Evangelising the Nation John Thomas,2015-10-05 Northeast India has witnessed several nationality movements during the 20th century The

Encyclopaedic Profile of Indian Tribes R. R. Prasad,1996 Next to Africa India has the largest tribal population 67.7 million in the world Indian tribes spread over the length and breadth of the country are concentrated in hilly and forest regions The tribes of India differ considerably from one another in race language culture and beliefs and present a spectacle of striking diversity It is this diversity marked by varied social characteristics and diverse cultural traditions and linguistic traits that lends lustre to the cultural mosaic of India Encyclopaedia Profile of Indian Tribes first of its kind seeks to present a concise by comprehensive account of the socio cultural profile of all the tribal communities who have been declared as Scheduled Tribes by the Government of India The tribes are arranged alphabetically in order to facilitate easy reference Each profile deals with

the geographical distribution of the tribal population the social structure the means of subsistence and economic organisation religious beliefs and practice the political institutions and modern social changes sweeping the community At the end of each profile there is a short bibliography for the more inquisitive reader Each entry in this four volume set has been contributed by a scholar who has deep personal knowledge and contact with the community This classic multi volume set will be extremely useful to scholars studying tribals in India and abroad and to all those interested in a standard reference work on the Indian tribes *Approaches to History* Sabyasachi Bhattacharya,2011 History as a social science is arguably more self reflective than associated disciplines in that family Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times Historians on the other hand tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge Yet while this is acknowledged in the practice of research Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities Knowledge of Historiography is taken for granted when a scholar plunges into research In an attempt to address this lacuna the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series *Approaches to History Essays in Indian Historiography* brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal Naga Identity Braj Bihari Kumar,Braja Bihārī Kumāra,2005
