arts developing hermeneutic approaches and conducting empirical research that have led to a wealth of insights into the organization of arts These studies of the creation production distribution evaluation and consumption of arts are clearly sociological but they include approaches from other disciplines notably arts management studies and cultural policy research Volker Kirchberg and Tasos Zembylas critically discuss seven major theories of the social organization of arts in Western societies with the aim of encouraging further research and theoretical developments *Protest, Policy, and the Problem of Violence against Women* S. Laurel Weldon, 2013-12-09 Violence against women is one of the most insidious social ills facing the world today Yet governmental response is inconsistent ranging from dismissal to aggressive implementation of policies and programs to combat the problem In her comparative study of thirty six democratic governments Laurel Weldon examines the root causes and consequences of the differences in public policy from Northern Europe to Latin America She reveals that factors that often influence the development of social policies do not determine policies on violence against women Neither economic level religion region nor the number of women in government determine governmental responsiveness to this problem Weldon demonstrates for example that Nordic governments take no more action to combat violence against women than Latin American governments even though the Swedish welfare state is often considered a leader in social policy particularly with regard to women s issues Instead the presence of independently organized active women s movements plays a greater role in placing violence against women on the public agenda The breadth and scope of governmental response is greatly enhanced by the presence of an office dedicated to promoting women s status Weldon closes with practical lessons and insights to improve government action on violence against women and other important issues of social justice and democracy *Social Organizations and the Authoritarian State in China* Timothy Hildebrandt, 2013-02-18 Received wisdom suggests that social organizations such as non government organizations NGOs have the power to upend the political status quo However in many authoritarian contexts such as China NGO emergence has not resulted in this expected regime change In this book Timothy Hildebrandt shows how NGOs adapt to the changing interests of central and local governments working in service of the state to address social problems In doing so the nature of NGO emergence in China effectively strengthens the state rather than weakens it This book offers a groundbreaking comparative analysis of Chinese social organizations across the country in three different issue areas environmental protection HIV AIDS prevention and gay and lesbian rights It suggests a new way of thinking about state society relations in authoritarian countries one that is distinctly co dependent in nature governments require the assistance of NGOs to govern while NGOs need governments to extend political economic and personal opportunities to exist *The SAGE Handbook of Social Network Analysis* John Scott, Peter J. Carrington, 2011-05-25 This sparkling Handbook offers an unrivalled resource for those engaged in the cutting edge field of social network analysis Systematically it introduces readers to the key concepts substantive topics central methods and prime debates Among the specific areas covered are Network theory Interdisciplinary applications Online networks

Corporate networks Lobbying networks Deviant networks Measuring devices Key Methodologies Software applications The result is a peerless resource for teachers and students which offers a critical survey of the origins basic issues and major debates The Handbook provides a one stop guide that will be used by readers for decades to come *Mobilizing without the Masses* Diana Fu,2017-11-09 When advocacy organizations are forbidden from rallying people to take to the streets what do they do When activists are detained for coordinating protests are their hands ultimately tied Based on political ethnography inside both legal and blacklisted labor organizations in China this book reveals how state repression is deployed on the ground and to what effect on mobilization It presents a novel dynamic of civil society contention mobilizing without the masses that lowers the risk of activism under duress Instead of facilitating collective action activists coach the aggrieved to challenge authorities one by one In doing so they lower the risks of organizing while empowering the weak This dynamic represents a third pathway of contention that challenges conventional understandings of mobilization in an illiberal state It takes readers inside the world of underground labor organizing and opens the black box of repression inside the world s most powerful authoritarian state *Globalizing China - Social and Governance Reforms* Ka Ho Mok,2022-12-30 Unlike most books which consider China s transformation and globalization over the last four decades by focusing on China s economic growth this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio economic challenges generated as a result of the country s economic growth and transformation challenges arising both from within the country and also from the external political environment Based on extensive original research the book outlines how China s economic development has generated social and governance pressures discusses the government s social educational and governance reforms and highlights how China s development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow Confronting Injustice and Oppression David G. **International Cooperation When Mistrust Deepens** Perri 6,Eva Heims,2025-01-16 In the years leading up to the outbreak of war in 1914 Britain was collaborating closely with Germany on the development of an improved telegraph service despite preparations for war also being made by both countries This cooperation rested upon both states intensive participation in the global regulatory regime for telecommunications Why states commit to cooperating in such multilateral regimes with other states while their relationship struggles with deepening mistrust is a longstanding puzzle As tensions rise among great powers today and international organisations struggle again this puzzle is as important now as it was when international regulatory regimes first emerged The book challenges many of the conventional explanations for this puzzling situation and draws on neo Durkheimian institutional theory to develop a novel explanation It examines the case of Britain s relationship with the first global regulatory regime which was concerned with international telegraphy submarine telegraph cables and radiotelegraphy from the 1860s through to 1914 The regime was created in a time of European wars and growing imperial conflicts Although Britain seriously contemplated leaving the International Telegraph Union in 1901 2 the state went on to deepen cooperation with other countries in telegraphy including with Germany even as preparations for war advanced Drawing on extensive archival sources Perri 6 and Eva Heims show that social organisation in government can cultivate institutional buffering between aspects of external policy which can sustain commitment despite deepening conflict In doing so they show how a neo Durkheimian approach provides a powerful explanation for deepening cooperation even as mistrust rises which has significant implications for understanding state formation Activating China Setsuko

Matsuzawa,2019-01-04 This book examines the effects of the transnational social and environmental advocacy of foreign NGOs in China Based on three case studies including China s first participatory development project its first successful case of transnational anti dam activism and its first national park project the book challenges our typical understanding that global forces shape local outcomes Drawing on ethnographic fieldwork in China and archival work in the United States Matsuzawa sheds light on the entrepreneurial behaviors of Chinese activists researchers and government officials She shows that global projects are often substantially transformed by local actors despite the original intentions of their foreign collaborators and even China s central government Thus it is argued that foreign NGOs are not as hegemonic or culturally imperialistic as is commonly viewed Matsuzawa reveals that their goals may change profoundly as a result of their
