Social Isolation in Modern Society Roelof Hortulanus, Anja Machielse, Ludwien Meeuwesen, 2006-06-28. Social isolation has serious repercussions for people and communities across the globe, yet knowledge about this phenomenon has remained rather limited until now. The first multidisciplinary study to explore this issue, *Social Isolation in Modern Society* integrates relevant research traditions in the social sciences and brings together sociological theories of social networks and psychological theories of feelings of loneliness. Both traditions are embedded in research with the results of a large-scale international study being used to describe the extent, nature, and divergent manifestations of social isolation. empirically based study includes concrete policy recommendations and presents a clear insight into personal social and socio economic causes and the consequences of social isolation
