Social Reform In England 1780 1880

Duncan Bowie

Social Reform In England 1780 1880:

Social Reform in England, 1780-1880 John Roach, 1978 **Longman Handbook to Modern British History 1714 - 2001** Chris Cook, John Stevenson, 2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years the new statistics on social and economic history and an expanded glossary of terms The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office Designed for the student and general reader this highly successful handbook provides a wealth of varied data within the confines of a single volume The Routledge Companion to Britain in the Nineteenth Century, 1815-1914 Chris Cook, 2005-11-30 The Routledge Companion to Britain in the Nineteenth Century 1815 1914 is an accessible and indispensable compendium of essential information on the Victorian and Edwardian eras Using chronologies maps glossaries an extensive bibliography a wealth of statistical information and nearly two hundred biographies of key figures this clear and concise book provides a comprehensive guide to modern British history from the end of the Napoleonic Wars to the outbreak of the First World War As well as the key areas of political economic and social development of the era this book also covers the increasingly emergent themes of sexuality leisure gender and the environment exploring in detail the following aspects of the nineteenth century parliamentary and political reform chartism radicalism and popular protest the Irish Question the rise of Imperialism the regulation of sexuality and vice the development of organised sport and leisure the rise of consumer society This book is an ideal reference resource for students and teachers alike **The Radical and Socialist Tradition in British Planning** Duncan Bowie, 2018-03-12 Focusing on the key period between the late 18th century and 1914 this book provides the first comprehensive narrative account of radical and socialist texts and organised movements for reform to land planning and housing policies in Britain Beginning with the early colonial settlements in the puritan and enlightenment eras it also covers Benthamite utilitarian planning Owenite and utopian communitarianism the Chartists late Chartists and the First International Christian socialists and positivists working class and radical land reform campaigns in the late 19th century Garden City pioneers and the institutionalisation of the planning profession The book in effect presents a prehistory of land planning and housing reform in the UK in contrast with most historiography which focuses on the immediate pre World War I period Providing an analysis of different intellectual traditions and contrasting middle class led reform initiatives with those based on working class organisations the book seeks to relate historical debates to contemporary themes including utopianism and pragmatism the role of the state the balance between local initiatives and centrally driven reforms and the interdependence of land housing and planning **A History of Modern Britain** Ellis Wasson, 2016-01-26 Now available in a fully revised and updated second edition A History of Modern Britain 1714 to the Present provides a

comprehensive survey of the social political economic and cultural history of Great Britain from the Hanoverian succession to the present day Places Britain in a global context charting the rise and fall of the British empire and the influence of imperialism on the social economic and political developments of the home country Includes revised sections on imperialism and the industrial revolution that have been updated to reflect recent scholarship a more reflective view on New Labour since its demise and an all new section on the performance of the Conservative Lib Dem coalition that came into office in 2010 Features illustrations maps an up to date bibliography a full list of Prime Ministers a genealogy of the royal family and a comprehensive glossary explaining uniquely British terms acronyms and famous figures Spans topics as diverse as the slave trade the novels of Charles Dickens the Irish Potato Famine the legalization of homosexuality coalmines in South Wales Antarctic exploration and the invention of the computer Includes extensive reference to historiography **Culture,**

Philanthropy and the Poor in Late-Victorian London Geoffrey A. C. Ginn, 2017-04-21 In refreshing our understanding of this obscure but eloquent activism Ginn approaches cultural philanthropy not simply as a project of class self interest nor as fanciful missionary aestheticism Rather he shows how liberal aspirations towards adult education and civic community can be traced in a number of centres of moralising voluntary effort Concentrating on Toynbee Hall in Whitechapel the People s Palace in Mile End Red Cross Hall in Southwark and the Bermondsey Settlement the discussion identifies the common impulses animating practical reformers across these settings Ginn shows how these were shaped by a distinctive diagnosis of urban deprivation and anomie The Structure of Nineteenth Century Cities James H Johnson, Colin Pooley, 2021-06-29

