Social Gains from Female Education K. Subbarao, Laura Raney, 1993-01-01 **Women, Education and Development in Asia** Grace C.L. Mak, 2017-12-12 This reissue 1996 examines four interrelated aspects of schooling for women in ten Asian countries the development experience of a country and how it affects education and women's status the types of educational opportunities available to women if the greater exposure to education results in greater participation in the public sphere the impact of education and economic participation on women's domestic status **Desired Fertility and the Impact of Population Policies** Lant Pritchett, Lawrence H. Summers, 1994 **Raising the Productivity of Women Farmers in Sub-Saharan Africa** Katrine Anderson Saito, Hailu Mekonnen, Daphne Spurling, 1994 World Bank Discussion Paper 230 Based on four country studies and extensive household surveys this paper documents the breakdown of traditional farming systems in Sub Saharan Africa and its implications for the role of women in agriculture **Is the Planet Full?** Ian Goldin, 2014 What are the impacts of population growth Can our planet support the demands of the ten billion people anticipated to be the world's population by the middle of this century While it is common to hear about the problems of overpopulation might there be unexplored benefits of increasing numbers of people in the world How can we both consider and harness the potential benefits brought by a healthier wealthier and larger population May more people mean more scientists to discover how our world works more inventors and thinkers to help solve the world's problems more skilled people to put these ideas into practice In this book leading academics with a wide range of expertise in demography philosophy biology climate science economics and environmental sustainability explore the contexts costs and benefits of a burgeoning population on our economic social and environmental systems *Enhancing Women's Participation in Economic Development*, 1994-01-01 Annotation Makes recommendations for removing the barriers women face in contributing to and benefiting from sustainable economic development International experience has proved that support for a stronger role for women in society contributes to economic growth through improved child survival rates better family health and reduced fertility rates Nevertheless women still face many barriers in contributing to and benefiting from development These include low investment in female education and health and restricted access to services and assets This study highlights five areas that could help change this inequitable situation education health wage labor agriculture and natural resource management and financial services A gender and development strategy is suggested that would take into account the relative roles and responsibilities of women and men implying that the actions and attitudes of men must change The ideas presented in this paper are an example of the World Bank's commitment to mainstreaming gender concerns into its operations Although significant steps have already been taken in this direction there remains a long road ahead Also available French ISBN 0 8213 3023 3 Stock No 13023 Spanish ISBN 0 8213 3024 1 Stock No 13024 *Investing in All the People* Lawrence H. Anne G. Tinker, 1993-01-01 This collection reviews national policies that critically influence economic performance in developing countries It describes principles that shape good economic policy and illustrates them with case studies In an overview that draws together insights from the essays the volume editor explains why poor countries need sound government policies to offset unfavorable conditions including scant natural resources adverse problems that occur with monetary and exchange rate policies and financial sector reform The basic rules for monetary policy in an open economy are developed along with the different ways in which financial reform and financial repression affect an economy Practical ways to deal with foreign exchange markets are described They include such arrangements as multiple exchange rates for commercial transactions and dual rates that separate commercial and financial transactions Also examined are the ways in which trade liberalization and trade restrictions impede economic development Advice is given on developing a uniform structure that balances the administration of taxes with the efficiency of a tax structure The book examines the relationship between budget deficits and money creation and suggests management strategies for developing sound economic policy that include advice on inflation control international trade import restrictions income tax rates and price and wage controls Published for the World Bank by Oxford University Press

The Stork and the Plow Paul R. Ehrlich, Anne H. Ehrlich, Gretchen C. Daily, 1997-01-01 In this provocative book the authors look at the interaction between population and food supply and offer a powerful and radical strategy for balancing human numbers with nutritional needs Their proposals include improving the status of women reducing racism and religious prejudice reforming the agricultural system and shrinking the growing gap between rich and poor This ambitious enlightened handbook is a cornucopia of strategies and

ideas for concerned citizens and policymakers Publishers Weekly Give equal education and power to women throughout the world argue the authors when that happens birth rates fall and food supplies go up San Francisco Chronicle Best Bets of 1995 The book can help us understand the past and possible future of the meals most Westerners take for granted Bill McKibben New York Review of Books A well reasoned account of how poverty forces unsustainable use of natural resources a careful and balanced treatment of developments in agriculture that may help food production to stay ahead of population growth Basia Zaba Nature This generation faces a set of challenges unprecedented in their scope and severity and in the shortness of time left to resolve them The Stork and the Plow sets these out thoughtfully and accurately We can all hope this urgent message is carefully heeded Henry W Kendall Nobel laureate and Julius A Stratton Professor of Physics MIT A wonderful piece of work Partha Dasgupta American Scientist

