Slight And Delicate Creature:

A Slight and Delicate Creature Margaret Cook, 1999-01 Margaret Cook was the wife of Robin Cook Foreign Secretary. She also pursued her own career as a haematologist. In the summer of 1997 the News of the World revealed that Robin Cook was having an affair with his diary secretary. The Cooks separated and in March 1998 were divorced. Cook tells the no holds barred story of her own marriage but also writes about the the pressure that wives of high flyers face how they have to subjugate their careers to those of their husbands.

Historicising the Women's Liberation Movement in the Western World Laurel Forster, Sue Bruley, 2019-07-09 The Women's Liberation Movement (WLM) of the late 1960s, 1970s and 1980s emerged out of a particular set of economic and social circumstances in which women were unequally treated in the home, the workplace and in culture and wider society. As part of the WLM, women collected together in disparate groups and contexts to express their dissatisfaction with their role and position in society, making their concerns apparent through consciousness raising and activism. This important time in women's history is revisited in this collection which looks afresh at the diversity of the movement and the ways in which feminism of the time might be reconsidered and historicised. The contributions here cover a range of important issues including feminist art, local activism, class distinction, racial politics, perceptions of motherhood, girls' education, feminist print cultures, the recovery of feminist histories and feminist heritage, and they span personal and political concerns in Britain, Canada and the United States. Each contributor considers the impact of the WLM in a different context, reflecting the variety of issues faced by women and helping us to understand the problems of the second wave. This book broadens our understanding of the impact and the implication of the WLM, explores the dynamism of women's activism and radicalism, and acknowledges the significance of this movement to ongoing contemporary feminisms. The chapters in this book were originally published as a special issue of Women's History Review.

The Welfare State Generation Eve Worth, 2021-12-16 Women born in mid twentieth century Britain were the welfare state generation, not only were their lives fundamentally shaped by the welfare state, they helped to transform it. In this ground breaking work, Eve Worth examines the impact of the welfare state on the life course of women whose opportunities and social experiences were formed by it in the post 1945 period. Centred around an oral history study, this book argues that the welfare state was so central to the lives of women born in Britain between the late 1930s and early 1950s that they should be considered the welfare state generation. The post war expansion of the welfare state was one of the most transformative political changes of the twentieth century, yet we know little about its development in practice, nor its long term impact on those who grew up within it. Using a ground breaking life history methodology to examine women from their birth in the long 1940s to retirement in the mid 2010s, it includes thirty six original life history interviews alongside social surveys and the Census for wider context. By deploying a cross class approach, this book moves the discussion on from just looking at university educated women to include women often overlooked in gender and social studies. Re conceptualising the causes of social mobility in

post war Britain exploring a new understanding of work and an updated periodisation of welfare state development The Welfare State Generation offers a new approach to the history of class and gender arguing that we need to move beyond the focus on women s emotions and personal identity to consider their experiences and relationships with the state as employer educator and provider