When this book was first published in 1982 despite considerable research on 19th Century towns in Britain and America there had been little attempt to search for links between these empirical studies and to relate them more to more general theories of 19th Century urban development The book provides an integrated series of chapters which discuss trends and research problems in the study of 19th Century cities It will be of value to researchers in urban geography social history and historical geography **School and Society in Victorian Britain** Richard Aldrich, 2012-05-16 Drawing on hitherto unused

sources this book represents a shift in the historiography of British education At the centre of the investigation is Joseph Payne He was one of the group of pioneers who founded the College of Preceptors in 1846 and in 1873 he was appointed to the first professorship of education in Britain established by the College of Preceptors By that date Payne had acquired a considerable reputation He was a classroom practitioner of rare skill the founder of two of the most successful Victorian private schools the author of best selling text books a scholar of note despite his lack of formal education and a leading member of the College of Preceptors and such bodies as the Scholastic Registration Association the Girls Public Day School Trust the Women s Education Union and the Social Science Association **Flesh in the Age of Reason** Roy

Porter, 2005-01-27 As an introduction to early modern thinking and the impact of past ideas on present lives this book can find few equals and no superiors Porter is a witty humane writer with an extraordinary vocabulary and a sparkling sense of

fun Whether he is quoting from obscure medical texts or analysing scabrous diaries dishing the dirt on long dead bigwigs or evoking sympathy for human suffering his grasp is masterly and his erudition appealing I wish I could read it again for the first time you can Times Educational Supplement Book of the Week In this startlingly brilliant sequel to the prize winning ENLIGHTENMENT Roy Porter completes his lifetime s work offering a magical enthusiastic and charming account of the writings of some of the most attractive figures ever to write English The Longman Handbook of Modern British History, 1714-1980 Chris Cook, John Stevenson, 1983 **The Emergence of the Welfare State in Britain and Germany** Wolfgang Mommsen, 2018-07-20 Originally published in 1981 The Emergence of the Welfare State in Britain and Germany 1850 1950 is an edited collection on the history and future prospects of the modern welfare state It attempts to pave the way for an analysis of the problems of the welfare state and its historical origins and the likely future that transcends the nation state orientated historical accounts This collection of essays seeks to promote an interdisciplinary approach to the problems of the welfare state in two industrial societies So far historians and social scientists concerned with this field of research have tended to work in isolation from one another without mutual exchange of knowledge and using different methods This book attempts to give equal scope to both perspectives *The Eighteenth-Century Town* Peter Borsay, 2014-01-14 The eighteenth century represents a critical period in the transition of the English urban history as the town of the early modern era involved into that of the industrial revolution and since Britain was the first industrial nation this transformation is of more than national significance for all those interested in the histroy of towns This book gathers together in one volume some of the most interesting and important articles that have appeared in research journals to provide a rich variety of perspectives on urban evelopment in the period Gender and Petty Violence in London, 1680-1720 Jennine Hurl-Eamon, 2005 Looking at a heretofore overlooked set of archival records of London in the late 17th and early 18th centuries Hurl Eamon reassesses the impact of gender on petty crime and its prosecution during the period This book offers a new approach to the growing body of work on the history of violence in past societies By focusing upon low cost prosecutions in minor courts Hurl Eamon uncovers thousands of assaults on the streets of early modern London Previous histories stressing the masculine nature of past violence are questioned here women perpetrated one third of all assaults In looking at more mundane altercations rather than the homicidal attacks studied in previous histories the book investigates violence as a physical language with some forms that were subject to gender constraints but many of which were available to both men and women Quantitative analyses of various circumstances surrounding the assaults including initial causes weapons used and injuries sustained outline the patterns of violence as a language Hurl Eamon also stresses the importance of focusing on the prosecutorial voice In bringing the court s attention to petty attacks thousands of early modern men and women should be seen as agents rather than victims This view is especially interesting in the context of domestic violence where hundreds of wives and servants prosecuted patriarchs for assault and in the Mohock Scare of 1712 where London s populace rose up in opposition to

aristocratic violence The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace

