Silverman, Thomas H. Ollendick, 1999 Developmental and Clinical Issues in the Treatment of Children is

the first volume to address the needs of practicing clinicians and other professionals who work in applied mental health settings. It represents the first interface of clinical child psychology, developmental psychopathology, specific child disorders, and contextual issues. This text's primary purpose is to bring these areas together to build upon the current knowledge base about children's problems and child treatment. In summary, this compendium integrates the major clinical and developmental issues involved in the real treatment of children. The contents of each chapter are relevant to the needs and concerns of practitioners while based on findings from the empirical literature.

Coping and the Challenge of Resilience Erica Frydenberg, 2017-03-10. This book addresses how best to meet everyday challenges. The author focuses on how to think and act differently about what we do as we face challenges and how to assess each situation as one of challenge rather than threat or harm because we have the strategies to cope. Spanning eleven chapters, the book examines the best ways to provide the core skills for life to children, adolescents, and adults and how that is best achieved through the contemporary theories of coping. Coping has traditionally been defined in terms of reaction that is how people respond after or during a stressful event. More recently, coping is being defined more broadly to include anticipatory, preventive, and proactive coping. This book provides case studies of resilient adults in a range of settings, highlighting how coping resources have helped them to overcome adversity. Researchers, students of psychology and social work practitioners, and those interested in the self-help field will find this book invaluable.

Advances in Experimental Social Psychology Mark P. Zanna, 1995. *Advances in Experimental Social Psychology* continues to be one of the most sought after and oft-cited series in this field. Containing contributions of major empirical and theoretical interest, this series represents the best and the brightest in new research theory and practice in social psychology.
