

## UNIT 10. SOCIAL MOVEMENTS

---

### Introduction to Social Movements

In January 2011, Egypt erupted in protests against the stifling rule of longtime President Hosni Mubarak. The protests were sparked in part by the revolution in Tunisia, and, in turn, they inspired demonstrations throughout the Middle East in Libya, Syria, and beyond. This wave of protest movements travelled across national borders and seemed to spread like wildfire. There have been countless causes and factors in play in these protests and revolutions, but many have noted the internet-savvy youth of these countries. Some believe that the adoption of social technology—from Facebook pages to cell phone cameras—that helped to organize and document the movement contributed directly to the wave of protests called *Arab Spring*. The combination of deep unrest and disruptive technologies meant these social movements were ready to rise up and seek change.

What do *Arab Spring*, *Occupy Wall Street*, People for the *Ethical Treatment of Animals* (PETA), the anti-globalization movement, and the *Tea Party* have in common? Not much, you might think. But although they may be left-wing or right-wing, radical or conservative, highly organized or very diffused, they are all examples of social movements.

Social movements are purposeful, organized groups striving to work toward a common goal. These groups might be attempting to create change (*Occupy Wall Street*, *Arab Spring*), to resist change (anti-globalization movement), or to provide a political voice to those otherwise disenfranchised (civil rights movements). Social movements create social change.

Consider the effect of the 2010 BP oil spill in the *Gulf of Mexico*. This disaster exemplifies how a change in the environment, coupled with the use of technology to fix that change, combined with anti-oil sentiment in social movements and social institutions, led to changes in offshore oil drilling policies. Subsequently, in an effort to support the Gulf Coast's rebuilding efforts, changes occurred. From grassroots marketing campaigns that promote consumption of local seafood to municipal governments needing to coordinate with federal cleanups, organizations develop and shift to meet the changing needs of the society. Just as we saw with the *Deepwater Horizon* oil spill, social movements have, throughout history, influenced societal shifts. Sociology looks at these moments through the lenses of three major perspectives.

The functionalist perspective looks at the big picture, focusing on the way that all aspects of society are integral to the continued health and viability of the whole. A functionalist might focus on why social movements develop, why they continue to exist, and what social purposes they serve. On one hand, social movements emerge when there is a dysfunction in the relationship between systems. The union movement developed in the 19th century when the economy no longer functioned

**Social Movements** Philo Melvin Buck,1951

**Regressive Movements in Times of Emergency** Donatella della Porta,2023-10-25 Since the very beginning of the COVID 19 pandemic with mass media and social media playing a key role anti vax protests have received sustained attention The first comments often pointed at the heterogeneity of the events whose participants seemed to belong to different milieus from the far right to exoteric groups that opposed mainstream medicine suggesting alternative ones In reality in their forms and claims these protests developed as a regressive response to the health crisis Conspiracist beliefs from the politicized QAnon and Great Replacement conspiracies widespread on the far right to the Chemic Trails and 5G ones present in an exoteric milieu that promoted alternative health practices were clearly expressed in the slogans and symbols used by the protestors In different moments in

different countries the contestation of the anti COVID 19 measures proceeded with picks and ebbs following the waves of contagion and the related increase in policy measures to curve them Increasing especially during the vaccination campaigns they seemed to subside however quite quickly as the COVID 19 virus started to become endemic with vaccination reducing its lethality This volume builds upon social movement studies in the attempt to illuminate the dynamics of these protests in the various steps of their emergency growth and decline Referring to most recent developments in social movement studies it in particular contributes to the analysis of contentious politics in emergency times characterized by deep disruption in everyday life and rapid structural transformations in the society In order to understand how specific strains are transformed into actions it considers the opportunities and challenges for different actors in moments of intense mobilization in which different and contrasting claims are put forward While these moments are rich in innovation they built upon existing social movement infrastructures that contribute to give meaning to dissatisfaction by proposing a shared definition of problems and solutions Looking at the wave of anti vax protests through the lenses of social movement studies the analysis addresses the spread of the protests their forms but also their quick decline     *Handbook on Youth Activism* Jerusha Conner,2024-02-12
