Reproducing Kernels and their Applications S.

Saitoh, Daniel Alpay, Joseph A. Ball, Takeo Ohsawa, 1999-04-30 The First International Congress of the International Society for Analysis its Applications and Computations ISAAC 97 was held at the University of Delaware from 3 to 7 June 1997 As

specified in the invitation of the President Professor Robert P Gilbert of the ISAAC we organized the session on Reproducing Kernels and Their Applications In our session we presented 24 engaging talks on topics of current interest to the research community As suggested and organized by Professor Gilbert we hereby publish its Proceedings Rather than restricting the papers to Congress participants we asked the leading mathematicians in the field of the theory of reproducing kernels to submit papers However due to time restrictions and a compulsion to limit the Proceedings a reasonable size we were unable to obtain a comprehensive treatment of the theory of reproducing kernels Nevertheless we hope this Proceedings of the First International Conference on reproducing kernels will become a significant reference volume Indeed we believe that the theory of reproducing kernels will stand out as a fundamental and beautiful contribution in mathematical sciences with a broad array of applications to other areas of mathematics and science We would like to thank Professor Robert Gilbert for his substantial contributions to the Congress and to our Proceedings We also express our sincere thanks to the staff of the University of Delaware for their manifold cooperation in organizing the Congress
