Social Control In A Free Society:

Social Control in a Free Society Robert E. Spiller, 2016-11-11 The 1958 Benjamin Franklin Lectures with contributions from Loren C Eiseley Carl G Hempel Gilbert Seldes George J Stigler and Willard Hurst Drug Control in a Free Society James B. Bakalar, Lester Grinspoon, 1988-04-29 This book offers a provocative analysis of controlling alcohol and drugs in industrial societies Social Problems in a Free Society Myles J. Kelleher, 2004-09-02 The future of the sociologist's profession is jeopardized by an ongoing trend toward the politicization of sociology and the radicalization of social problems This book calls for the rethinking of the culture of social political and economic liberty to create a resurgence of a sociological agenda Social Problems in a Free Society offers an original perspective on social problems such as violations of the principles of individual rights and the free market This book is a vision for reinvigorating the discipline in a fashion undreamt of within the wearisome strains of today's radical social problems theory Corporatism, Social Control, and Cultural Domination in Education: From the Radical Right to Globalization Joel Spring, 2012-11-27 Starting with the 1972 publication of his seminal work *Education and the Rise of the Corporate State* Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic and political elites Spring's indigenous background has strongly shaped his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis Political Discipline in a Free Society H. J. Blackham, 2013-04-15 This book traces the rise and fall of political philosophies since the 17th century The second part of the book shows how the

general technique of cumulative learning from experience applies to social legislation and social services party politics to defence strategy and to the trends that follow the modern explosion of knowledge and capital The main argument is that social control is at its best a deliberate joint creation of and learning from social experience and in this sense political discipline although not the same as logical or scientific discipline is like them a submission to form not force The book gives a definite meaning to the idea of human progress and finds reason for a restoration of political hope and faith

Manufacturing Civil Society T. Brandsen, W. Trommel, B. Verschuere, 2014-05-07 Faced with falling social cohesion governments have sought to revitalise society by trying to reconstruct local communities civil society and citizenship As a result civil society is increasingly brought within the realm of public management subject to accountability and embedded in hierarchies the impact and origins of which this book explores

Surveillance, Closed Circuit Television and Social Control Clive Norris, Jade Moran, 2016-12-05 The rise of CCTV camera surveillance in Britain has been dramatic Practically every major city now boasts a CCTV system aimed at among other things preventing detecting and reducing the fear of crime Increasingly these developments are mirrored in villages shopping malls residential estates transport systems schools and hospitals throughout the country In short for the majority of citizens it is now impossible to avoid being monitored and recorded as we move through public space Surveillance CCTV and Social Control represents the first systematic attempt to account for this phenomenon It brings together leading researchers from the fields of anthropology criminology evaluation geography sociology and urban planning to explore the development impact and implications of CCTV surveillance Accordingly attention is directed to a number of key questions How does CCTV fit with the trends of late modernity Does CCTV reduce crime or merely shift it elsewhere How should CCTV be evaluated What is the significance of CCTV for women s safety How adequate is the regulation of CCTV In the light of recent technological developments what is the future of CCTV surveillance

Erasing the Invisible Hand Warren J. Samuels, 2011-09-12 This book examines the use principally in economics of the concept of the invisible hand centering on Adam Smith It interprets the concept as ideology knowledge and a linguistic phenomenon It shows how the principal Chicago School interpretation misperceives and distorts what Smith believed on the economic role of government The essays further show how Smith was silent as to his intended meaning using the term to set minds at rest how the claim that the invisible hand is the foundational concept of economics is repudiated by numerous

leading economic theorists that several dozen identities given the invisible hand renders the term ambiguous and inconclusive that no such thing as an invisible hand exists and that calling something an invisible hand adds nothing to knowledge Finally the essays show that the leading doctrines purporting to claim an invisible hand for the case for capitalism cannot invoke the term but that other nonnormative invisible hand processes are still useful tools

Understanding Social Control Innes, Martin, 2003-12-01 This book investigates how the concept of social control has been used to capture the ways in which individuals communities and societies respond to a variety of forms of deviant behaviour In so doing the book demonstrates how an appreciation of the meanings of the concept of social control is vital to understanding the dynamics and trajectories of social order in contemporary late modern societies

