Edwards,1973      **THE TRANSITION OF DANWEI-COMMUNITY AND URBAN COMMUNITY REBUILDING** Tian Yi-Peng,2021-11-18 In this work the author endeavors to treat Danwei system as a special and highly organized form of community and sets about his study from the perspectives of Danwei community s change and urban community reconstruction When it comes to the construction and development of urban communities in contemporary China academic circles at home often attempt to unravel its intimate and indissoluble connection with Danwei system and seek to lay emphasis upon the great complexity of their interactive relationship with each other However academic circles generally incorporate Danwei system taken as a national system as well as a universal institution into their fields of research whereas they rarely enter into a critical examination of the variations in its multiplicity of specific denotations by taking account of such variables as space region and culture nor do they show much concern about the existence of different types of Danwei In view of the foregoing difficulties in which the study of Danwei system gets entangled this study attempts to accomplish the following main purposes Firstly this study shall introduce such a variable as locality into the research on Danwei community by starting off from the research perspectives of Danwei community s origin formation and change Secondly several super large industrial communities in the old industrial bases shall be chosen as classic cases in illustration of long standing complications and entanglements enmeshed in this study And thirdly it seeks to reveal the mode and experience of urban community development against a background of Danwei system reform so that by gaining a full understanding of as well as making an in depth analysis of their rich implications we can enrich the theory of urban community construction in the Chinese context and hence grapple successfully with some theoretical problems confronting urban community reconstruction against a background of Danwei community change which shall eventually bring about a smooth transition of Danwei society This book will assuredly open an exceptional window to the transition of China from traditional to modern society the transition of Chinese society from planned economy to market economy and the change track of the interplay between the Chinese government and modern Chinese society after the founding of New China in 1949 at the present time and even in the foreseeable future      *The Integrated Service in Urban Community Governance* Liwen Hou,2025-09-24 This book analyzes new situations and challenges for the Shanghai model of community governance in subdistrict system reform government purchased services social institution development grid based management and the opening up of blocks social governance with social power team building of community workers etc taking the reform of community governance in Shanghai Both structural and social reasons for that are demonstrated as well In this way as for governance elements the innovation process key steps and multiple practices in primary level society a systematic and integrated model restructuring is proposed which centers on the

community for solutions To be specific it refers to an integrated service model construction based on community so as to advance the modernization of the primary level governance system in Shanghai and its governance capabilities The translation was done with the help of artificial intelligence A subsequent human revision was done primarily in terms of content

Aldous,1967      **Housing, Urban Renewal and Socio-Spatial Integration** Xiaoxi Hui,2013-02-07 This issue of A BE addresses two critical urban issues China faces today housing and urban renewal In the recent two decades the Chinese urban housing stock underwent a significant if not extreme transformation From 1949 to 1998 the urban housing stock in China largely depended on the public sector and a large amount of public housing areas were developed under the socialistic public housing system in Beijing and other Chinese cities Yet in 1998 a radical housing reform stopped this housing system Thus most of the public housing stock was privatized and the urban housing provision was conferred to the market The radical housing privatization and marketization did not really resolve but intensified the housing problem Along with the high speed urbanization the alienated capitalized and speculative housing stock caused a series of social and spatial problems The Chinese government therefore attempted to reestablish the social housing system in 2007 However the unbalanced structure of the Chinese urban housing stock has not been considerably optimized and the housing problem is still one of the most critical challenges in China      **Special Issue on Participatory Tools and Methods in Urban Areas** ,1994      **State of the Urban Youth, 2010/2011** ,2010 This report is based on data from UN HABITAT s Global Urban Indicator Database as well as surveys of and focus group discussions with selected representative groups of young people in five major cities located in four developing regions Rio de Janeiro Brazil Mumbai India Kingston Jamaica Nairobi Kenya and Lagos Nigeria p ix      COMPLETE URBAN HORTICULTURE COURSE Marcel Souza, Transform your space into a green oasis with the Complete Urban Horticulture Course This book is the ultimate guide to turning even the smallest corners of the city into lush and productive gardens From indoor plants to vertical gardens this comprehensive course provides expert knowledge at every step of the urban gardening process Discover the best techniques for cultivating a variety of plants from aromatic herbs to fresh vegetables tailored to the urban environment With easy to follow step by step instructions and practical tips you ll learn to create a garden that not only adds beauty to your space but also provides fresh and healthy food to your table Additionally this course addresses important topics such as selecting the best containers for planting in limited spaces effective irrigation techniques and managing pests and diseases in urban environments Whether you re an enthusiastic beginner or an experienced urban gardener the Complete Urban Horticulture Course offers a valuable source of inspiration and knowledge to create a green oasis in any urban setting Transform your city into a green paradise with this comprehensive and practical guide
