Spectacles Lorgnettes And Monocles:

Spectacles, Lorgnettes and Monocles D.C. Lorgnettes and Monocles Derek C Davidson, 1989-01 **Spectacles and Other Vision Aids** J. William Rosenthal, 1996

Spectacles and the Victorians Gemma Almond-Brown, 2023-09-05 This is the first full length study of spectacles in the Victorian period It examines how the Victorians shaped our understanding of functional visual capacity and the concept of 20 vision Demonstrating how this unique assistive device can connect the histories of medicine technology and disability it charts how technology has influenced our understanding of sensory perception both through the diagnostic methods used to measure visual impairment and the utility of spectacles to ameliorate its effects Taking a material culture approach the book assesses how the design of spectacles thwarted ophthalmologists attempts to medicalise their distribution and use as well as creating a mainstream marketable device on the high street *Tigersprung* Ulrich Lehmann, 2000 The history of modernity written as a philosophy if fashion set in the cultural framework of Paris Making a Spectacle Jessica Glasscock, 2021-10-26 From 13th century Franciscan monks to Beyonc in Black is King Making a Spectacle charts the fascinating ascension of eyeglasses from an unsightly but useful tool to fashion s must have accessory The power of glasses to convey a range of vivid messages about their wearers have made them into a billion dollar business that appeals to cool kids and rock stars and those who want to be like them but the fashionable history of eyeglasses is fraught with anxiety and drama At the beginning of the 20th century the assessment in Vogue and Harper s Bazaar was that spectacles were invariably disfiguring Invisibility was the best option and glasses were only to be put on once the lights at the opera went dark While variations of that glasses shaming sentiment appeared at regular intervals over the next 100 years or so eyeglasses continued to evolve into an endless array of shapes colors purposes and personalities Once sunglasses took off in the 1930s the magazine editorial made glasses a conspicuous part of the fashion narrative Eyeglasses went to the ski slopes the stables the beach the Havana hotel Plastic innovations made a candy colored rainbow of cat eyes and starlet styles possible Suddenly everyone had the opportunity to look like Jackie O on vacation in Capri Making a Spectacle traces contemporary high fashion frames back to their origins the military aviator the glam cat eye the nerdlly Oxford the high tech shield the fanciful butterfly the lowly rimless and other styles all make an appearance Featuring interviews with influential designers makers and purveyors of glasses including Adam Selman Kerin Rose Gold and l a Eyeworks Making a Spectacle also takes a look at today s most cutting edge eyewear showing the reader the latest and most innovative ways to see and be seen Good taste, fashion, luxury: a genteel Melbourne family and their rubbish Sarah Hayes, 2014-09-09 Melbourne grew during the 19th century from its fledgling roots into a global metropolitan centre and was home to many people from a range of social and cultural backgrounds The

Martin family arrived in Melbourne in 1839 and soon established themselves at the genteel Viewbank estate near Heidelberg. They were typical of the early middle class immigrants to Melbourne who brought their gentility and privilege with them to the colony. The Martins spent many years at Viewbank and the physical remains they left behind provide a valuable case study for examining class negotiation in the colony through historical archaeology. In this important study, material culture is used to understand the unique way in which the Martin family used gentility to establish and maintain their class position.

Cigarette Lighter Jack Pendarvis, 2016-01-28. Object Lessons is a series of short beautifully designed books about the hidden lives of ordinary things: smokers, survivalists, teenagers, collectors. The cigarette lighter is a charged, complex yet often entirely disposable object that moves across these various groups of people, acquiring and emitting different meanings while always supplying its primary function: that of ignition. While the lighter may seem at first a niche object only for old-fashioned cigarette smokers, in this book Jack Pendarvis explodes the lighter as something with deep history, as something with quirky episodes in cultural contexts, and as something that dances with wide-ranging taboos and traditions. Pendarvis shows how the lighter carries with it the cheapest ends of consumer culture as much as it displays more profound dramas of human survival, technological advances, and aesthetics. Object Lessons is published in partnership with an essay series in *The Atlantic*.

Necessaries: Two Hundred Years of Fashion Accessories Daniel Delis Hill, 2014-12-31. In this comprehensive study, fashion historian Daniel Delis Hill chronicles women's and men's fashion accessories from 1800 to the new millennium. Each chapter includes a historical overview of the era and an introduction to the principal fashions worn by women and men. Accessories are arranged by category and include hats, shoes, handbags, jewelry, gloves, parasols, and umbrellas, fans, neckwear, belts, and suspenders, handkerchiefs, hosiery, walking sticks, and eyewear. With more than 800 illustrations, many never before seen in book form, this well-researched study is a valuable resource for the fields of fashion history, fashion design, and merchandising, theatre, costuming, and American popular culture.

Encyclopedia of Ephemera Maurice Rickards, 2018-10-24. The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives, or ephemera, may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The *Encyclopedia of Ephemera* is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era when disposable paper items such as trade cards, die cuts, and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple

slips of paper can speak volumes about status taste customs and taboos revealing the very roots of popular culture
