Sociology After Postmodernism:

After Postmodernism Jose Lopez, Garry Potter, 2005-03-01 What comes after postmodernism A buzzword which began as an energising radical critique became by the 20th Century's end a byword for fracture eclecticism political apathy and intellectual exhaustion The last few years have seen a growing interest in critical realism as a possible alternative way of moving forward The virtues of critical realism lie in its successful provision of a philosophical grounding for the social sciences and humanities and of a methodology applicable to many different fields of analysis After Postmodernism brings together some of the best known names in the field to present the first truly interdisciplinary introduction to critical realism The book presents the reader with a compendium of accessible essays illustrating the connection between meta theory theory and substantive research across Sociology Philosophy Literary Studies Politics Media Studies Psychology and Science Studies The flexibility of critical realism is illustrated in the range of topics discussed ranging from quantum mechanics to cyberspace to literary theory nature smoking the future of Marx the unconscious and of course postmodernism and the future of theory itself Contributors Allison Assiter Ted Benton Francis Barker Roy Bhaskar Jean Bricmont Sue Clegg Andrew Collier Justin Cruickshank Robert Fine David Ford Tim Forsyth Rom Harré Pam Higham Philip Hodgkiss Jose Lopez Christopher Norris Bertell Ollman Jenneth Parker Frank Pearce Douglas V Porpora Garry Potter John Scott Philip Tew Charles R Varela Anthony Woodiwiss

Sociology After Postmodernism David Owen, 1997-03-25 Postmodernism is frequently described as dealing a death blow to sociology This book however argues that it is a mistake to conceive postmodernism in terms of a fatal attack upon what sociologists do The contributors locate the identity of sociology after postmodernism as a contested site which opens up the possibility of re imagining the enterprise of sociology They show how this re imagination might be conducted and trace some of the key potential consequences

Sociology After Postmodernism David Owen, 1997-06-09 This is an examination of the effect that postmodernism has had upon sociological thought Individual chapters address the topics of class gender race criminology deviance law culture sexuality emotion medicine science and technology

After Postmodernism Richard Smith, Philip Wexler, 2005-09-27 This work presents a set of thematic essays aimed at clarifying the educational problems and paradoxes of postmodern educational conditions and theory The major concerns of the book are the possibility of achieving substantive political objectives and of theorising such possibilities These concerns arise from a dissatisfaction with the organisational and political conditions of postmodern educational practice The seeming inability of academics to intervene in the public sector especially in matters of equality provides a driving force to the book For individuals who care about the future of education and its role in social reconstruction the pessimistic nature of postmodern theories of society and education is an additional impetus for the book All the chapters exemplify the issues that confront lecturers in contemporary university teacher education contexts A notable feature of the book is a theme that current theorisation about education and society are historically outmoded and that the future lies in post postmodern theories

North American Critical Theory After Postmodernism P. Nickel, 2012-08-21 In a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics

After Postmodernism Jan Faye, 2011-11-22 The philosophy of the humanistic sciences has been a blind spot in analytic philosophy This book argues that by adopting an appropriate pragmatic analysis of explanation and interpretation it is possible to show that scientific practice of humanistic sciences can be understood on similar lines to scientific practice of natural and social sciences

After Postmodernism Christopher K. Coffman, Theophilus Savvas, 2020-12-17 Several of American literature's most prominent authors and many of their most perceptive critics and reviewers argue that fiction of the last quarter century has turned away from the tendencies of postmodernist writing Yet the nature of that turn and the defining qualities of American fiction after postmodernism remain less than clear This volume identifies four prominent trends of the contemporary scene the recovery of the real a rethinking of historical engagement a preoccupation with materiality and a turn to the planetary Readings of works by various leading figures including Dave Eggers Jonathan Franzen A M Homes Lance Olsen Richard Powers William T Vollmann and David Foster Wallace support a variety of arguments about this recent revitalization of American literature The chapters in this book were originally published as a special issue of the journal Textual Practice