Equality for Women = Prosperity for All Augusto Lopez-Claros, Bahiyyih Nakhjavani, 2018-10-30 A groundbreaking book about the direct relationship between a woman's rights and freedoms and the economic prosperity of her country The authors speak to hearts as well as minds Maud de Boer Buquicchio UN Special Rapporteur Not only timely but profoundly important a must read Jackie Jones Professor of Feminist Legal studies Gender discrimination is often seen from a human rights perspective it is a violation of women's basic human rights as embedded in the Universal Declaration the UN Charter and other such founding documents Moreover there is overwhelming evidence that restrictions and various forms of discrimination against women are also bad economics They undermine the talent pool available to the private sector they distort power relationships within the family and lead to inefficiencies in the use of resources They contribute to create an environment in which women de facto are second class citizens with fewer options than men lower quality jobs lower pay often the victims of various forms of violence literally from the cradle to the grave They are also not fully politically empowered and have scant presence in the corridors of power whether as finance ministers central bank governors prime ministers or on the boards of leading corporations Why is gender inequality so pervasive Where does it come from Does it have cultural and religious roots And what are the sorts of policies and values that will deliver a world in which being born a boy or a girl is no longer a measure of the likelihood of developing one's human potential

Agriculture and the Environment Ernst Lutz, 1998-01-01 Agriculture in developing countries has been remarkably productive during the last few decades however the production levels were achieved at the cost of placing more stress on natural resources and the environment This volume brings together state of the art applied practical research related to agriculture development and the environment in the developing world It attempts to distill current knowledge and to summarize it in readable form for development practitioners Where possible authors use specific examples to indicate which approaches have worked and which have not under which conditions and why

Care Relations in Southeast Asia Patcharawalai Wongboonsin, Jo-pei Tan, 2018-11-26 Care Relations in Southeast Asia The Family and Beyond edited by Patcharawalai Wongboonsin and Jo Pei Tan examines the care relations and transactions within and beyond the family

network across three middle income Southeast Asian countries namely the Federation of Malaysia the Kingdom of Thailand and the Socialist Republic of Vietnam at the national and sub national level On the national level changes and continuity in care relations along the changing demographic socio economic and political contexts of each country are addressed On the sub national level the complex dimensions of care relations are analyzed by looking at the attitude towards and practice of elderly and child care within between and beyond the family system These regional analyses are based on merged data of three most recent family surveys in Kuala Lumpur Bangkok Metropolis and Hanoi Alternative and innovative policy recommendations for current and future challenges are also offered Contains contributions by Asmidawati Ashari Ki Soo Eun Tengku Aizan Hamid Rahimah Ibrahim Thuttai Keeratipongpaiboon Nguyen Huu Minh Pataporn Sukontamarn Jo Pei Tan Tran Thi Minh Thi Kua Wongboonsin and Patcharawalai Wongboonsin

Criminals in the Making John Paul Wright, Stephen G. Tibbetts, Leah E. Daigle, 2014-02-10 Why do individuals exposed to the same environment turn out so differently with some engaging in crime and others abiding by societal rules and norms Why are males involved in violent crime more often than females And why do the precursors of serious pathological behavior typically emerge in childhood This fascinating text addresses key questions surrounding criminal propensity by discussing studies of the life course perspective criminological research that links biological factors associated with criminality with the social and environmental agents thought to cause facilitate or otherwise influence a tendency towards criminal activity The book provides comprehensive interdisciplinary coverage of the current thinking in the field about criminal behavior over the course of a lifetime Additionally it highlights interventions proven effective and illustrates how the life course perspective has contributed to a greater understanding of the causes of crime

