Society Sex Offenders:

The Sex Offender: Corrections, treatment, and legal practice Barbara K. Schwartz, Henry R. Cellini, 1995 **Sex Crime, Offenders, and Society** Christina Mancini, 2021 What works in preventing sex crime How can policymakers respond to threats of sexual victimization in a manner that is effective equitable and sustainable The second edition of *Sex Crime Offenders and Society* seeks to provide a knowledge base for addressing these questions Based on feedback from reviewers and readers the new edition retains the same structure as the first examining three critical dimensions the nature and extent of sex offending and explanations societal responses and sex crime policy and reform It now includes updated statistics and references to influential scholarship throughout a new chapter exploring sex crime in post secondary institutions and a concluding chapter that focuses on innovative policy and reform into the future Sex Offenders in the Community Amanda Matravers, 2013-10-18 This book explores current criminal justice responses to the management of individuals who are convicted of sexual offences It aims to help policy makers practitioners and students to develop an informed position on this complex and increasingly controversial issue Although the focus is primarily upon the UK context contributions from North America USA and Canada provide an important comparative perspective **Sexual Predators** Robert A. Prentky, Howard E. Barbaree, Eric S. Janus, 2015-06-26 Convicted sex offenders released from custody at the end of their criminal sentences pose a risk for re offense In many US states Sexually Violent Predator SVP laws have been enacted that allow for the post prison preventive detention of high risk sex offenders SVP laws require the courts to make dispositions that protect the public from harm while at the same time respecting the civil rights of the offender This book describes these SVP laws their constitutionality and aspects of their operation Courts hear expert risk testimony based heavily on the results of actuarial risk assessment Problems associated with this testimony include the lack of a theory of recidivism risk bias due to human decision making and the insularity of scholarship and practice along developmental lines The authors propose changes in legal standards as well as a unified developmental model that treats sexual violence as an evolving condition with roots traceable to childhood and paths that extend into adolescence and adulthood *Managing High Risk Sex Offenders in the Community* Karen Harrison, 2010-03 This book explores the issues surrounding sex offenders evaluating the measures in use or being considered including drug treatment MAPPA the use of the Sex Offender Register restorative justice techniques and treatment programmes **The Sex Offender Housing Dilemma** Monica Williams, 2018-05-08 When a South Carolina couple killed a registered sex offender and his wife after they moved into their neighborhood in 2013 the story exposed an extreme and relatively rare instance of violence against sex offenders While media accounts would have us believe that vigilantes across the country lie in wait for predators who move into their neighborhoods responses to sex offenders more often involve collective campaigns that direct outrage toward political and criminal justice systems No community wants a sex offender in its midst but instead of vigilantism the author argues citizens often leverage moral political and or legal

authority to keep these offenders out of local neighborhoods Her book the culmination of four years of research 70 in depth interviews participant observations and studies of numerous media sources reveals the origins and characteristics of community responses to sexually violent predators SVP in the U S Specifically this book examines the placement process for released SVPs in California and the communities responses to those placements Taking the reader into the center of these related issues the author provokes debate on the role of communities in the execution of criminal justice policies while also addressing the responsibility of government institutions to both groups of citizens

and victim typologies arguing that work with offenders and victims is complex and can provide a rich source of theoretical and practical knowledge that should be utilised more fully by both policy makers and practitioners It includes work on female sex offenders electronic monitoring and animal abuse as well as exploring interventions with sex offenders in three different contexts prisons communities and hostels Bringing together academic practice and policy experts the book argues that a clear but complex theoretical and policy approach is required if the risk of re offending and further victimisation is to be reduced Ultimately this book questions whether it makes sense to locate responsibility for responding to sexual offending solely within the criminal justice domain
