*Social Realism: Art as a Weapon* David Shapiro, 1973 In an introductory essay David Shapiro appraises the roots and achievements of Social Realism providing an overall framework within which the source material that follows can be understood Was Social Realism only a response to the economic collapse of the 1930s or was it part of a continuing American art tradition A primary selection of documents ranging from Hugo Gellert's exultant *We Capture the Walls* 1932 to Oliver Larkin's retrospective *Common Cause* 1949 fixes the period's social and aesthetic background It includes spirited contributions by Diego Rivera Meyer Schapiro Stuart Davis and others A second selection of documents focuses on five major Social Realists Philip Evergood William Gropper Jacob Lawrence Jack Levine and Ben Shahn for closer study This section includes individual biographical outlines personal statements by the artists and representative critical analyses of their work The book concludes with an especially compiled list of major Social Realists an extended bibliography and a detailed index

Includes ten reproductions From book jacket **The Social and the Real: Political Art of the 1930s in the Western Hemisphere**, 2006 Pollock and After Francis Frascina, 2000 This revised edition features ten new articles and is fully

updated to take account of new critical approaches to post war American art *Marxism and 20th-Century English-Canadian Novels* John Z. Ming Chen, Yuhua Ji, 2015-06-09 This monograph is the first academic work to apply a neo Marxist approach to 20th century Canadian social realist novels pursuing a refreshingly neo Marxist approach to such issues as Bakhtinian notions of the novelistic form and dialogism as applied to Canadian socio political novels influenced by various socialisms socialist feminist concerns economic and sexual politics and the genre of social realism In so doing it demonstrates that Marxist socialism is as relevant today as it was in the 1930s just as social realist novels continue to thrive as a critique of capitalism Readers will find valuable insights into the social significance formal innovations moral sensitivity aesthetic enrichment and ideological complexity of Canadian social realist novels **Labor's Canvas** Laura Hapke, 2009-03-26 At an

unprecedented and probably unique American moment laboring people were indivisible from the art of the 1930s By far the most recognizable New Deal art employed an endless frieze of white or racially ambiguous machine proletarians from solo drillers to identical assembly line toilers Even today such paintings particularly those with work themes are almost instantly recognizable Happening on a Depression era picture one can see from a distance the often simplified figures the intense or bold colors the frozen motion or flattened perspective and the uniformity of laboring bodies within an often naive realism or naturalism of treatment In a kind of Social Realist dance the FAP's imagined drillers haulers construction workers welders miners and steel mill workers make up a rugged industrial army In an unusual synthesis of art and working class history *Labor's Canvas* argues that however simplified this golden age of American worker art appears from a post modern perspective The New Deal's Federal Art Project FAP under the aegis of the Works Progress Administration WPA revealed important tensions Artists saw themselves as cultural workers who had much in common with the blue collar workforce Yet

they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor s Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal s artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves      **Antifascism in American Art** Cécile Whiting,1989-01-01 Whiting examines the various manifestations of antifacist art showing how each negotiated the competing demands of artistic conventions aesthetic and political theories and historical developments      *Cultural Hermeneutics of Modern Art* Eldert Willems,Hubert Dethier,2023-07-24      **Imagining Our Americas** Sandhya Shukla,Heidi Tinsman,2007-07-20 Challenges the disciplinary boundaries and the assumptions underlying the fields of Latin American Studies and American U S Studies demonstrating that the Americas is a concept that transcends geographical place      Hearings Before the Committee on Un-American Activities, House of Representatives, Eighty-fourth Congress, Second Session Estados Unidos.
