubled realm In addition he was ineffective on the diplomatic front as he proved unable to stimulate Latin Christendom to mount an expedition and come to the aid of south eastern Orthodox Europe Yet in sharp contrast to his numerous shortcomings his military defeats and the various disappointments during his reign posterity still fondly remembers the last Constantine **Archaeology and the Early Church in Southern Greece** Elizabeth Rees,2020-11-06 A study of archaeology and the early Church in Greece is long overdue So far no book has been published in English that examines the growth of Christianity in southern Greece from New Testament times until the medieval period

taking into account both contemporary theological expertise and a detailed knowledge of the numerous and exciting current archaeological excavations. Situated between Israel and Italy, Greece is now yielding vital evidence of the development of early Christianity. Mainland Greece and its surrounding islands is a vast region and this book focuses on an area rich in early Christian remains, namely the region stretching from Athens southwards. The book examines evidence relating to Christianity in New Testament times, particularly through the writings of St Paul and early theologians, and juxtaposes these texts with recent and current excavations at Corinth with its twin ports of Kenchreai and Lechaion and its chief sanctuary beyond the city at Isthmia where St Paul worked during the celebration of the pan Hellenic Games. Much of the excavation at Lechaion has been carried out underwater by divers pioneering new methods of preserving submerged material since most of the harbor is entirely submerged. Later, particularly from the sixth century onwards, Christian basilicas were built throughout Greece. A number of these are examined, including those at Nemea and Epidauros. Nemea provides unique evidence of an agricultural community guided by a bishop; numerous Christian artefacts have been excavated at the site. Epidauros was honored as the birthplace of the healing god Asclepius and early Christians inherited and developed these healing skills in unexpected ways. At other locations, monks developed a wide variety of lifestyles that were little known in the Western Church. The archaeology of Christian sites in Greece is a new and unfolding discipline; this book will encourage scholars and students to take these studies further.
