Social Work Practice with Culturally Diverse People Surjit Singh Dhooper, Sharon E. Moore, 2000-10-18. The image of society is rapidly changing, challenging the social worker to adjust to a more culturally diverse clientele. Social workers are dealing with individuals who are from more diverse backgrounds, better informed, more politically active, and more aware of his or her rights. How does today's helping professional address the growing gaps in societal needs? *Social Work Practice with Culturally Diverse People* addresses the ambivalent and ambiguous changes in society which have conditioned and constrained the willingness, ability, and efforts of social workers to provide culturally competent services to those different from mainstream society. Dhooper and Moore outline each of the major disadvantaged groups and give a historical overview, highlight the major needs, identify intragroup differences, and discuss intervention at the micro, mezzo, and macro levels. They discuss how the social worker needs self-awareness of his or her own culture to treat clients as culturally equal to them. This is an essential text for students entering social work at both the direct and community practice levels. Additionally, it is an excellent reference for the practitioner dealing with these changes in his or her own practice.

We begin with a synthesis of the current evidence on the provision of

care to multicultural communities that provides an in depth look at both client and provider experiences The following chapters offer tangible research based approaches to engaging with multicultural clients and reveal often unrecognized problems with current models of social work practice A unique compilation of rigorous qualitative experimental and community based studies demonstrate the effectiveness of culturally grounded interventions and identify the specific factors associated with positive outcomes Areas covered include disability marriage and couple relationship problems domestic violence and mental illness within Latinx African American First Nations and South Asian communities As the authors in this book show the stories of multicultural communities are narratives of unprecedented resourcefulness and reinvention Yet social work underutilizes rich family and community cultural resources By not facilitating their involvement social service systems compromise these vital resources which social services cannot replace In arguing that we need to expand professional boundaries to encompass indigenous practices family and extended kin and therapeutic relationships that make sense to different cultural groups this book will be of interest to those studying the ways in which social work practice can be improved to better suit the needs of a racially and ethnically diverse population This book was originally published as a special issue of the Journal of Ethnic Cultural Diversity in Social Work *Cultural Diversity and Social Work Practice* Bruce A.
