scientists including Max Weber Norbert Elias and Michel Foucault who argued that disciplining extending from external coercion towards the internalisation of restraints is indispensable for achieving social order and thereby for civilisation but defined from a European perspective in relation to developments in Europe This book therefore not only discusses the Chinese experience of social disciplining but also by looking at a non Western society identifies universal tendencies of societal change and social disciplining and separates them from particular occurrences Chinese Creator Economies Jian Lin,2023-05-23 An account of the paradoxical lives lived by creative professionals in contemporary China
