*Getting the Best of It* David Sklansky,1997 Contains six sections discussing probability poker blackjack other casino games sports betting and general gambling concepts This book contains some of the most sophisticated gambling ideas that have ever been put into print Included is perhaps the best discussion of the basic mathematics of gambling yet it is written so that even the most non mathematical of readers can understand it Many of the ideas discussed are those that the author

himself has successfully used during his career Topics include expectation combinations Baye s Theorem the eight mistakes in poker checking in the dark playing tight The Key Card Concept casinos and their mistakes crapless craps betting sports hedging and middling knowing what s important the Law of Averages and Other Fallacies and much more      *Seven-Card Stud For Advanced Players* David Sklansky,Ray Zee,Mason Malmuth,1999 Seven card stud is an extremely complex game Deciding on exactly the right strategy in any particular situation can be very difficult Perhaps this is why very few authors have attempted to analyze this game even though it is widely played In 1989 the first edition of this text appeared Many ideas which were only known to a small select group of players were now made available to anyone who was striving to become an expert and a major gap in the poker literature was closed It is now a new century and the authors have again moved the state of the art forward by adding over 100 pages of new material including an extensive section on loose games Anyone who studies this text is well disciplined and gets the proper experience should become a significant winner Some of the other ideas discussed in this 21st century edition include the cards that are out the number of players in the pot ante stealing playing big pairs playing little and medium pairs playing three flushes playing three straights randomizing your play fourth street pairing your door card on fourth street proper play on fifth sixth and seventh streets defending against a possible ante steal playing against a paired door card scare card strategy and buying a free card      **How to Make \$100,000 a Year**

**Gambling for a Living** David Sklansky,Mason Malmuth,1997 Is there really such a thing as a professional gambler The answer is an unequivocal Yes This book s authors are but two examples Many thousands of people around the country make a good living exclusively from gambling It is not easy but it can be done The key is to understand which games are beatable and know how to beat them David Sklansky and Mason Malmuth have spent many years writing about the finer points of poker blackjack and other beatable games As you will see in the book those other games are horses sports progressive slots and video poker casino tournaments and special promotions They don t include craps roulette keno or baccarat for reasons they ll explain This book was written for the not quite as experienced aspiring gambler It shows you everything you need to learn and do if you want to gamble for a living from both the practical and the technical standpoints The rest is up to you

**No Limit Hold 'em** David Sklansky,Ed Miller,2006 No limit hold em is exploding in popularity Before 2000 it could be difficult to find a game In 2006 it is played everywhere in casino cardrooms in backrooms and homes and on the Internet Now anyone can find a game but few know how to play well Most players learn by watching television or by listening to dubious advice from their friends While they may have picked up a valuable tidbit here or there most players have two options wise up or go broke The world s foremost poker theorist David Sklansky and noted poker authority Ed Miller will wise you up quickly No Limit Hold em Theory and Practice is the definitive work on this complex game It provides you a window into the heads of experts teaching you in straightforward and enjoyable terms the how s and why s of winning play Book jacket      **Gambling for Winners** Ward Wilson, This book is for you only if you gamble to make money If your idea of

fun and entertainment includes giving away your hard earned money to casinos I can't help you If you enjoy sitting in a mindless bright lights dinging trance while you drop quarters down a slot this book is not for you If you think casinos are built and run by stupid people you better stay out of them If you think you can beat a blackjack dealer by wild assed guessing think again If you play poker just because it's now so popular you don't need my book If you believe you can just happen to be lucky enough to beat the odds you live in a fantasy world and you'd hate this book for destroying your illusions But if you're hard headed serious willing to work and tired of the mainstream gambling books that simply teach you how to lose less rather than win If you understand casinos don't stay in business by giving out more money than they take in This is an extensive examination of the most popular forms of gambling If you can find any positive expectation bets and how Some of the material is controversial Some of it is unique It's not for beginners If you don't already know how to play blackjack or craps buy and read the basic books first This one assumes you know and understand the rules of play If you have emotional or psychological issues around money my strong advice is don't gamble If you want to believe casinos are playgrounds built for your amusement this is not the book for you I use statistical concepts and common sense to strip away the bright lights and glamor to reveal the mathematical realities of gambling For the most part it's not pretty Not if you want to make money instead of lose it But there are opportunities there for people willing to work hard and understand the obstacles so they can surmount them If you're still an emotional child needing the adrenaline rush and excitement of winning money this is not for you And not only the casinos want to take your money hordes of online scammers selling bogus systems online also are after the money belonging to would be pro gamblers Until you can enter a casino and remain blind to the red carpeting the flashing lights dinging slots and the entire aura of glamorous partying you'll remain a loser If you have enough money to pay for a mirage that's up to you Most people don't
