The Burden of Black Religion Curtis J. Evans, 2008-04-17 Religion has always been a focal element in the long and tortured history of American ideas about race In *The Burden of Black Religion* Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century Central to the story he argues was the deep rooted notion that blacks were somehow naturally religious At first this assumed natural impulse toward religion served as a signal trait of black people s humanity potentially their unique contribution to American culture Abolitionists seized on this point linking black religion to the black capacity for freedom Soon however these first halting steps toward a multiracial democracy were reversed As Americans began to value reason rationality and science over religious piety the idea of an innate black religiosity was used to justify preserving the inequalities of the status quo Later social scientists both black and white sought to reverse the damage caused by these racist ideas and in the process proved that blacks were in fact fully capable of incorporation into white American culture This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives In the process Evans offers an intellectual and cultural history of race in a crucial period of American history

Southern History across the Color Line Nell Irvin Painter, 2013-06-01 The color line once all too solid in southern public life still exists in the study of southern history As distinguished historian Nell Irvin Painter notes historians often still write about the South as though people of different races occupied entirely different spheres In truth although blacks and whites were expected to remain in their assigned places in the southern social hierarchy throughout the nineteenth and much of the twentieth century their lives were thoroughly entangled In this powerful collection Painter reaches across the color line to examine how race gender class and individual subjectivity shaped the lives of black and white women and men in the nineteenth and twentieth century South Through six essays she explores such themes as interracial sex white supremacy and the physical and psychological violence of slavery using insights gleaned from psychology and feminist social science as well as social cultural and intellectual history At once pioneering and reflective the book illustrates both the breadth of Painter's interests and the originality of her intellectual contributions It will inspire and guide a new generation of historians who take her goal of transcending the color bar as their own

In Search of the New Testament Church C. Douglas Weaver, 2008 When John Smyth organized the first Baptist church he wanted to establish the New Testament church believer's baptism was the missing link Baptists of subsequent eras often continued the search to embody New Testament Christianity Unique to surveys of Baptist life Doug Weaver highlights this restorationist theme as a way to understand Baptist identity Weaver does not force the theme but the search is ever present It is found in the insistence upon believer's baptism but also in examples like the Sabbath worship of Seventh Day Baptists the nine rites of colonial Separate Baptists the women preachers of Free Will Baptists the trail of blood of

Landmarkism the social gospel of Walter Rauschenbusch the fundamentals of fundamentalism and the ministry of the European pioneer Johann Oncken Like other recent Baptist studies Weaver describes Baptist diversity Still he highlights the persistent commitment of most Baptists to an informal constellation of Baptist distinctives Alongside the quest for the New Testament church and congregational community Weaver especially highlights the Baptist commitment to religious liberty and the individual conscience This emphasis while later reinforced by Enlightenment ideals could already be found in the biblicist piety of the earliest Baptists who insisted that individual believers must have the right to choose their religious beliefs because they would stand alone before God at the final judgment Both chronological and thematic this book addresses such themes as the role of women the social gospel ecumenism charismatic influences and theological emphases in Baptist life The book's focus is America but it also includes helpful introductory chapters on early English Baptists and international Baptists
