Rich, Leo Janos, Lockheed Corporation (Calabasas, Calif.), 2000 *Popular Science*, 1994-10 *Popular Science* gives our readers the information and tools to improve their technology and their world The core belief that *Popular Science* and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Stealth** Peter J. Westwick, 2020 The story behind the technology that revolutionized both aeronautics and the course of history On a moonless night in January 1991 a dozen airplanes appeared in the skies over Baghdad Or rather didn't appear They arrived in the dark their black outlines cloaking them from sight More importantly their odd angular shapes which made them look like flying origami rendered them undetectable to Iraq's formidable air defenses Stealth technology developed during the decades before Desert Storm had arrived To American planners and strategists at the outset of the Cold War this seemingly ultimate way to gain ascendance over the USSR was only a question What if the United States could defend its airspace while at the same time send a plane through Soviet skies undetected A craft with such capacity would have to be essentially invisible to radar an apparently miraculous feat of physics and engineering In *Stealth* Peter Westwick unveils the process by which the impossible was achieved At heart *Stealth* is a tale of two aerospace companies Lockheed and Northrop and their fierce competition with each other and with themselves to obtain what was estimated one of the largest procurement contracts in history Westwick's book fully explores the individual and collective ingenuity and determination required to make these planes and in the process provides a fresh view of the period leading up to the end of the Soviet Union Taking into account the role of technology as well as the art and science of physics and engineering Westwick offers an engaging narrative one that immerses readers in the race to produce a weapon that some thought might save the world and which certainly changed it Ideaflow Jeremy Utley, Perry Klebahn, 2022-10-25 Teams succeed to the degree that there is a free flow of ideas Read this book to learn how to bring out the best in others and in yourself Scott Galloway bestselling author of *The Four* and *Post Corona* *Ideaflow* the number of ideas you or your team can generate in a set amount of time We all want

Silent Warriors, Incredible Courage Wolfgang W. E. Samuel, 2019-02-19 The outbreak of the Korean War in June 1950 took the American military by surprise Rushing to respond the US and its allies developed a selective overflight program to gather intelligence Silent Warriors Incredible Courage is a history of the Cold War overflights of the Soviet Union its allies and the People s Republic of China based on extensive interviews with dozens of pilots who flew these dangerous missions In 1954 the number of flights expanded and the highly classified SENSINT program was born Soon American RB 45C RB 47E H RF 100s and various versions of the RB 57 were in the air on an almost constant basis providing the president and military leadership with hard facts about enemy capabilities and intentions Eventually the SENSINT program was replaced by the high flying U 2 spy plane The U 2 overflights removed the mysteries of Soviet military power These flights remained active until 1960 when a U 2 was shot down by Russian missiles leading to the end of the program Shortly thereafter planes were replaced by spy satellites The overflights were so highly classified that no one planner or participant was allowed to talk about them and no one did until the overflight program and its pictorial record was declassified in the 1990s Through extensive research of existing literature on the overflights and interviews conducted by Wolfgang W E Samuel this book reveals the story of the entire overflight program through the eyes of the pilots and crew who flew the planes Samuel s account tells the stories of American heroes who risked their lives and sometimes lost them to protect their country