History and Context in Comparative Public Policy Douglas E. Ashford, 2010-11-23 Douglas E Ashford joins a growing number of scholars who have questioned the behaviorist assumptions of much policy science The essays in this volume show why policy analysis cannot be confined to prevailing methods of social science Policy making behavior involves historical contextual and philosophical factors that also raise critical questions about the concepts and theory of the discipline Ashford asks difficult questions about the contextual conjunctural and unintentional circumstances that affect actual decision making His bridging essays summarize opposing viewpoints and conflicting interpretations to help form a new agenda for comparative policy analysis

Religion in the Age of Decline S. J. D. Green, 2003-11-13 The seemingly inexorable decline of Christianity in Britain has long fascinated historians sociologists and churchmen They have also been exasperated by their failure to understand its origins or chart its progress Sceptical both of traditional accounts and of their more recent rejection by revisionist writers S J D Green concentrates scholarly attention for the first time on the social history of the chapel in a characteristic industrial urban setting He demonstrates just why so many churches were built in late Victorian Britain who built them who went to them and why He evaluates the associational ideal during its period of greatest success and explains the causes of its decline In this way Religion in the Age of Decline offers a fresh interpretation of the extent and the implications of the decline of religion in twentieth century Britain

Melodramatic Tactics Elaine Hadley, 1995 This pathbreaking work analyzes melodrama as not merely a theatrical genre but as a behavioral paradigm of the nineteenth century manifest in the theater in literature and in society It shows how the melodramatic mode reaffirmed the familial hierarchical and public grounds for ethical behavior and identity that characterized models of social exchange and organization

Writing the Revolution Raphael Hörmann, 2011 This study investigates German and English revolutionary literary discourse between 1819 and 1848 49 Marked by dramatic socioeconomic transformations this period witnessed a pronounced transnational shift from the concept of political revolution to one of social revolution Writing the Revolution engages with literary authors radical journalists early proletarian pamphleteers and political theorists tracing their demands for social liberation as well as their struggles with the specter of proletarian revolution The book argues that these ideological battles translated into competing poetics of revolution Series Kulturgeschichtliche Perspektiven Vol 10

Reform in Great Britain and Germany, 1750-1850 T. C. W. Blanning, Peter Wende, 1999 In the study of late eighteenth century Europe the concept of reform has been neglected compared to the attention lavished on its more glamorous relation revolution Yet it was reform not revolution which characterized the experience of both Great Britain and Germany from 1750 to 1850 This volume takes a comparative approach to shed new light on old problems

Science and the Practice of Medicine in the Nineteenth Century W. F. Bynum, 1994-05-27 Prior to the nineteenth century the practice of medicine in the Western world was as much art as science But argues W F Bynum modern medicine as practiced today is built upon

foundations that were firmly established between 1800 and the beginning of World War I He demonstrates this in terms of concepts institutions and professional structures that evolved during this crucial period applying both a more traditional intellectual approach to the subject and the newer social perspectives developed by recent historians of science and medicine In a wide ranging survey Bynum examines the parallel development of biomedical sciences such as physiology pathology bacteriology and immunology and of clinical practice and preventive medicine in nineteenth century Europe and North America Focusing on medicine in the hospitals the community and the laboratory Bynum contends that the impact of science was more striking on the public face of medicine and the diagnostic skills of doctors than it was on their actual therapeutic capacities

The Poverty of Our Freedom Axel Honneth, 2023-06-13 There is no normative concept more appealing today than the idea of individual freedom Political party manifestos are drawn up legal reforms are defended military interventions are undertaken even decisions in personal relationships are justified all in the name of individual freedom But our understanding of freedom is impoverished if we try to grasp its essence merely in terms of the subjective rights of the individual In his new book Axel Honneth shows that we still have a lot to learn from the tradition of philosophy about a rational concept of freedom Honneth begins by re examining the work of Hegel and Marx in order to clarify the concept of freedom He then explores various social problem areas in which the ideals of freedom are directly confronted by contemporary obstacles Honneth ends by examining potential forces which could give new impetus to our struggle for freedom This new book by one of the leading social and political philosophers writing today will be of great interest to students and scholars of philosophy political theory social theory and the social sciences and humanities generally

Unveiling the Magic of Words: A Overview of "**Social Reform In England 1780 1880**"
