Social Origins Of The Iranian Revolution:

Social Origins of the Iranian Revolution Misagh Parsa, 1989 Misagh Parsa develops a structural theory of the causes and outcomes of revolution applying the theory in particular to Iran. He focuses on the ends and means of various groups of Iranians before, during, and after the revolution. For Parsa, revolution is not a direct result of ideologies which may be less important than structural factors such as the nature of the state and the economy as well as each group's interests, capacity for mobilization, autonomy, and solidarity structures. Existing theories of revolution explain earlier revolutions better than the Iranian revolution. In Iran, most of the protest was in urban areas; the peasants never played a major role and power was transferred to the clergy, not to an intelligentsia. In the 1970s, oil revenues increased, the economy developed rapidly but unevenly, and the state's expanded intervention undermined market forces and politicized capital accumulation. Systematic repression of workers' aid to the upper class and attacks on secular and religious opposition showed that the state was serving the interests of particular groups. When the state tried to check high inflation by imposing price controls on bazaaris, merchants, shopkeepers, artisans, their protests forced the state to introduce reforms, providing an opportunity for industrial workers, white collar workers, intellectuals, and the clergy to mobilize against the state. Thus, structural features rendered the state vulnerable to challenge and attack. Parsa's thorough explanation of the collective actions of each major group in Iran in the three decades prior to the revolution shows how a coalition of classes and groups, using mosques as safe gathering places and led by a segment of the clergy, brought down the monarch in 1979. In the years since the revolution, the conflicts that existed before the revolution seem to be reemerging in slightly altered form. The clergy now has control, and the state has become centrally and powerfully involved in the economy of the country.

Ardalan, 2022-12-08 This book explores the field of history through a multi-paradigmatic approach. For this purpose, it begins with a discussion of four most diverse worldviews or paradigms: namely, functionalist, interpretive, radical humanist, and radical structuralist. Before moving on to consider four aspects of the field of history: historiography, grand narrative, progress, and time, from the viewpoints of the four most diverse worldviews or paradigms. Next, the book looks at three historical events: the French Revolution, the American Civil War, and the Iranian Revolution, from the viewpoints of the four most diverse worldviews or paradigms. It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi-faceted nature of the subject matter.

Class, Politics, and Ideology in the Iranian Revolution Mansoor Moaddel, 1993 Thirteen years after the Shah of Iran was swept away in a tide of revolutionary fervor, the cruelty and brutality of the new regime remains shocking. In *Class, Politics, and Ideology in the Iranian Revolution*, Mansoor Moaddel provides the theoretical underpinnings for a richer and clearer understanding of

Iran's tumultuous recent history Analyzing the causes and processes of the revolution through the prisms of class politics and ideology Moaddel argues that the currently dominant theories of revolution insufficiently address the requisite question of ideology Ideology is not simply another factor that adds an increment to the causes of revolution Ideology is the constitutive feature of revolution Moaddel explains how revolutionary conditions in Iran were created by a combination of state economic policies favoring international capital which enraged segments of the powerful bourgeoisie and fluctuations in the world economy that financially weakened Iran But the central element of the revolutionary crisis of the late 1970s was the development of Shi'i revolutionary discourse as the dominant ideology As liberalism and communism declined the potent discourse of revolutionary Islam with its martyrdom its religious rituals its symbolic structures formed a powerful conduit for popular mobilization Karl Marx likened the French Revolution to a gigantic broom which swept away all the medieval rubbish Drawing from his abundant theoretical historical and sociological knowledge Moaddel illuminates the process by which the gigantic broom of the Iranian Revolution swept all the medieval rubbish back in The Iranian Revolution Then And Now Dariush Zahedi, 2018-02-13 In The Iranian Revolution Then and Now Dariush Zahedi assesses the Islamic Republic's potential for revolution through an in depth theoretically informed comparative analysis of the present with 1979 pre Revolutionary Iran Zahedi discusses how the potential for a revolutionary coup is based on two things the inherent defects and vulnerabilities in the regime and the coordinated actions of the social groups and individuals opposed to the regime He also identifies two ideal typical forms of revolutionary change In The Iranian Revolution Then and Now Dariush Zahedi assesses the Islamic Republic's potential for revolution through an in depth theoretically informed comparative analysis of the present with 1979 pre Revolutionary Iran Zahedi discusses how the potential for a revolutionary coup is based on two things the inherent defects and vulnerabilities in the regime and the coordinated actions of the social groups and individuals opposed to the regime He also identifies two ideal typical forms of revolutionary change the regime collapses on its own or the regime is overthrown He concludes that the chances for overthrowing the present regime are moderate **Social Movements in Egypt and Iran** T. Povey, 2016-02-09 This book analyses the reform movement in Iran and the Egyptian opposition movement since the early 1990s in their historical contexts It argues that the contemporary movements seen on the streets of the regions today represent the culmination of over twenty years of mobilisation by social movements Revolution and War Stephen M. Walt, 2013-08-09 Revolution within a state almost invariably leads to intense security competition between states and often to war In Revolution and War Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance

of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war **Iran** Samih K. Farsoun, Mehrdad Mashayekhi, 2005-11-22 Argues that the construction of a legitimate Islamic political culture and ideology is the key to the consolidation of the post revolutionary regime Addresses a wide range of specific aspects within a theoretical framework

Patterns Legitimizing Political Violence in Transcultural Perspectives Bettina Koch, 2015-05-19 This volume explores theoretical discourses in which religion is used to legitimize political violence It examines the ways in which Christianity and Islam are utilized for political ends in particular how violence is used or abused as an expedient to justify political action This research focuses on premodern as well as contemporary discourses in the Middle East and Latin America identifying patterns frequently used to justify the deployment of violence in both hegemonic and anti hegemonic discourses In addition it explores how premodern arguments and authorities are utilized and transformed in order to legitimize contemporary violence as well as the ways in which the use of religion as a means to justify violence alters the nature of conflicts that are not otherwise explicitly religious It argues that most past and present conflicts even if the discourses about them are conducted in religious terms have origins other than religion and or blend religion with other causes namely socio economic and political injustice and inequality Understanding the use and abuse of religion to justify violence is a prerequisite to discerning the nature of a conflict and might thus contribute to conflict resolution Democracy in Iran Ali Gheissari, 2009-07-24 In this book Ali Gheissari and Vali Nasr look at the political history of Iran in the modern era and offer an in depth analysis of the prospects for democracy to flourish there After having produced the only successful Islamist challenge to the state a revolution and an Islamic Republic Iran is now poised to produce a genuine and indigenous democratic movement in the Muslim world Democracy in Iran is neither a sudden development nor a western import and Gheissari and Nasr seek to understand why democracy failed to grow roots and lost ground to an autocratic Iranian state *Text and Trauma* Ian Richard
