**The Oxford Handbook of French Politics** Robert Elgie, Emiliano Grossman, Amy G. Mazur, 2016-11-24 The Oxford Handbook of French Politics provides a comprehensive and comparative overview of the French political system through the lens of political science The Handbook is organized into three parts the first part identifies foundational concepts for the French case including chapters on republicanism and social welfare the second part focuses on thematic large scale processes such identity governance and globalization while the third part examines a wide range of issues relating to substantive politics and policy among which are chapters on political representation political culture social movements economic policy gender policy and defense and security policy The volume brings together established and emerging scholars and seeks to examine the French political system from a comparative perspective The contributors provide a state of the art review both of the comparative scholarly literature and the study of the French case making The Oxford Handbook of French Politics an invaluable resource for anyone interested in the foundations of contemporary political life in France

*Women's Rights and Women's Lives in France 1944-1968* Claire Duchén, 2003-09-02 Women's Rights and Women's Lives In France 1944 1968 explores key aspects of the everyday lives of women between the Liberation of France and the events of May 68 At the end of the war French women believed that a new era was beginning and that equality had been won The redefined postwar public sphere required women's participation for the new democracy and women's labour power for reconstruction but equally important was the belief in women's role as mothers Over the next two decades the tensions between competing visions of women's proper place dominated discourses of womanhood as well as policy decisions and had concrete implications for women's lives Working from a wide range of sources including women's magazines prescriptive literature documentation from political parties government reports parliamentary debates and personal memoirs Claire Duchén follows the debates concerning womanhood women's rights and women's lives through the 1944 1968 period and grounds them in the changing reality of postwar France

**Jahrbuch des Öffentlichen Rechts der Gegenwart. Neue Folge** Gerhard Leibholz, 1967-12-31

**Education and Racism** Louk Hagendoorn, Shervin Nekuee, 2018-12-17 First published in 1999 this book gives an inventory of factors contributing to ethnic prejudice in seven countries and the role of formal education among them on the basis of national surveys It appears that education is crucial in all the countries surveyed and contributes to more tolerant views of ethnic and national minorities in Western European countries Poland and the United States The positive effects of education however do not always counter the negative effects of personality characteristics and conservative values on ethnic prejudice Moreover the negative effects of less formal education may be reinforced by perceived economical competition of ethnic minorities and thereby further bolster prejudiced views of the less educated This indicates that formal education alone is not sufficient to change prejudiced

views Other forms of socialization transmitting values leading to open mindedness and the ability to secure one's economic position have to support the positive effects of formal education as well

*Race and Ethnicity in Comparative Perspective* Georgia A. Persons, 2018-04-24 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world's population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in *Race and Ethnicity in Comparative Perspective* lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America's changing problem of race *Race and Ethnicity in Comparative Perspective* is a timely thought provoking volume that will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists

Policing Paris Clifford D. Rosenberg, 2018-07-05 The surveillance of immigrants and potential terrorists preoccupies leaders throughout the industrialized world Yet these concerns are hardly new *Policing Paris* examines a critical moment in the history of immigration control and political surveillance Drawing on massive police archives and other materials Clifford Rosenberg shows how in the years after the Great War the French police terrified by the Bolshevik Revolution and the specter of immigrant criminality became the first major force anywhere systematically to enforce distinctions of citizenship and national

origins As the French capital emerged as a haven for refugees dissidents and workers from throughout Europe and across the Mediterranean in the 1920s police officers raided immigrant neighborhoods to scare illegal aliens into registering with authorities and arrested those whose papers were not in order The police began to concentrate on colonial workers from North Africa tracking these workers with a special police brigade and segregating them in their own hospital when they fell ill Transformed by their enforcement legal categories that had existed for hundreds of years began to matter as never before They determined whether or not families could remain together and whether people could keep their jobs or were forced to flee During World War II identity controls marked out entire populations for physical destruction The treatment of foreigners during the Third Republic Rosenberg contends shaped the subsequent treatment of Jews by Vichy At the same time however he argues that the new methods of identification pioneered between the wars are more directly relevant to the present day They created forms of inclusion and inequality that remain pervasive as industrial welfare states around the world find themselves compelled to provide benefits to their own citizens and recruit foreign nationals to satisfy their labor needs
