Glicken,2009-08-01 At a time when the mental health difficulties disorders of the elderly are coming to the fore of many practitioners patient rosters naming and treating those problems is still too often handled as an art as much as a science Inconsistent practices based on clinical experience and intuition rather than hard scientific evidence of efficacy have for too

long been the basis of much treatment Evidence based practices help to alleviate some of the confusion allowing the practitioner to develop quality practice guidelines that can be applied to the client identify appropriate literature that can be shared with the client communicate with other professionals from a knowledge guided frame of reference and continue a process of self learning that results in the best possible treatment for clients The proposed volume will provide practitioners with a state of the art compilation of evidence based practices in the assessment and treatment of elderly clients As such it will be more clinically useful than anything currently on the market and will better enable practitioners to meet the demands faced in private and institutional practice Focusing on the most current research and best evidence regarding assessment diagnosis and treatment the volume covers difficulties including but not limited to social isolation loneliness elder abuse neglect depression and suicidal inclinations anxiety disorders substance abuse dementias prolonged bereavement patients with terminal illnesses Because concrete research evidence is so often not used as the basis for practice this book provides a timely guide for clinicians social workers and advanced students to a research oriented approach to serving the mental health needs of elderly adults Fully covers assessment diagnosis treatment of the elderly focusing on evidence based practices Consolidates broadly distributed literature into single source and specifically relates evidence based tools to practical treatment saving clinicians time in obtaining and translating information and improving the level of care they can provide Detailed how to explanation of practical evidence based treatment techniques Gives reader firm grasp of how to more effectively treat patients Chapters directly address the range of conditions and disorders most common for this patient population i e social isolation elder abuse neglect depression anxiety disorders terminal illnesses disabilities bereavement substance abuse and dementias Prepares readers for the conditions they will encounter in real world treatment of an elderly patient population Cites numerous case studies and provides integrative questions at the end of each chapter Exposes reader to real world application of each treatment discussed Offers reader easy base for further study of subject saving clinicians time

Adoption of LMS in Higher Educational Institutions of the Middle East Rashid A. Khan, Hassan

Qudrat-Ullah, 2020-07-28 This book discusses the adoption of learning management systems LMS in higher education institutions It presents influential predictors that may impact instructors behavioral intention to adopt learning management systems in the context of Arab culture as well as a unique model of technology acceptance that draws on and combines previous technology adoption models i e a modified unified theory of acceptance and use of technology model UTAUT2 Moreover this study extends the UTAUT2 model by including Hofstede s 1980 cultural dimensions and technology awareness as the moderators of the model It also describes the explanatory technique approach used to collect quantitative data from the instructors at higher education institutions in Saudi Arabia and were analyzed with structural equation modeling using SPSS Amos software The findings revealed that facilitating conditions were the strongest predictor of behavioral intention to adopt an LMS followed by performance expectancy and hedonic motivation technology awareness and cultural dimensions

exerted a moderating influence on instructors behavioral intention to use LMS in their teaching By including new constructs this becomes the first study of its kind exploring instructors use of LMS in Higher Educational Institutions of Saudi Arabia and other countries of the Middle East It offers practical insights for a broad range of researchers and professionals at higher education institutions and serves as a reference guide for designers of learning management systems e g blackboard systems policymakers and the Ministry of Education staff

Learning from Resilient People Morley D. Glicken, 2006-05-03 This comprehensive core textbook analyzes how resilient people navigate the troubled waters of life s traumas and identifies how learning about resilience may help cultivate this quality in other less resilient people Author Morley D Glicken explains the inner self healing processes of resilient people and helps individuals training in the helping professions to learn to use these processes in working with their clients Key Features Presents Current Research on Resilience The most current data is provided on a variety of common physical social and emotional problems experienced by people and the way in which resilient people cope with those problems In addition an entire chapter summarizes what we know about resilience and how it can be applied to clinical practice Provides Engaging Case Examples Wonderful and honestly written stories from resilient people about how they cope so well with their traumas illustrate how therapy using resilience can work From this perspective therapy draws from strength rather than deficit or psychopathology There is also a chapter on resilient communities not often discussed in literature which supports the idea that communities can help people increase their resilience Examines Resilience Across the Life Cycle The meaning and definitions of resilience is discussed as well as how it functions throughout the life cycle and through multiple life events This book also clarifies the erroneous notion that resilient people are endlessly resilient and helps recognize resilience as an actual and real attribute and not one that makes people seem super human Intended Audience This is an ideal textbook for undergraduate and graduate courses in Psychology Counseling Social Work Psychiatric Nursing Marriage and Family Counseling and Criminal Justice that teach direct practice techniques approaches and theories It is also a valuable resource for practitioners administrators teachers mental health workers and family service agencies

Handbook of Research Design and Social Measurement Delbert C. Miller, Neil J. Salkind, 2002-01-16 If a student researcher had only one handbook on their bookshelf Miller and Salkind s Handbook would certainly have to be it With the updated material the addition of the section on ethical issues which is so well done that I m recommending it to the departmental representative to the university IRB and a new Part 4 on Qualitative Methods the new Handbook is an indispensable resource for researchers Dan Cover Department of Sociology Furman University I have observed that most instructors want to teach methodology their way to imbue the course with their own approach Miller Salkind allows one to do this easily The book is both conceptually strong e g very good coverage of epistemology research design and statistics and at the same time provides a wealth of practical knowledge scales indices professional organizations computer applications etc In addition it covers the waterfront of methodology Michael L Vasu Director of Information
