Guide** ,1913 Reading-Writing Connections Rui A. Alves,Teresa Limpo,R. Malatesha Joshi,2020-06-02 This book shows
that reading writing is a two way street that is burgeoning with research activity It provides a comprehensive and updated
view on reading writing connections by drawing on extant research and findings It puts forward a new conception of literacy
one that establishes reading and writing connections as the primeval ground for building literacy science It shows how an
integrative view of literacy can have deep and lasting effects on conceptualizing literacy development in several
orthographies and on improving literacy instruction and remediation worldwide The book examines in detail such issues as
modeling approaches to reading writing relations literacy development reading and spelling across orthographies and
integrative approaches to literacy instruction and remediation **Fiction and Social Reality** Mariano Longo,2016-03-09 In
spite of their differing rhetorics and cognitive strategies sociology and literature are often concerned with the same objects
social relationships action motivation social constraints and relationships for example As such sociologists have always been
fascinated with fictional literature This book reinvigorates the debate surrounding the utility of fiction as a sociological
resource examining the distinction between the two forms of writing and exploring the views of early sociologists on the
suitability of subjecting literary sources to sociological analysis Engaging with contemporary debates in this field the author
explores the potential sociological use of literary fiction considering the role of literature as the exemplification of
sociological concepts a non technical confirmation of theoretical insights and a form of empirical material used to confirm a
set of theoretically oriented assumptions A fascinating exploration of the means by which the sociological eye can be
sharpened by engagement with literary sources Fiction and Social Reality offers a set of methodological principles according
to which literature can be examined sociologically As such it will appeal to scholars of sociology and literary studies with

interests in research methods and interdisciplinary approaches to scholarly research

Reading Empirical Research

Studies John R. Hayes, Richard E. Young, Michele L. Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline
