Social Organization Of The Western Apache:

The Social Organization of the Western Apache Grenville Goodwin, 1969 **Western Apache Witchcraft** Keith H. Basso, 1969-05 An ethnographic contribution describing the beliefs and ideas associated with witchcraft as shared knowledge that the Apaches have about their universe Uncovers the types of interpersonal relationships with which witchcraft accusations are regularly associated and posits explanations for these associations **The Apache Diaries** Grenville Goodwin, Neil Goodwin, 2002-01-01 In 1930 four decades after the surrender of Geronimo anthropologist Grenville Goodwin headed south in search of a rumored band of wild Apaches in the Sierra Madre Goodwin's journals chronicling his epic search have been edited and annotated by his son Neil who was born three months before his father's tragic death at the age of thirty three Neil Goodwin uses the journals to engage in a dialogue with the father he never knew **Western Apache Material Culture** Alan Ferg, 2022-06-21 Western Apache Material Culture is a collection of essays specifically about the Guenther and Goodwin Western Apache ethnographic collections at the Arizona State Museum and about Western Apache culture This is an important book and will become the standard reference on Western Apache material culture American Indian Quarterly This book will surely appeal not only to those who are interested in the Apache material culture studies or the potential of Native American museum resources as cultural and historical documents but also to those who are concerned with the way humans adapted to the environment and thus utilized their world so well African Arts It is a remarkably beautiful and detailed catalog of the Goodwin and Guenther collections of Western Apache artifacts in the Arizona State Museum and a lot more A section of thirty two color photographs by award winning photographer Helga Teiwes is the delectable frosting on this rich and satisfying cake Journal of Arizona History *Western Apache Heritage* Richard J. Perry, 2014-04-21 A reconstruction of Apachean history and culture that sheds much light on the origins dispersions and relationships of Apache groups Mention Apaches and many Anglo Americans picture the marauding savages of western movies or impoverished reservations beset by a host of social problems But like most stereotypes these images distort the complex history and rich cultural heritage of the Apachean peoples who include the Navajo as well as the Western Chiricahua Mescalero Jicarilla Lipan and Kiowa Apaches In this pioneering study Richard Perry synthesizes the findings of anthropology ethnology linguistics archaeology and ethnohistory to reconstruct the Apachean past and offer a fuller understanding of the forces that have shaped modern Apache culture While scholars generally agree that the Apacheans are part of a larger group of Athapaskan speaking peoples who originated in the western Subarctic there are few archaeological remains to prove when where and why those northern cold dwellers migrated to the hot deserts of the American Southwest Using an innovative method of ethnographic reconstruction however Perry hypothesizes that these nomadic hunters were highly adaptable and used to exploiting the resources of a wide range of mountainous habitats When changes in their surroundings forced the ancient Apacheans to expand their food quest it was natural for them to migrate down the mountain

corridor formed by the Rocky Mountain chain Perry is the first researcher to attempt such an extensive reconstruction and his study is the first to deal with the full range of Athapaskan speaking peoples His method will be instructive to students of other cultures who face a similar lack of historical and archaeological data

Western Apache Language and Culture

Keith H. Basso, 1990-03-01 Seven essays collected here for the first time define some of the central concerns of linguistic anthropology through the close study of Western Apache a language of astonishing complexity All of the essays have been revised for this anthology Basso a major authority in the field of linguistic anthropology has drawn on fieldwork at the village of Cibecue whose residents speak a dialect of Western Apache that is spoken nowhere else He shows how intricacies of language place names metaphor uses of silence help a people define their very existence so that in the words of one Apache woman If we lose our language we will lose our breath then we will die and blow away like leaves His essays amply demonstrate that while Apache language and culture are changing in response to modernization they remain intricate vital and unique These essays illustrate not only the complexity of a particular cultural world as it has emerged to one observer over a protracted period of intensive fieldwork but also the natural movement from the study of grammatical categories to that of language use and on to the study of the conceptual system underlying it Each essay addresses a significant theoretical problem taken together they constitute a microcosm of the anthropological understanding of language

UP Apache Reservation

Richard J. Perry, 2014-03-07 Perry undertakes the enormous task of analyzing the historical workings of the reservation system using the San Carlos Apache as a case study The American Historical Review Indian reservations were the United States ultimate solution to the problem of what to do with native peoples who already occupied the western lands that Anglo settlers wanted In this broadly inclusive study Richard J Perry considers the historical development of the reservation system and its contemporary relationship to the American state with comparisons to similar phenomena in Canada Australia and South Africa The San Carlos Apache Reservation of Arizona provides the lens through which Perry views reservation issues One of the oldest and largest reservations its location in a minerals and metals rich area has often brought it into conflict with powerful private and governmental interests Indeed Perry argues that the reservation system is best understood in terms of competition for resources among interest groups through time within the hegemony of the state He asserts that full control

over their resources and hence over their lives would address many of the Apache s contemporary economic problems

The Apache Indians Helge Ingstad,2004-01-01 Ingstad traveled to Canada where he lived as a trapper for four years with the Chipewyan Indians The Chipewyans told him tales about people from their tribe who traveled south never to return He decided to go south to find the descendants of his Chipewyan friends and determine if they had similar stories In 1936 Ingstad arrived in the White Mountains and worked as a cowboy with the Apaches His hunch about the Apaches northern origins was confirmed by their stories but the elders also told him about another group of Apaches who had fled from the reservation and were living in the Sierra Madres in Mexico Ingstad launched an expedition on horseback to find these lost people hoping to record more tales of their possible northern origin but also to document traditions and knowledge that might have been lost among the Apaches living on the reservation

Hunter-Anderson, 1986-10-30 This book is about post Pleistocene adaptive change among the aboriginal cultures of the mountains and deserts of Arizona and New Mexico Conceived essentially as a natural science alternative to the prevailing culture history paradigm it offers both a general theoretical framework for interpreting the archaeological record of the American South West and a persuasive evolutionary model for the shift from a hunter gatherer economy to horticulture at the Mogollon Anasazi interface Technical architectural and settlement adaptations are examined and the rise of matrilineality ethnic groupings and clans are modelled using ecological and ethnographic data and the innovative idea of anticipated cultural response In the last part of the book Dr Hunter Anderson evaluates the fit between her model and the archaeological record and argues vigorously for research into the evolution of ethnicity in the adaptive context of regional competition