The Methodology and Philosophy of Collective Writing Michael A. Peters, Tina Besley, Marek Tesar, Liz Jackson, Petar Jandric, Sonja Arndt, Sean Sturm, 2021-07-12 This multi authored collection covers the methodology and philosophy of collective writing It is based on a series of articles written by the authors in Educational Philosophy and Theory Open Review of Educational Research and Knowledge Cultures to explore the concept of collective writing This tenth volume in the Editor's Choice series provides insights into the philosophy of academic writing and peer review peer production collective intelligence knowledge socialism openness open science and intellectual commons This collection represents the development of the philosophy methodology and philosophy of collective writing developed in the last few years by members of the Editors Collective EC who also edit review and contribute to Educational Philosophy and Theory EPAT as well as to PESA Agora edited by Tina Besley and Access edited by Nina Hood two PESA journals recently developed by EC members This book develops the philosophy methodology and pedagogy of collective writing as a new mode of academic writing as an alternative to the normal academic article The philosophy of collective writing draws on a new mode of academic publishing that emphasises the metaphysics of peer production and open review along with the main characteristics of openness collaboration co creation and co social innovation peer review and collegiality that have become a praxis for the self reflection emphasising the subjectivity of writing sometimes called self writing This collection under the EPAT series Editor's Choice draws on a group of members of the Editors Collective who constitute a network of editors reviewers and authors who established the organisation to further

the aims of innovation in academic writing and publishing It provides discussion and examples of the philosophy methodology and pedagogy of collective writing Split into three sections Introduction Openness and Projects this volume offers an introduction to the philosophy and methodology of collective writing It will be of interest to scholars in philosophy of education and those interested in the process of collective writing

Reconstructing Postmodernism Jason L. Powell, Tim Owen, 2007 There has been an array of literature on the notion of postmodernism in social science literature in recent years This exciting book focuses on three broad continuities one debunking the central theoretical tenets of postmodernism with reference to identity methodology governance and modernist theory two the book engages with current social issues and events in popular culture for example film professional power masculinity and terrorism three the book also rethinks postmodernism in light of under researched variables of analysis of time and ageing the body biology and choice

The 'Postmodern Turn' in the Social Sciences Simon Susen, 2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century

Roads to Dystopia, Sociological Essay on the Post Modern Condition (c) Stanford M. Lyman, 2001

More Than Black G. Reginald Daniel, 2010-06-25 In the United States anyone with even a trace of African American ancestry has been considered black Even as the twenty first century opens a racial hierarchy still prevents people of color including individuals of mixed race from enjoying the same privileges as Euro Americans In this book G Reginald Daniel argues that we are at a cross roads with members of a new multiracial movement pointing the way toward equality Tracing the centuries long evolution of Eurocentrism a concept geared to protecting white racial purity and social privilege Daniel shows how race has been constructed and regulated in the United States The so called one drop rule i e hypodescent obligated individuals to identify as black or white in effect erasing mixed race individuals from the social landscape For most of our history many mixed race individuals of African American descent have attempted to acquire the socioeconomic benefits of being white by forming separate enclaves or passing By the 1990s however interracial marriages became increasingly common and multiracial individuals became increasingly political demanding institutional changes that would recognize the reality of multiple racial backgrounds and challenging white racial privilege More Than Black regards the crumbling of the old racial order as an opportunity for substantially more than an improvement in U S race relations it offers no less than a radical transformation of the nation s racial consciousness and the practice of democracy

[Handbook of International Relations](#) Walter Carlsnaes, Thomas Risse-Kappen, Thomas Risse, Beth A Simmons, 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005 The most systematic and wide ranging survey of the multi faceted field of International Relations yet produced It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future It should be considered as essential reading International Affairs The Handbook of International

Relations published 2002 in hardback quickly established itself as the benchmark volume providing a state of the art review and indispensable guide to the study of international relations. It is now released in paperback in order to be accessible to students in classroom use. Divided into three parts, the volume reviews both the historical philosophical analytical and normative roots to the discipline and the key contemporary topics of research and debate today. The first part introduces the major approaches within the field and unpacks many of the on going debates within the discipline including those between rationalist and constructivist approaches. The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power to international and transnational actors, debates around globalization and contending feminist perspectives. The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II. Examples of the many topics included are foreign policy, war and peace, security, nationalism and ethnicity, finance, trade, development, the environment and human rights.

