Korea James E. Hoare,2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea This fourth edition of *Historical Dictionary of the Republic of Korea* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities as well as aspects of the

how social movements affect the pace and direction of democracy in turn It explains how South Korean social movements were able to attain strong political influence by focusing on four causal factors the configuration of major political actors during the transition period the relational dynamics among social movement groups the relationship between social movements and institutionalized political actors and the impact of transnational forces in the post transition period Unlike previous scholarship the book takes a historical actor centered and process oriented approach that closely follows the interactions among contending actors through event sequences rather than being driven by abstract theoretical frameworks In doing so it analyses uses a broad range of evidence including police records untapped activist documents presidential memoirs newspaper accounts and original data sets Shedding light on the complex political reality that gave rise to a contentious civil society in South Korea after democratization this book also illuminates the institutional conditions that can help promote domestic peace and stability Therefore it will be of great use to students and scholars of Korean Studies Korean politics and social movements as well as policy makers
