the 2024 Missouri History Book Award and Honoree for the 2024 Society of Midland Authors Award for History The history of Indigenous people in present day Missouri is far more nuanced complex and vibrant than the often told tragic stories of conflict with white settlers and forced Indian removal would lead us to believe In this path breaking narrative Greg Olson presents the Show Me State s Indigenous past as one spanning twelve millennia of Native presence resilience and evolution While previous Missouri histories have tended to include Indigenous people only during periods when they constituted a threat to the state s white settlement Olson shows us the continuous presence of Native people that includes the present day Beginning thousands of years before the state of Missouri existed Olson recounts how centuries of inventiveness and adaptability enabled Native people to create innovations in pottery agriculture architecture weaponry and intertribal diplomacy Olson also shows how the resilience of Indigenous people like the Osages allowed them to thrive as fur traders even as settler colonialists waged an all out policy of cultural genocide against them Though the state of Missouri claimed to have forced Indigenous people from its borders after the 1830s Olson uses U S Census records and government rolls from the allotment period to show that thousands remained In the end he argues that with a current population of 27 000 Indigenous people Missouri remains very much a part of Indian Country and that Indigenous history is Missouri history

Cahokia, the Great Native American Metropolis Biloine W. Young, Melvin Leo Fowler, 2000. Five centuries before the Pilgrims landed in Massachusetts, indigenous North Americans had already built a vast urban center on the banks of the Mississippi River where East St. Louis is today. This is the story of North America's largest archaeological site told through the lives, personalities, and conflicts of the men and women who excavated and studied it. At its height, the metropolis of Cahokia had twenty thousand inhabitants in the city center with another ten thousand in the outskirts. Cahokia was a precisely planned community with a fortified central city and surrounding suburbs. Its entire plan reflected the Cahokian's concept of the cosmos. Its centerpiece, Monk's Mound, ten stories tall, is the largest pre-Columbian structure in North America with a base circumference larger than that of either the Great Pyramid of Khufu in Egypt or the Pyramid of the Sun at Teotihuacan in Mexico. Nineteenth-century observers maintained that the mounds too sophisticated for primitive Native American cultures had to have been created by a superior non-Indian race, perhaps even by survivors of the lost continent of Atlantis. Melvin Fowler, the dean of Cahokia archaeologists, and Biloine Whiting Young tell an engrossing story of the struggle to protect the site from the encroachment of interstate highways and urban sprawl. Now identified as a World Heritage Site by UNESCO and protected by the Illinois Historic Preservation Agency, Cahokia serves as a reminder that the indigenous North Americans had a past of complexity and great achievement.

Continuing the series, *The Best Native American Myths, Legends, and Folklore* Volume 3 offers an enjoyable look into the history of the Native American Indian. Before the time of books, computers, tablets, and recording devices, the history of many cultures was passed down from person to person by word of mouth. The rich