Bridges and Barriers Eddie Williams, 2014-06-03 Recent decades have seen sub Saharan Africa decline in both economic and human terms The rich North has responded with a barrage of well publicized initiatives from pop concerts to international commitments on debt relief aid trade and good governance Among the complex of factors necessary to sustain economic and human development education receives little media coverage although it is crucial However education must be effective This book argues that in Anglophone Africa education is not effective because of the use of English rather than children s first languages both as the medium of instruction and also as the language in which children are first taught to read Research is presented from Malawi and Zambia countries with contrasting language policies using evidence from tests in English and African languages small group discussions and classroom observation The findings show that English medium policies in Africa do not give students any advantage in English over first language policies while the use of English discriminates against girls and rural children The book concludes that much education in Africa is a barrier rather than a bridge to learning because of the prevailing language ideology which has resulted in massive over estimation of the value of English While appropriate language policies alone will not solve education and development difficulties in Africa they do have a positive contribution to make The evidence presented here suggests they are failing to

make that contribution Improving Global Health Barry B. Hughes,Randall Kuhn,Cecilia Mosca Peterson,Dale S. Rothman,Jose Roberto Solorzano,2015-11-17 Improving Global Health is the third in a series of volumes Patterns of Potential Human Progress that uses the International Futures IFs simulation model to explore prospects for human development how development appears to be unfolding globally and locally how we would like it to evolve and how better to assure that we move it in desired directions Earlier volumes addressed the reduction of global poverty and the advance of global education Volume 3 sets out to tell a story of possible futures for the health of peoples across the world Questions the volume addresses include What health outcomes might we expect given current patterns of human development What opportunities exist for intervention and the achievement of alternate health futures How might improved health futures affect broader economic social and political prospects of countries regions and the world *Annual World Bank Conference on Development Economics 1995* Michael Bruno,Boris Pleskovic,1996 Annotation The 1995 conference continued the tradition of holding a roundtable discussion related to the subject of the forthcoming annual World Development Report in this case economies in transition The conference addressed four themes redistribution with growth demographic change and development aid and development and fiscal decentralization Among the articles included in the 1995 proceedings are Argentina s Miracle From Hyperinflation to Sustained Growth Domingo F Cavallo and Guillermo Mondino Inequality Poverty and Growth Where Do We Stand Albert Fishlow Government Provision and Regulation of Economic Support in Old Age Peter Diamond Is Growth in Developing Countries Beneficial to Industrial Countries Richard N Cooper Fiscal Federalism and Decentralization A Review of Some Efficiency and Macroeconomic Aspects Vito Tanzi **Exporting High-value Food Commodities** Steven Jaffee,Peter Gordon,1993-01-01 The economic integration of the European Community EC and its implications for Sub Saharan Africa are examined in this anthology *Korean Industrial Policy* Danny M. Leipziger,Peter A. Petri,1993 The World Bank is changing the way it does business in the energy sector This Policy Paper is one of two that outlines the Bank s new policies for the sector The review was prompted by concern about the effects of power generation on the environment and on populations that may be resettled to make way for projects Another stimulus was the macroeconomic reality of fewer investment resources in many countries And many developing countries are becoming more receptive to reforming the way energy is produced and consumed This paper credits the public monopoly approach of the last 30 years with facilitating expansion of power supplies capturing technical economies of scale and making effective use of scarce managerial and technical skills Nonetheless it recommends several new policies to improve the performance of the electric power sector in developing countries These reforms will guide future Bank activities in the sector Bank loans for electric power will go first to countries clearly committed to improving the performance of their power sectors The Bank will also discourage subsidies on energy prices and will encourage private investment in utilities And it will provide financing to help the least developed countries import power where local generation is not practical The efficiency of production and use of electric power in

developing countries is examined in a companion paper Energy Efficiency and Conservation in the Developing World The World Bank's Role The World Bank's Role in the Electric Power Sector is also available in Spanish La función del Banco Mundial en el sector de la electricidad Políticas para efectuar una reforma institucional regulatoria y financiera eficaz ISBN 0 8213 2451 9 Stock No 12451 7 95 Price code 007 Spanis *Borrower Ownership of Adjustment Programs and the Political Economy of Reform* John H. Johnson, Sulaiman S. Wasty, 1993-01-01 China has done much to reform its price system achieve macroeconomic stability and restore growth Nevertheless price distortions remain in three key areas This study suggests further price reforms for the energy grain and transport sectors It explains why energy price adjustments should have only a modest effect on consumer prices but a highly positive effect on the economy It discusses why China may have to reduce consumer subsidies to achieve the necessary reforms for grain prices The study describes what the government must do to strengthen commodity markets generate competition and make allowances for seasonal price variations China's transport sector has been a critical development bottleneck The paper reviews tariff adjustments and other reforms that would modernize the transport system and help it meet growing demand These reforms also would encourage energy conservation and help integrate the national economy
