Kautilya and Non-Western IR Theory Deepshikha Shahi,2018-09-29 The ancient Indian text of Kautilya's Artha shastra comes forth as a valuable non Western resource for understanding contemporary International Relations IR. However Kautilya's Artha shastra largely suffers from the problem of presentism whereby present day assumptions of the dominant theoretical models of Classical Realism and Neorealism are read back into it thereby disrupting open reflections on Kautilya's Artha shastra which could retrieve its alternative assumptions and unconventional traits. This book attempts to enable Kautilya's Artha shastra to break free from the problem of presentism; it does so by juxtaposing the elements of continuity and change that showed up at different junctures of the life history of both Kautilya's Artha shastra and Eurocentric IR. The overall exploratory venture leads to a Kautilyan non Western eclectic theory of IR, a theory which moderately assimilates miscellaneous research traditions of Eurocentric IR and in addition delivers a few innovative features that could potentially uplift not only Indian IR but also Global IR.

Shared Devotion, Shared Food Jon Keune,2021-04-22 Shared Devotion Shared Food explores how people in western India wrestled for centuries with two competing values: a theological vision that God welcomes all people and the social hierarchy of the caste system. Jon Keune examines the ways in which food and stories about food were important sites where this debate played out, particularly when people of high and low social status ate together. By studying Marathi manuscripts, nineteenth century publications, plays and films, Shared Devotion Shared Food reveals how the question of caste inclusivity and equality was formulated in different ways over the course of three centuries and it explores why social equality remains so elusive in practice. *Research Journal of Philosophy & Social Sciences* ,1997 *The Indian Journal of Social Work* ,1997 *Review Journal of Philosophy & Social Science* ,1997 **Gleanings from Rig Veda** Choudur

Satyanarayana Moorthy,2016-08-23 Modern Science has only recently stumbled upon the truth that the underlying cause for existence is the realisation of Universal Consciousness. Whether it is the contribution of physics, biology, medicine, neurobiology, psychology or other branches of science, the ongoing efforts are entirely an attempt to understand this universal consciousness. However, these ideas are not new and they have their roots in the Rig Veda, the world's first book. It deals with Consciousness in entirety. Compiled by the Angirasa Rishis, the Rig Veda is an exposition of the route one can follow to successfully merge the Individual Consciousness and the Universal Consciousness. Gleanings from Rig Veda are an attempt to cull out these transient understandings from centuries ago.

Indian Review of Books ,1996 *White Bones Red Rot Black Snakes* Bhikkhu Sujato,2011-01-05 Enchanting, powerful, horrific, beautiful, wise, deadly, compassionate, seductive. Women in Buddhist story and image are all these things and more. She takes the signs of the ancient goddess: the lotus, the sacred grove, the serpent, the sacrifice and uses them in astonishing new ways. Her story is one of suffering and great trials and through it all an unquenchable longing to be free. This beautifully illustrated work is as layered and subversive as

mythology itself Based directly on authentic Buddhist texts and informed with insights from psychology and comparative mythology it takes a fresh look at how Buddhist women have been depicted by men and how they have depicted themselves