Against Criminology Stanley Cohen, 2017-07-05 During the 1960s traditional thinking about crime and its punishment deviance and its control came under radical attack The discipline of criminology split into feuding factions and various schools of thought emerged each with quite different ideas about the nature of the crime problem and its solutions These differences often took political form with conservative liberal and radical supporters and the resulting controversies continue to reverberate throughout the fields of criminology and sociology as well as related areas such as social work social policy psychiatry and law Stanley Cohen has been at the center of these debates in Britain and the United States This volume is a selection of his essays written over the past fifteen years which contribute to and comment upon the major theoretical conflicts in criminology during this period Though associated with the new or radical criminology Cohen has always been the first to point out its limitations particularly in translating its theoretical claims into real world applications His essays cover a wide range of topics political crime the nature of individual responsibility the implications of new theories for social work practice models of crime used in the Third World banditry and rebellion and the decentralization of social control Also included is a previously unpublished paper on how radical social movements such as feminism deal with criminal law Many criminology textbooks present particular theories or research findings This book uniquely reviews the main debates of the last two decades about just what the role and scope of the subject should be

Pornography in a Free Society Gordon Hawkins, Franklin E. Zimring, 1988 Pornography in a Free Society deals with what has been called the civil war over smut It addresses an issue about which citizens of Western nations are sharply divided Gordon Hawkins and Franklin Zimring attempt to look at the problem of pornography in a wider perspective than that of partisan political debate To that end they compare two American reports on pornography commissioned by Presidents Johnson and Reagan the first published in 1970 and the latter in 1986 with the report of the British Committee on Obscenity and Film Censorship which appeared during the years between the American reports They discuss the radical feminist challenge to pornography and the question of pornography and children Going on to consider likely future developments the authors argue that the furore over pornography and the appointment of commissions are part of a ceremony of adjustment to widespread availability of sexually explicit material and they predict less social concern about

pornography as time passes Women, Violence and Social Control Mary Maynard, Jalna Hanmer, 1987-03-16 Social Control of the Feeble-minded Omar Conrad Held, 1924 **Violence in South Africa** Eliree Bornman, René Van Eeden, Marie Wentzel, 1998 Violence in South Africa contains contributions on various issues related to violence in South Africa The variety of perspectives explanations and intervention strategies indicates that violence its causes and prevention are diverse and complex matters Hence a single perspective or universal explanation cannot properly explain the phenomenon Factors related to the micro and macro levels as well as the interaction between these levels should be considered The contributions consequently do not deal only with violence of a structural collective or political nature but also the far more prevalent forms of interpersonal and small group violence Surveillance, Crime and Social Control Dean Wilson, Clive Norris, 2017-05-15 Post 9 11 the need for an expansion of surveillance and greater expenditure on surveillance capabilities has been argued for by government and industry to help combat terrorism This has been coupled with increasing incorporation of surveillance technologies into the routine practice of criminal justice This important collection draws together key contemporary writings to explore how the surveillance gaze has been directed in the name of crime control Key issues include theories on surveillance CCTV undercover police surveillance bodies databases and technologies and surveillance futures It will be an essential collection for law librarians and criminologists Political Authority, Social Control and Public Policy Cara E. Rabe-Hemp, Nancy S. Lind, 2019-07-04 This edited collection examines the intersections of social control political authority and public policy providing an insight into the key elements needed to understand the role of governance in establishing and maintaining social control through law and public policy making **The Handbook of Social Control** Mathieu Deflem, 2019-01-11 The Handbook of Social Control offers a comprehensive review of the concepts of social control in today's environment and focuses on the most relevant theories associated with social control With contributions from noted experts in the field across 32 chapters the depth and scope of the Handbook reflects the theoretical and methodological diversity that exists within the study of social control Chapters explore various topics including theoretical perspectives institutions and organizations law enforcement criminal justice agencies punishment and incarceration surveillance and global developments This Handbook explores a variety of issues and themes on social control as being a central theme of criminological reflection The text clearly demonstrates the rich heritage of the major relevant perspectives of social control and provides an overview of the most important theories and dimensions of social control today Written for academics undergraduate and graduate students in the fields of criminology criminal justice and sociology The Handbook of Social Control is an indispensable resource that explores a contemporary view of the concept of social control
