## **Social Ethics Sociology And The Future Of Society:**

**Social Ethics** Charlotte Perkins Gilman, 2004-04-30 First serialized in 1914 Social Ethics attempts to convince readers that individualist ethics have failed to make the world a safe place for children and that we cannot progress to a fully social ethics unless we understand the morality of collective action from a specifically sociological point of view Gilman argues that in order to be fully progressive ethics must shift from its traditional focus on individual behaviors to the structure morality and outcomes of social or group actions The social ills she addresses in her attempt to advocate for a reexamination of our ethics include topics still relevant today militarism waste religious intolerance conspicuous consumption greed graft environmental degradation preventable diseases and patriarchal oppression in its numerous manifestations Hill and Deegan's purpose in recovering this forcefully argued book from obscurity is to show not only that Gilman's central arguments remain largely valid and cogent today but also that Gilman is a major and substantive contributor to the shape and importance of sociology in its formative years Traditional ethics Gilman argues fail to resolve the enduring problems facing society because our received ethical systems are invariably and mistakenly founded on individualist rather than social logics The shape of our collective future if it is to be progressive and morally responsible depends fundamentally on adopting a sociological perspective and our guiding principle must be to make the world a safe and nurturing place for babies and children Anything less in Gilman's view is morally degenerate In their carefully considered introduction Hill and Deegan locate Gilman's personal and professional sociological identity within a network of influential and collegial sociologists and relate Social Ethics to Gilman's interests in evolutionary thought Fabian economics feminist pragmatism and the cognate work of Thorstein Veblen The publication of Social Ethics in book form recovers an important theoretical treatise for a new generation of students scholars and fans of Gilman's Herland Ourland saga

**Social Ethics: Sociology and the Future of Society** Charlotte Gilman, 2020-01-16 **Social Love and the Critical Potential of People** Silvia Cataldi, Gennaro Iorio, 2022-09-23 This book unveils the concept of social love as a kind of Karst River that flows through the history of sociology reassessing it as a form criticism by people in everyday life Adopting an interdisciplinary perspective this book offers both theoretical and empirical reflections on social love It shows that love is not only central to the human experience but that it can also help to interpret and intervene in social problems such as climate change poverty xenophobia and the post Covid crisis recognizing people as actors in social change It explores the idea of love as a key element in the promotion of solidarity and recognition in today's plural and unequal societies Based on empirical research on social love conducted through both qualitative and quantitative methods especially in Europe and Latin America this book explores the social dimension of love Providing overviews on key questions and studies on current issues the book is essential reference and resource for researchers students social workers and professionals in social sciences social philosophy anthropology social psychology sociology of emotions and postmodern literature

*A Place For Teacher Renewal* Anthony G. Rud, Walter P. Oldendorf, 2008-03-01 Originally Published with Teachers College Press in 1992 Foreword by Maxine Greene Are teachers ever given the credit and respect they deserve Is there a place where they can go to be treated as intelligent professionals rather than as underpaid tools of school administrations or the government For some teachers the answer to these questions is finally yes The focus of *A Place for Teacher Renewal* is the North Carolina Center for the Advancement of Teaching a statefunded university based program located in the Western North Carolina mountains and designed to renew and retain teachers of all kinds As an exemplary teacher renewal and staff development program NCCAT strengthens teachers commitment to their practice by offering outstanding teachers the opportunity for intensive personal investigation into topics inside or outside of their specialties This hands on study extensive concrete and engaging is just what many teachers need After the tediousness and hectic pace of classroom life they need a chance to use their intellect just for themselves Teachers given a chance to express their full adult selves a chance to be renewed by intellectual challenge a chance to be valued as competent professionals are more likely to stay in the profession Chapters provide the reader with an historical perspective on the Center arguments for the rationale of

the Center an overview of the programs offered the roles of administration and evaluation in the creation and continued success of the Center and NCCAT's future role in teacher renewal Many chapters are written by NCCAT staff members all of whom are also experienced educators A foreword by Maxine Greene and a chapter by Gary Griffin as respected educators not affiliated with NCCAT offer objective and very supportive comments on an idea and a program that is long overdue Staff developers and anyone interested in teacher retention and renewal will find this case study of the finest teacher renewal program in the nation to be an invaluable resource

Reviving and Re-Writing Ethics in Social Research For Commoning the Community Chowdhury, Jahid Siraz, Vadevelu, Kumarashwaran, Hatta, Zulkarnain A., Ashraf, Mahfuz, Bhaumik, Amiya, 2024-03-05 In the continuously changing field of social sciences ethical considerations in anthropological studies pose unprecedented challenges The book *Reviving and Re Writing Ethics in Social Research For Commoning the Community* embarks on a transformative journey moving beyond historical analysis to address pressing contemporary questions about the norms governing anthropological study Who guards the guardians What ethical challenges does the modern era pose for anthropological sciences These are the critical questions explored in this comprehensive exploration of the ethical landscape of social research As the ethical foundations of social research shift with political intellectual and societal changes there is a pressing need to reassess the purpose of anthropological knowledge and the responsibility of researchers towards the communities they study The book raises vital concerns about the evolving nature of ethical considerations challenging traditional notions of ethical research It highlights the ethical and axiological dilemmas faced by anthropologists in the modern era emphasizing the need for a more community centric approach that actively benefits the studied communities

Governing Future Technologies Mario Kaiser, Monika Kurath, Sabine Maasen, Christoph Rehmann-Sutter, 2009-10-29 Nanotechnology has been the subject of extensive assessment hype unlike any previous field of research and development A multiplicity of stakeholders have started to analyze the implications of nanotechnology Technology assessment institutions around the world non governmental organizations think tanks re insurance companies and academics from science and technology studies and applied ethics have turned their attention to this growing field's implications In the course of these assessment efforts a social phenomenon has emerged a phenomenon the editors define as assessment regime Despite the variety of organizations methods and actors involved in the evaluation and regulation of emerging nanotechnologies the assessment activities comply with an overarching scientific and political imperative Innovations are only welcome if they are assessed against the criteria of safety sustainability desirability and acceptability So far such deliberations and reflections have played only a subordinate role This book argues that with the rise of the nanotechnology assessment regime however things have changed dramatically Situated at the crossroads of democratizing

science and technology good governance and the quest for sustainable innovations the assessment regime has become constitutive for technological development The contributions in this book explore and critically analyse nanotechnology s assessment regime To what extent is it constitutive for technology in general for nanotechnology in particular What social conditions render the regime a phenomenon sui generis And what are its implications for science and society
