Eastern Europe Jan F Triska, Charles Gati, 2025-03-03 First published in 1981 *Blue Collar Workers in Eastern Europe* deals with the attitudes and political disposition of the East European working class In particular it provides the first analysis of the growing assertiveness of the industrial proletariat from which East European governments claim to derive their legitimacy and on whose behalf they profess to rule These governments are increasingly hesitant in the use of force yet they lack the economic means of meeting their workers demands The chapters that make up the book fall into three main categories About one third are issue oriented and analytical dealing with the role economic condition attitudes social and demographic characteristics and political involvement of the workers These are followed by case studies of workers in several countries Finally two chapters explore the policy implications of the workers new found assertiveness and assess the international policy options and dilemmas of both the Soviet Union and the West This book covers all the major issues which brought about the widely publicised workers rebellion in Poland in the summer of 1980 and includes an assessment of that crisis and its sequels It will attract a wide readership among students of the history and politics of Eastern Europe especially those interested in labour unions socialist management and comparative communism [A History of Modern Political Thought in East Central Europe](#) Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, 2018-11-10 *A History of Modern Political Thought in East Central Europe* is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I *Negotiating Modernity in the Long Nineteenth Century* and Volume II Part I *Negotiating Modernity in the Short Twentieth Century 1918-1968* OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond [Charter 77 and Human Rights in Czechoslovakia](#) H. Gordon Skilling, 2025-04-30 First published in 1981 *Charter 77 and Human Rights in Czechoslovakia* covers the existence of Charter 77 from 1977 down to the end of 1980 The Charter movement was a significant phenomenon in the history of Czechoslovakia and of world communism and Charter 77 was symbolic of the courage the spirit of freedom and human rights in an invaded Czechoslovakia The book is based on samizdat materials which circulated in type written

Socialism Goes Global James Mark, Paul Betts, 2021-12-23 This collectively written monograph is the first work to provide a broad history of the relationship between Eastern Europe and the decolonising world It ranges from the late nineteenth to the late twentieth century but at its core is the dynamic of the post 1945 period when socialism's importance as a globalising force accelerated and drew together what contemporaries called the Second and Third Worlds At the centre of this history is the encounter between the Soviet Union and Eastern Europe on one hand and a wider world casting off European empires or struggling against western imperialism on the other The origins of these connections are traced back to new forms of internationalism enabled by the Russian Revolution the interplay between the first decolonisation of the twentieth century in Eastern Europe and rising anti colonial movements and the global rise of fascism which created new connections between East and South The heart of the book however lies in the Cold War when these contacts and relationships dramatically intensified A common embrace of socialist modernisation and anti imperial culture opened up possibilities for a new and meaningful exchange between the peripheries of Eastern Europe Latin America Africa and Asia Such linkages are examined across many different fields from health to archaeology economic development to the arts and through many people from students to experts to labour migrants who all helped to shape a different form and meaning of globalisation

The Greengrocer and His TV Paulina Bren, 2011-08-15 The 1968 Soviet invasion of Czechoslovakia brought an end to the Prague Spring and its promise of socialism with a human face Before the invasion Czech reformers had made unexpected use of television to advance political and social change In its aftermath Communist Party leaders employed the medium to achieve normalization pitching television stars against political dissidents in a televised spectacle that defined the times The Greengrocer and His TV offers a new cultural history of communism from the Prague Spring to the Velvet Revolution that reveals how state endorsed ideologies were played out on television particularly through soap opera like serials In focusing on the small screen Paulina Bren looks to the normal of normalization to the everyday experience of late communism The figure central to this book is the greengrocer who in a seminal essay by Václav Havel symbolized the ordinary citizen who acquiesced to the communist regime out of fear Bren challenges simplistic dichotomies of fearful acquiescence and courageous dissent to dramatically reconfigure what we know or think we know about everyday life under communism in the 1970s and 1980s Deftly moving between the small screen the street and the Central Committee and imaginatively drawing on

a wide range of sources that include television shows TV viewers letters newspapers radio programs the underground press and the Communist Party archives Bren shows how Havel s greengrocer actually experienced normalization and the ways in which popular television serials framed this experience Now back by popular demand socialist era serials such as The Woman Behind the Counter and The Thirty Adventures of Major Zeman provide Bren contends a way of seeing literally and figuratively Czechoslovakia s normalization and Eastern Europe s real socialism
