**The Missionary Register ...**, 1818      **Society, Schools and Progress in Canada** Joseph Katz, 2017-04-05 *Society Schools and Progress in Canada* provides insights into the way people from various cultures live and work together thereby building a new society. The book briefly describes the history of the transformation of Canada in terms of its social, economic and political institutions. The change from a rural and agricultural to an urban and industrial country affects the way of life. This change makes local and migrant people find security through education. After tracing the roots of the different people making up Canada, the societies and communities found in the country are explained through demographics. The author then notes that changes in attitude toward health care, physical developments and social work naturally followed. A big part of the book deals with education, explaining the educational set up of the country that includes denominational and military schools. Additional detail is then given to primary, elementary, secondary schools and to colleges and universities. The training and education of elementary, secondary, vocational and teachers are discussed. The role of technology such as television, radio, broadcasting and computers in education are described. Although Canadian educational facilities are considered one of the best in the world, the book looks into possible reforms covering administration, school grounds and buildings, curriculum and educational organizations. Special topics such as religion in schools, sex education, penitentiary programs and an increasing population are also discussed. The text makes for interesting and informative reading for educators, historians, students and teachers in education and migrant families to Canada.
