Social Policy European Union 2ed Hb:

Europe's Second Constitution Markus W. Gehring, 2020-09-24 European constitutionalisation has met with scepticism this book analyses the steps necessary to move to EU's Second Constitution *Soviet Street Children and the Second World War* Olga Kucherenko, 2016-07-14 A time of great hardship the Second World War became a consequential episode in the history of Soviet childhood policies The growing social problem of juvenile homelessness and delinquency alerted the government to the need for a comprehensive child protection programme Nevertheless by prioritizing public order over welfare the Stalinist state created conditions that only exacerbated the situation transforming an existing problem into a nation wide crisis In this comprehensive account based on exhaustive archival research Olga Kucherenko investigates the plight of more than a million street children and the state's role in the reinforcement of their ranks By looking at wartime dislocation Soviet child welfare policies juvenile justice and the shadow world both within and without the Gulag *Soviet Street Children and the Second World War* challenges several of the most pervasive myths about the Soviet Union at war It is therefore as much an investigation of children on the margins of Soviet society as it is a study of the impact of war and state policies on society itself *The Social Construction of Swedish Neutrality* Christine Agius, 2006-07-30 Since the end of the Cold War and particularly in the post 9 11 international environment neutrality has been conceptualised as a problematic subject With the end of bipolarity neutrality as a foreign and security policy lost much of its justification and in the ongoing War on Terror no state according to the Bush Administration can be neutral However much of this debate has gone unnoticed in IR literature This book newly available in paperback examines the conceptualisation of neutrality from the Peloponnesian War to the present day uncovering how neutrality has been a neglected and misunderstood subject in IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty internationalism and solidarity to the debates about Swedish neutrality today and how neutrality has been central to Swedish identity and its world view **Understanding Social Security (Second Edition)** Jane Millar, 2009-02-02 The second edition of this important text reviews policy developments since 1997 The chapters have been extensively updated and there are new chapters on social security reform inequalities and social security and the new welfare market **Forthcoming Books** *Rose Arny*, 1998 *Evaluating Reforms of Local Public and Social Services in Europe* Ivan Koprić, Hellmut Wollmann, Gérard Marcou, 2017-10-20 This book explains the increasing demand for evaluation as a result of the increasing frequency of reforms to local services influenced by the New Public Management doctrine the severe austerity policy in many European countries and the wish to increase quality and reduce costs of public services especially at the local sub national level Positioned at the interface of local services and evaluation research it will enable the utilization of evaluation generated knowledge in evidence based policy making by focusing on the lessons learned from evaluation of local service delivery It encompasses local public and social services including waste water public

transport healthcare education and eldercare and examines the hypothesis that there is a North West South East divide in Europe in terms of the evaluation of local service reforms Particular attention is devoted to the explanatory function of evaluation Providing fresh insight into the functioning of local government machinery in contemporary Europe this book will appeal in particular to practitioners and students of local government public economy public administration and policy

Self-Understanding Ainur Elmgren, Norbert Götz, 2017-10-02 Power investigation or the practice of power to legitimize itself through commissioned programmes of scientific enquiry is a hallmark of Nordic democracy Five power investigations have been conducted in the Nordic countries since 1972 The close connection to state power has not dissuaded prominent scholars from participating in them nor have their findings evoked strong criticism Combining politically guided perspectives with collaborative research power investigations represent public events that typify the ostensibly open political culture of the Nordic countries rather than simply existing as texts or as a politico scientific genre Although such investigations have been thought of as critical studies of power the authors in this book show that their findings have varied greatly and that they have served as tools for wielding power Whatever shortcomings they uncover the utility of these investigations in suggesting transparency and self reflection enhances the legitimacy of Scandinavian government The investigations are persuasive exercises through which the commissioning authorities and those scholars hired to carry them out engage in a mutually beneficial exchange Underlying this strategy is the perception deeply embedded in Nordic political culture that politics is a progressive rational endeavour and that identification with the state is an honourable role for academics This book was published as a special issue of the Journal of Contemporary European Studies Constitutionalism beyond Liberalism

Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 *Constitutionalism beyond Liberalism* bridges the gap between comparative constitutional law and constitutional theory. The volume uses the constitutional experience of countries in the global South: China, India, South Africa, Pakistan, Indonesia, and Malaysia to transcend the liberal conceptions of constitutionalism that currently dominate contemporary comparative constitutional discourse. The alternative conceptions examined include political constitutionalism, societal constitutionalism, state-based Rousseauian conceptions of constitutionalism, and geopolitical conceptions of constitutionalism. Through these examinations, the volume seeks to expand our appreciation of the human possibilities of constitutionalism, exploring constitutionalism not merely as a restriction on the powers of government but also as a creating collective political and social possibilities in diverse geographical and historical settings.

Pursuing Horizontal Management B. Guy Peters, 2015-03-13. From the first specialization and coordination have presented governments with a conundrum: specialized programs might be best for delivering one service to the public, but combining such programs for all public services inevitably produces costly redundancies and inefficiencies. In this long-awaited book, Guy Peters brings his expertise and extensive experience to bear on the problem of administrative and policy coordination. Through theory and four real-world case studies, he explores how and whether coordination can transform ordinary flawed patterns of governing into more effective and efficient performance by the public sector. This timely work arrives at a moment when coordination is proving especially challenging as popular approaches to public administration emphasize breaking larger public organizations into smaller, single-purpose programs and as a push to involve the private sector in policy development and implementation has increased government segmentation. For insights into the workings and limitations of coordination or horizontal management, Peters draws on extensive scholarship as well as his own consulting work with governments including Finland, Serbia, Bosnia and Herzegovina, Canada, and Mexico. He highlights practical successes and failures of horizontal management in case studies of Homeland Security in the US, child protection in the UK, policymaking in Finland, and the operations of the European Union. In the process, Peters evaluates a full tool chest of instruments that might be used to enhance coordination. Combining theory and practice and considering a wide range of public policy challenges, this book clearly and cogently presents the most comprehensive in-depth and detailed discussion available of policy coordination in the public sector at a time when its insights are most urgently needed.
