Window Three Jon Nodine, 2009-06 If you had the choice to change your life for the better would you Sounds like an easy question but as it turns out change is more difficult than one may think A wise man once said that change after the age of 25 is virtually impossible it s as if our characters have somehow solidified making any attempt at change short lived Through the use of emotion Window Three will change all of that Jon has given us a direct call to action that proves if we change our level of emotion we can change our quality of life as well as the life of others I believe that if even a tenth of the world read this book it would truly be a better place Thanks for taking me on a great ride Stacy Matyanowski Director of Training and Recruiting Jon s passion enthusiasm and positive attitude are so refreshing His motivation continues to keep me asking myself what else can I do Melissa Yearly Sales Representative Jon is extremely astute in evaluating the way people perceive and interpret information and therefore the skills were more readily understood and absorbed It is a subtle talent that is often overlooked Harmony Morris Division Sales Manager He will challenge your best better your challenged and leave everyone looking for the next step His view of the world is that there is always opportunity to improve and those who learn to open their mind to new ideas will be the elite who find themselves leading their business in the future Andy Dimarzio Sales Manager Window Three immediately resonated with me and inspired me to make some crucial improvements in my approach to life Jon s humor and positive message illustrate some challenging material in the same manner you would expect a good friend to honestly directly and based on a behavioral theory that parallels some of the

great teachers of all time All of this he does in an accessible language that applies to all aspects of the human experience Patrick McGovern Director of Recruiting I loved Jon s message and the sincerity in which he delivers it What a great point in my life to have had the opportunity to read this book he has already impacted the life of someone by having written it Kathleen Breland Division President Lasting change is only as enduring as the emotion that precedes it Without that emotion the will to change undoubtedly fades away Your character is built upon all the emotions you have experienced leading up to this point in your life If you want to change your character and become a better person then finding that emotion to drive you to a higher level is not just recommended it s vital It s called Window Three *Studyguide for Sociology Cram101 Textbook Reviews,2012-07* Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780757551390 *Sociology : a Window on the World, Second Edition. Instructor's Manual* Kenneth Stoddart,Linda Bell Deutschmann,Lundy, Katherina L. P,1990 **Beyond Sociology's Tower of Babel** Bernard S. Phillips,2001 To look outside the discipline of sociology is to find little credibility given to the field as science Bernard Phillips argues that we are learning to see ever more clearly the contradiction between scientific standards and what in fact has been achieved by sociology Instead of knowledge based on the full range of our findings we have separate pieces of knowledge located within the diverse areas of the discipline and fads and fashions in the ideas and terms we use with relatively little cumulative development This has led many to question whether any scientific method can be applied to human behavior If the arguments and alternative interpretations in this book on the problematic nature of sociology s use of scientific method prove to be credible and fruitful then the implications are profound For example the conclusions drawn for every single social science study that has ever been conducted would be open to reinterpretation because they fail to take into account systematically the enormous complexity involved within any given instance of human behavior Our present approach assumes implicitly that the pieces of the human jigsaw puzzle can at some point be put together so as to yield a coherent picture Yet as Phillips shows if each piece is itself deficient then no coherent picture emerges when we attempt to put the pieces together Refusing to take the current fragmentation of sociology as inevitable Phillips offers a clear vision through a series of heuristic web images of how sociologists might achieve the cumulative development and credibility that are the hallmarks of any science His research draws heavily on the works of classical and contemporary theorists philosophers and historians of science as well as on postmodernist critiques and responses to postmodernism This reconstruction will be useful for courses in method in the study of the classical tradition of sociology Bernard Phillips was introduced to sociology at Columbia University by C Wright Mills A former professor of sociology at Boston University cofounder of the ASA Section on Sociological Practice and founder of the Sociological Imagination Group his publications emphasize methodology and theory *Society* Ian Robertson,1989
