Socialization Of Law Students:

The Socialization of Law Students Wagner Thielens, 1980-01-01 This doctoral dissertation was based on data obtained from a thousand students at the Columbia University School of Law over a five year period *The Socialization of Law Students* Wagner P. Thielens, 1980 [The Socialization of Law Students](#) Wagner Perrin Thielens, 1973 **Commitment as a Factor in the Socialization of Law Students** Penelope Canan Austin, 1976 *Interpersonal Traits and the Socialization of Law Students in a University Law School* Gerald Allan Gluck, 1979 *The Handbook of Language Socialization* Alessandro Duranti, Elinor Ochs, Bambi B. Schieffelin, 2011-08-24 Documenting how in the course of acquiring language children become speakers and members of communities The Handbook of Language Socialization is a unique reference work for an emerging and fast moving field Spans the fields of anthropology education applied linguistics and human development Includes the latest developments in second and heritage language socialization and literary and media socialization Discusses socialization across the entire life span and across institutional settings including families schools work places and churches Explores data from a multitude of cultures from around the world **Socialization Effects of Professional School** Howard S. Erlanger, Douglas Alan Klegon, 1977 **The High Priests of American Politics** Mark Carlton Miller, 2002-03 Using a multidisciplinary approach Mark C Miller draws in large part on interviews he conducted with members of the U S House of Representatives the Ohio legislature and the Massachusetts legislature From this rich data he shows how American lawyers are socialized into a common legal ideology which in turn shapes the behavior of individual lawyer politicians legislative committees dominated by lawyers and the entire legislative institutions of government *Judging Credentials* Doris Marie Provine, 1986 Must judges be trained as lawyers in order to be effective in office or can nonlawyers serve equally well This question has long provoked controversy among lawyers judges legislators and the public In her empirical study of the place of the nonlawyer judge in the American legal system Doris Marie Provine concludes that despite the opposition of the legal profession to nonlawyer judges they are as competent as lawyers in carrying out judicial duties in courts of limited jurisdiction Provine presents a persuasive argument that the case against nonlawyer judges has been weighted in favor of the professional interests of lawyers not public concerns Her examination reveals as much about the presuppositions of legal professionals as it does about the competency of nonlawyer judges to old judicial office To substantiate her claims Provine has conducted the most comprehensive survey of nonlawyer and lawyer judges yet undertaken augmenting this material with court observations and extensive interviews of judges She integrates the results of this survey into the historical context of the lay versus lawyer judge debate showing how the legally trained judge came to predominate in the American judicial system and analyzing in detail the campaign both in and out of the courts to make legal training a prerequisite for being a judge Ultimately Provine suggests Americans are too committed to the significance of credentials and to the legal profession's vision of the judicial process to respond very favorably to nonlawyer judges however well they might perform Judging

Credentials will force lawyers judges scholars and the public to reconsider the role nonlawyer judges play in the American judicial system Provine s provocative views and exhaustive research adds new dimensions to our understanding of the ethics of professionalism and its consequences

Abel,1989 This comprehensive picture of the contemporary American legal profession traces its development over the last hundred years Abel examines a variety of topics including the nature and effect of entry barriers the rise and fall of restrictive practices efforts to create demand for lawyers services self regulation the income and status of lawyers the growth of public and private employment the displacement of solo and small firms and the allocation of lawyers to roles

Diversity in Practice Spencer Headworth, Robert L. Nelson, Ronit Dinovitzer, David B. Wilkins, 2016-04-01 Expressions of support for diversity are nearly ubiquitous among contemporary law firms and corporations Organizations back these rhetorical commitments with dedicated diversity staff and various diversity and inclusion initiatives Yet the goal of proportionate representation for people of color and women remains unrealized Members of historically underrepresented groups remain seriously disadvantaged in professional training and work environments that white upper class men continue to dominate While many professional labor markets manifest patterns of demographic inequality these patterns are particularly

pronounced in the law and elite segments of many professions Diversity in Practice analyzes the disconnect between expressed commitments to diversity and practical achievements revealing the often obscure systemic causes that drive persistent professional inequalities These original contributions build on existing literature and forge new paths in explaining enduring patterns of stratification in professional careers These more realistic assessments provide opportunities to move beyond mere rhetoric to something approaching diversity in practice Japan and Korea Frank Joseph Shulman, 2013-10-23 First Published in 1971 This annotated bibliography of doctoral dissertations on Japan and Korea grew out of a decision to expand and bring up to date an earlier list entitled Unpublished Doctoral Dissertations Relating to Japan Accepted in the Universities of Australia Canada Great Britain and the United States 1946 1963 compiled by Peter Cornwall and issued by the Center for Japanese Studies in 1965 **Organization Theory** Ulla Eriksson-Zetterquist, Tomas Müllern, Alexander Styhre, 2011-03-24 This new text takes a unique practice based approach identifying questions problems and issues that are perceived as pertinent by practitioners and using these as the starting point to identify the relevant theories **No Sense of Place** Joshua Meyrowitz, 1986-12-11 How have changes in media affected our everyday experience behavior and sense of identity Such questions have generated endless arguments and speculations but no thinker has addressed the issue with such force and originality as Joshua Meyrowitz in No Sense of Place Advancing a daring and sophisticated theory Meyrowitz shows how television and other electronic media have created new social situations that are no longer shaped by where we are or who is with us While other media experts have limited the debate to message content Meyrowitz focuses on the ways in which changes in media rearrange who knows what about whom and who knows what compared to whom making it impossible for us to behave with each other in traditional ways No Sense of Place explains how the electronic landscape has encouraged the development of More adultlike children and more childlike adults More career oriented women and more family oriented men and Leaders who try to act more like the person next door and real neighbors who want to have a greater say in local national and international affairs The dramatic changes fostered by electronic media notes Meyrowitz are neither entirely good nor entirely bad In some ways we are returning to older pre literate forms of social behavior becoming hunters and gatherers of an information age In other ways we are rushing forward into a new social world New media have helped to liberate many people from restrictive place defined roles but the resulting heightened expectations have also led to new social tensions and frustrations Once taken for granted behaviors are now subject to constant debate and negotiation The book richly explicates the quadruple pun in its title Changes in media transform how we sense information and how we make sense of our physical and social places in the world