Crime, Genes, Neuroscience and Cyberspace Tim Owen, 2017-09-18

This book applies Owen's unique genetic social framework to the study of crime and criminal behaviour with an emphasis on cybercrime. Moving beyond challenges which confront contemporary criminological theorizing such as the stagnation of critical criminology, the relativistic nihilism of the cultural turn, posthumanism and virtual criminology, the author codifies and applies the latest version of the framework to the study of crime both in and out of cyberspace. Drawing upon evolutionary psychology, behavioural genetics and the philosophy of Heidegger, he introduces new terms such as Neuro Agency and notions of Embodied Cognition into criminological theorizing. Adopting a soft compatibilist approach to free will and Realist ontology, Owen's meta-theoretical focus provides a new direction for criminological theorizing in particular in the direction of the conceptualization and prediction of cyber violence. Exciting and timely, this book will appeal to scholars and advanced students of criminology, law, sociology, social policy, psychology, philosophy, policing and forensic investigation.

Researching Youth Mark Cieslik, 2003-11-13

Written in a clear and accessible style, this book presents a broad ranging enquiry into various methodological issues associated with contemporary youth research. Chapters cover a variety of topical areas including youth transitions, youth in care, drugs, consumption and music. Featuring studies by new and established youth researchers, this book will be an invaluable resource for undergraduate and postgraduate students and also those carrying out more advanced research in the fields of sociology, social policy, health studies, cultural and media studies.

Informal Economies in Post-Socialist Spaces J. Morris, A. Polese, 2015-06-23

Informed by in depth case studies focusing on a wide spectrum of micro and macro post socialist realities, this book demonstrates the multi faceted nature of informality and suggests that it is a widely diffused phenomenon used at all levels of a society and by both winners and losers of post socialist transition.

Improved Earth Rod Bantjes, 2005-01-01

Improved Earth is a history of the making of abstract spaces of modernity in the setting of the Canadian prairies, particularly rural Saskatchewan from 1869 to 1944. Rod Bantjes

demonstrates how three interrelated projects state formation agrarian class formation and the transformation of the environment were conceived in spatial terms and employed competing visions of spatial possibility Bantjes proposes that the prairies be thought of as a site of modernity and makes a case for viewing prairie farmers as modernists who not only embraced but took an active role in the making of modernity Indeed many of the questions that excited the imaginations of prairie politicians and reformers are alive today the ecological and social value of localization in agricultural production the potentials for community maintained and linked by transportation and communications technologies and the possibilities of democratic decentralization within large translocal networks The first systematic treatment of the spatial dimensions of the colonization of the prairie west Improved Earth is a unique and thorough study certain to provoke new debates about the way space and time are imagined

Global America? Ulrich Beck, Natan Sznaider, Rainer Winter, 2003-01-01 Many contemporary issues cannot be readily or fully understood at the level of the nation state and the concept of globalization is used to develop understanding through the analysis of global transnational processes This volume explores the phenomenon of Americanization and its worldwide impact and the cultural consequences of globalization

Whose Weight is it Anyway? Sofie Vandamme, Suzanne van de Vathorst, Inez Beaufort, 2010 Scholars from various disciplines address the ethical perspective of changing food habits in general and the promotion of healthy eating in particular

A Beginner's Guide to Social Theory Shaun Best, 2003-02-24 Offering a comprehensive overview of social theory from classical sociology to the present day this text guides students through the work of Durkheim Marx and Weber feminism postmodernism and contemporary thinkers like Foucault
