Mills, PhD, LCSW, JD,1998-08-31 This startling analysis of violence within intimate relationships contends that every abusive relationship has paradoxically a heart of its own Practitioners must acknowledge and engage this dynamic emotional center in order for interventions to succeed The Heart of Intimate Abuse takes a broad critical view of standard responses to abuse by today s criminal justice social work and medical systems especially those that respond to violence with coercive interventions such as mandatory arrest prosecution and reporting laws Here is a bold vision of the core dynamics of abuse in families a vision that professionals can use to realize new policies and implement effective interventions that reach the heart of intimate abuse

Bellack,Michel Hersen,R.L.

Morrison,Vincent B. Van Hasselt,2013-06-29 In the last decade there has been heightened clinical and investigative activity in the area of family violence This of course is partly attributable to recent surveys showing a high incidence of family violence in the United States For example there are indications that nearly 30% of married women in this country are victims of physical abuse by spouses at some point in their marriage Further FBI statistics show that approximately 13% of all

homicides are husband wife killings Moreover it has been projected that such figures are likely to increase over the next several years Consistent with these trends funding of family violence research by both federal and private agencies has increased Indeed federal agencies such as the National Institute of Mental Health and the National Institute of Law Enforcement and Criminal Justice have provided considerable support for work in this area In addition family violence particu larly wifebattering child abuse and sexual abuse of children has been the focus of media attention at the national level and has generated intensive interest in both lay and profes sional publications Moreover there have been several recent governmental hearings and investigations regarding the prevalence of these problems

Physical Violence in American Families Murray Straus,2017-09-04 The informative and controversial findings in this book are based on two path breaking national surveys of American families Both show that while the family may be the central locus of love and support it is also the locus of risk for those who are physically assaulted The book provides a wealth of information on gender differences and similarities in violence and on the effects of gender roles and inequality Two landmark American studies of violence from the National Family Violence survey form the basis of this book Both show that while the family may be the central locus of love and support it is also the locus of risk for those who are being physically assaulted This is particularly true for women and children who are statistically more at risk of assault in their own homes than on the streets of any American city Physical Violence in American Families provides a wealth of information on gender differences and similarities in violence and on the effects of gender roles and inequality It is essential for anyone doing empirical research or clinical assessment

Not To People Like Us Susan Weitzman,2008-08-01 This important book brings the ignored population of abused upper income women to light revealing for the first time the depth and severity of upscale abuse How is it possible for a highly educated woman with a career and resources of her own to stay in a marriage with an abusive husband How can a man be considered a pillar of his community run a successful business and regularly give his wife a black eye That we can even ask these startling questions proves how convinced we are that domestic abuse is restricted to the lower classes In *Not to People Like Us* psychotherapist Susan Weitzman dramatically challenges this assumption It is the first book to explore a previously overlooked population of emotionally and physically battered wives the upper educated and upper income women who rarely report abuse and remain trapped by their own silence Weitzman draws on an in depth study to document the shocking nature and incidence of abuse among the wives of professors physicians and CEOs many of them professionals and executives themselves With keen insight and profound sensitivity she reveals the unique path taken by the upscale wife the early warning signs the dilemmas and decisions the dangerous desire to cover up and maintain appearances The first book to condemn the legal and social service system for failing to recognize domestic violence among upper income families *Not to People Like Us* offers crucial information to help women find their way out of abusive relationships and toward safety and independence

This highly successful reader presents the interactionist approach to the study of deviance examining deviance as a phenomenon that is constituted through social interpretations and the reactions of persons caught up in this social process This book focuses on issues such as how individuals interpret and label people how people relate to one another based on these interpretations and the consequences of these social processes This perspective helps students understand both social process in general and the sociology of deviance in particular The Clinical Treatment of the Criminal Offender in

Outpatient Mental Health Settings Letitia C Pallone,2019-05-23 This volume brings together in a single source a set of perspectives by leaders in the clinical treatment of criminal offenders in outpatient settings particularly those whose crimes have involved domestic violence and or substance abuse More than a set of how to techniques it addresses the question of which offenders can successfully be treated in what settings by which techniques It is a valuable resource not only for those concerned with prisons probation and parole but also for those responsible for the delivery of mental health services in the community **Recent Developments in Alcoholism** Marc Galanter,1997-01-31 From the President of the Research

Society on Alcoholism On behalf of the Research Society on Alcoholism I am pleased to introduce this thirteenth volume of Recent Developments in Alcoholism about alcohol and violence Current concepts are presented in well organized sections that cus on epidemiology neurobiology psychology and family issues It is coming increasingly clear that age gender socioeconomic circumstances and genetics affect aggressive behavior and vulnerability to alcoholism This v ume contains up to date discussions of these issues Indeed the information presented here will help all alcohol researchers to identify biological and social factors that contribute to the comorbidity of alcoholism and aggression The editors and associate editors should be congratulated for bringing toge er such important information This volume will be a valuable resource for investigators and therapists alike Ivan Diamond M D Ph D President Research Society on Alcoholism From the President of the American Society of Addiction Medicine The American Society of Addiction Medicine is honored to continue its sponsorship with the Research Society on Alcoholism of Recent Developmen ts in Alcoholism The topic of alcohol and violence is a particularly timely one given the growing number of studies that are examining the relationship between the two These studies are consistent with the hypothesis that al hol can increase aggression and contribute to both domestic and criminal violence Intoxicating blood levels of alcohol have been found to be especially prevalent in those injured in fights and assaults **Law Enforcement Officers' Understanding of Domestic Violence Among Their Colleagues** Marie C.

Salimbeni,2011-04 This study examined the perceptions of officers with colleagues who perpetrate acts of domestic violence This was a qualitative research design from a phenomenological perspective The data was gathered by the use of face to face interviews using open ended questions The data was analyzed by the use of bracketing horizontalization clusters of meanings

textural and structural descriptions and the invariant structure of the phenomena described by the study participants Upon completion of the 30 interviews the audio tapes were all transcribed and loaded in to Atlas Ti for the purpose of coding the data for the major themes A constant comparison method was used to analyze the data to help identify the similarities and differences between the study participants perceptions with the phenomena The five qualitative questions each depict a different area of experience with the phenomenon to create a holistic picture of the perceptions of the thirty participants The findings suggest that for some officers the inability to separate their police role from their civilian role may be a factor in the perpetration of domestic violence by law enforcement officers The findings also suggest that social workers may be able to play an important role in the remediation of the problem of domestic violence for those within and outside police social work settings

Handbook of Family and Marital Therapy Sharon A. Shueman, Benjamin B. Wolman, 2012-12-06 Family and marital therapies are rapidly becoming highly used methods of treatment of mental disorders and are no longer ancillary methods to individual psychotherapy The last few decades have brought about an increasing awareness of the fact that excluding organic etiology practically all mental disorders are caused fostered and or related to faulty interpersonal relations As a rule the earlier in life one is exposed to noxious factors the more severe is the damage Thus early child parents and child siblings interactions are highly relevant determinants of mental health and mental disorder Moreover parents themselves do not live in a vacuum Their marital interaction significantly contributes to their own mental health or to its decline and parent child relationships are greatly influenced by the nature of intraparental relationships Parental discord conflicts and abandonment affect the child s personality development Thus family and marital therapy is more than therapy it is an important contribution to the prevention of mental disorder The present volume is comprised of three parts The first primarily theoretical analyzes the fundamental aspects of marital and family therapy The second part describes the various therapeutic techniques and the last deals with several specific issues It gives me great pleasure to acknowledge my gratitude to my coeditor Dr George Stricker Without his thorough and devoted efforts this volume could not have come into being I am also profoundly indebted to our consulting editors Dr James Framo Dr What Trouble I Have Seen David Peterson del Mar, 2009-07-01 It was 1869 and Sarah Moses with a very black eye told her father The world will never know what trouble I have seen What she d seen was violence at the hands of her husband Does the world know any more of such things today than it did in Sarah s time Sarah it so happens lived in Oregon that Edenic state on the Pacific Coast and it is here that David Peterson del Mar centers his history of violence against wives What causes such violence Has it changed over time How does it relate to the state of society as a whole And how have women tried to stop it resist it escape it These are the questions Peterson del Mar pursues and the answers he finds are as fascinating as they are disturbing Thousands of thickly documented divorce cases from the Oregon circuit courts let us listen to voices who often go unheard These are the people who didn t keep diaries or leave autobiographies who sometimes could not write at all Here they speak of a society that

quietly condoned wife beating until the spread of an ethos of self restraint in the late nineteenth century And then Peterson del Mar finds the practice increased with a vengeance with the florescence of expressive individualism during the twentieth century What Trouble I Have Seen also traces a dramatic shift in wives response to their husbands violence Settler and Native American women commonly fought abusive mates Most wives of the late nineteenth century acted more cautiously and relied on others for protection But twentieth century privatism Peterson del Mar discovers often isolated modern wives from family and neighbors casting abused women on the mercy of the police women s shelters and most important their own resources Thus a new emphasis on self determination even as it stimulated violence among men enhanced the ability of women to resist and escape violent husbands The first sustained history of violence toward wives What Trouble I Have Seen offers remarkable testimony to the impact of social trends on the most private arrangements and the resilience of women subject to a seemingly timeless crime
